

Qualified Census Tracts (QCTs) & Difficult to Develop Areas (DDAs)

Methodology

We compared the QCTs and DDAs listed in the Federal Register dated, September 11, 2001 with the QCTs and DDAs listed in the Federal Register dated, September 22, 2000. We have listed on the attached any new QCTs or DDAs. To access this list and the Federal Register go to our web site at www.novoco.com/Facts_Figures.htm#ddas. Many of the new QCTs are a result of the new definition that defines a QCT as a census tract that has 50 percent of its households with incomes below 60 percent of area median gross income or has a poverty rate of 25 percent or more to be eligible.

Definition of QCT

The term QCT means any census tract which is designated by HUD either in which 50 percent or more of the households have an income which is less than 60 percent of the area median gross income for such year or which has a poverty rate of at least 25 percent. QCTs are determined by a HUD ranking system (see Federal Register for more detail) and the above criterion only determines if a census tract is “eligible” and not necessarily “qualified.”

Definition of DDA

The term DDA means any area designated by HUD as an area which has high construction, land, and utility costs relative to area median gross income. DDAs are determined by ranking areas according to a ratio. The numerator of the ratio is the area's 2001 FMR. The denominator of the ratio is the monthly tax credit rent limit calculated as 1/12 of 30 percent of the 60 percent AMGI. DDAs are those metropolitan areas or non-metropolitan counties with the highest ratios cumulative to 20 percent of the 2000 population of all metropolitan areas and of all non-metropolitan counties.

Effective Date

The list of DDAs and the list of QCTs is effective for allocations of credit made after December 31, 2001. In the case of a building described in Internal Revenue Code 42(h)(4)(B), the list is effective if the bonds are issued and the building is placed in service after December 31, 2001 (see Federal Register for examples).

Disclaimer

We determined the new QCTs and DDAs using published data from the U.S. Department of Housing and Urban Development. Therefore, Novogradac & Company LLP does not warrant or guarantee any accuracy in the results or use of this list. The QCT and DDAs should be checked against the Federal Register dated September 11, 2001. Novogradac & Company LLP is not responsible for actions taken based on this list. Novogradac & Company LLP, its partners, agents, and employees will be held harmless from any matters arising out of or related to this list of QCTs and DDAs.
