| 1  | HOUSE BILL 26                                                  |
|----|----------------------------------------------------------------|
| 2  | 52ND LEGISLATURE - STATE OF NEW MEXICO - SECOND SESSION, 2016  |
| 3  | INTRODUCED BY                                                  |
| 4  | Sarah Maestas Barnes and Mimi Stewart and Sheryl Williams      |
| 5  | Stapleton                                                      |
| 6  |                                                                |
| 7  |                                                                |
| 8  |                                                                |
| 9  |                                                                |
| 10 |                                                                |
| 11 | AN ACT                                                         |
| 12 | RELATING TO TAXATION; EXTENDING THE SOLAR MARKET DEVELOPMENT   |
| 13 | TAX CREDIT; INCREMENTALLY REDUCING THE AMOUNT OF THE CREDIT;   |
| 14 | COMBINING THE SOLAR THERMAL SYSTEMS AND PHOTOVOLTAIC SYSTEMS   |
| 15 | AGGREGATE CAPS INTO ONE AGGREGATE CAP.                         |
| 16 |                                                                |
| 17 | BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:   |
| 18 | SECTION 1. Section 7-2-18.14 NMSA 1978 (being Laws 2006,       |
| 19 | Chapter 93, Section 1, as amended) is amended to read:         |
| 20 | "7-2-18.14. SOLAR MARKET DEVELOPMENT TAX CREDIT                |
| 21 | RESIDENTIAL AND SMALL BUSINESS SOLAR THERMAL AND PHOTOVOLTAIC  |
| 22 | MARKET DEVELOPMENT TAX CREDIT                                  |
| 23 | A. Except as provided in Subsection C of this                  |
| 24 | section, a taxpayer who files an individual New Mexico income  |
| 25 | tax return for a taxable year beginning on or after January 1, |
|    | .202653.1                                                      |

1 Β. The total solar market development tax credit 2 allowed for either a photovoltaic system or a solar thermal system shall not exceed nine thousand dollars (\$9,000). 3 The department shall allow solar market development tax credits 4 only for solar thermal systems and photovoltaic systems 5 certified by the energy, minerals and natural resources 6 7 department. Solar market development tax credits may not be 8 C. claimed or allowed for: 9 a heating system for a swimming pool or a 10 (1) hot tub; or 11 12 (2) a commercial or industrial photovoltaic system other than an agricultural photovoltaic system on a farm 13 or ranch that is not connected to an electric utility 14 transmission or distribution system. 15 The department may allow a maximum annual D. 16 aggregate of 17 [(1) two million dollars (\$2,000,000) in solar 18 19 market development tax credits for solar thermal systems; and 20 (2) three million dollars (\$3,000,000)] five million dollars (\$5,000,000) in solar market development tax 21 credits [for photovoltaic systems]. 22 A portion of the solar market development tax Ε. 23 credit that remains unused in a taxable year may be carried 24 forward for a maximum of ten consecutive taxable years 25 .202653.1 - 3 -

1 following the taxable year in which the credit originates until
2 fully expended.

F. Prior to July 1, 2006, the energy, minerals and 3 natural resources department shall adopt rules establishing 4 procedures to provide certification of solar thermal systems 5 and photovoltaic systems for purposes of obtaining a solar 6 7 market development tax credit. The rules shall address technical specifications and requirements relating to safety, 8 9 code and standards compliance, solar collector orientation and sun exposure, minimum system sizes, system applications and 10 lists of eligible components. The energy, minerals and natural 11 resources department may modify the specifications and 12 requirements as necessary to maintain a high level of system 13 14 quality and performance.

G. As used in this section:

(1) "photovoltaic system" means an energy system that collects or absorbs sunlight for conversion into electricity; and

(2) "solar thermal system" means an energy system that collects or absorbs solar energy for conversion into heat for the purposes of space heating, space cooling or water heating."
