

Specified service trade or business

The conference agreement modifies the definition of a specified service trade or business in several respects. The definition is modified to exclude engineering and architecture services, and to take into account the reputation or skill of owners.

A specified service trade or business means any trade or business involving the performance of services in the fields of health, law, consulting, athletics, financial services, brokerage services, or any trade or business where the principal asset of such trade or business is the reputation or skill of one or more of its employees or owners, or which involves the performance of services that consist of investing and investment management trading, or dealing in securities, partnership interests, or commodities. For this purpose a security and a commodity have the meanings provided in the rules for the mark-to-market accounting method for dealers in securities (sections 475(c)(2) and 475(e)(2), respectively).

Determination of the taxpayer's deduction

The taxpayer's deduction for qualified business income for the taxable year is equal to the sum of (a) the lesser of the combined qualified business income amount for the taxable year or an amount equal to 20 percent of the excess of taxpayer's taxable income over any net capital gain⁶⁹ and qualified cooperative dividends, plus (b) the lesser of 20 percent of qualified cooperative dividends and taxable income (reduced by net capital gain). This sum may not exceed the taxpayer's taxable income for the taxable year (reduced by net capital gain). Under the provision, the 20-percent deduction with respect to qualified cooperative dividends is limited to taxable income (reduced by net capital gain) for the year. The combined qualified business income amount for the taxable year is the sum of the deductible amounts determined for each qualified trade or business carried on by the taxpayer and 20 percent of the taxpayer's qualified REIT dividends and qualified publicly traded partnership income. The deductible amount for each qualified trade or business is the lesser of (a) 20 percent of the taxpayer's qualified business income with respect to the trade or business, or (b) the greater of 50 percent of the W-2 wages with respect to the trade or business or the sum of 25 percent of the W-2 wages with respect to the trade or business and 2.5 percent of the unadjusted basis, immediately after acquisition, of all qualified property.

Deduction against taxable income

The conference agreement clarifies that the 20-percent deduction is not allowed in computing adjusted gross income, and instead is allowed as a deduction reducing taxable income. Thus, for example, the provision does not affect limitations based on adjusted gross income. Similarly the conference agreement clarifies that the deduction is available to both non-itemizers and itemizers.

⁶⁹ Defined in sec. 1(h).
