

COMMUNITY DEVELOPMENT FINANCIAL INSTITUTIONS FUND

A NEW AMIS INTERFACE COMING IN JANUARY

In October, the Community Development Financial Institutions Fund (CDFI Fund) reported that its Awards Management Information System (AMIS) would be transitioning to an updated user interface. **Originally scheduled to occur in mid-December, the conversion to the Salesforce Lightning environment is now scheduled to take place on January 14, 2022.**

While the Salesforce Lightning interface will improve the AMIS user experience, it will take some time to develop familiarity with the new operating environment. The CDFI Fund has developed resources, including a user guide and a series of “How-To” videos, to help familiarize AMIS users with the new interface and assist in navigating within the Lightning environment. These resources can be found on the [CDFI Fund’s AMIS webpage](#) under ‘AMIS Training Materials’.

Questions regarding AMIS can be submitted via a Service Request in AMIS, email at amis@cdfi.treas.gov, or phone at (202) 653-0422.
