## **TOTAL PROJECT COST NOTES**

The following information is provided for assistance in completing the Total Project Costs budget pages. It is not provided as legal or tax advice. The tax law is very complex and the consequences of errors can create substantial risk to the taxpayer. The Commission strongly advises consultation with a tax advisor, legal counsel, and/or accountant.

Total Project Costs include the applicable common areas of the residential portion of each Building, but exclude Intermediary Costs, Reserves, and any expenses attributable to commercial areas and/or other non-residential space. Applicants with Projects that include non-residential space must complete the additional financing pages included as Exhibit M of the Application Package and include as an attachment to the Application the requested supporting documentation.

### **Checklist Item 44**

Expenses associated with any commercial or other non-residential use may not be included in the Total Project Costs, Eligible Basis, or the Equity Gap calculation except as specifically allowed for under Section 42. Projects that include commercial areas and/or other non-residential space must allocate the relative portion of all applicable expenses to the commercial areas or other non-residential space and exclude it from the Total Project Costs and Eligible Basis. In determining the Equity Gap calculation, there is no corresponding deduction from Project sources of funds for that amount of financing associated with the commercial or other non-residential use, unless such financing specifically identifies in its terms that it is being provided for the commercial or other non-residential use.

Refer to the Code for additional information regarding Eligible Basis. Refer to the *Policies* for additional information regarding Total Project Costs and Eligible Basis, particularly Chapter 3 on Program Limits.

- (1) Environmental abatement expenses associated with the Land are generally not includible in Eligible Basis, but those associated with removing hazardous materials (e.g., asbestos) from Buildings being rehabilitated are includible.
- (2) Only site work associated with the Buildings (e.g., grading foundations) is includible in Eligible Basis.
- (3) The costs of constructing or rehabilitating accessory Buildings are includible in Eligible Basis only if such Buildings are common areas that are functionally related to the Housing Units, have no separate fees for their use, and are exclusively used by and available to all Residents.
- (4) Refer to Chapter 3, Section K of the *Policies* for more information.
- (5) Refer to Chapter 3, Section C of the *Policies* for more information.
- (6) Interest expense for the carry of Land prior to start of construction is not includible in Eligible Basis.
- (7) Property taxes accruing prior to the start of construction or otherwise allocable to Land are not includible in Eligible Basis. Real property transfer taxes are not includible in Eligible Basis.
- (8) Resident relocation expenses may be includible in Eligible Basis if the expenses are incurred in connection with the rehabilitation of an Existing Building. Relocation expenses for commercial tenants or relocation expenses incurred in connection with a building that is demolished are not includible in Eligible Basis.
- (9) Refer to Chapter 3, Section I of the *Policies* for more information.
- (10) Refer to Chapter 3, Sections I and J of the *Policies* for more information.
- (11) If the Project is or will be Federally Subsidized, the Owner must either reduce the Applicable Percentage as described in Code Section 42(b)(2)(B) or reduce the Eligible Basis as in Code Section 42(i)(2)(B). If the Project has or will be the recipient of Federal Funding that constitutes a Grant, whether such Grant is made with respect to any Building or the operation thereof, at any time throughout the Compliance Period, the Eligible Basis must be accordingly reduced.

- (12) If the Project is eligible for Historic Rehabilitation Tax Credit, include the following information as an attachment to the Application: (i) an itemized breakdown of: (a) the residential Qualified Rehabilitation Expenses, (b) the commercial or other non-residential Qualified Rehabilitation Expenses, and (c) the total Qualified Rehabilitation Expenses; (ii) an explanation of any differences in the residential Qualified Rehabilitation Expenses on page 11 compared with the Total Project Costs included on pages 23-24; and (iii) a detailed calculation of the Historic Rehabilitation Tax Credit proceeds for the Residential portion of the Project.
- (13) Eligible Basis may be adjusted for high cost areas for the “9%” Credit for new construction or substantial rehabilitation without federal subsidies or for the “4%” Credit for new construction or substantial rehabilitation with federal subsidies, but not for the “4%” Credit for acquisition.
- (14) The maximum amount of annual Credit requested is subject to the various limits included in the Chapter 3 of the *Policies*. The actual amount of Credit reserved or allocated to a Project, if any, is determined by the Commission.

## **MAXIMUM DEVELOPMENT COST PER HOUSING UNIT**

### ***Checklist Item 40***

The Commission encourages development at the lowest reasonable cost and will review development costs accordingly. The Applicant must provide a detailed breakdown of anticipated Total Project Costs exclusive of any amount attributable to commercial costs. This breakdown must be updated if there is a change of 10% or more of the anticipated Total Project Costs.

The following outlines the Commission's maximum development cost per unit policy:

1. The maximum development cost per Unit is 110% of the Statutory Mortgage Limit Schedules for the FHA 221(d)(3) Mortgage Insurance Program.
2. Land cost is excluded from the limit calculation.
3. Initial Credit determination is subject to project's adherence to the HUD Limits Schedule for the application year.
4. Final Credit determination is subject to project's adherence to the HUD Limit Schedules for the year that the Project places in service or the application year, whichever is greater.
5. The Applicant may have the maximum development cost limit raised if the project meets one or more of the adjustment criteria listed below:
  - A.  135% of the HUD Mortgage Limit Schedules, because the Project is subject to:
    - Competitive bid requirements;
    - Davis Bacon wage rates or state prevailing wage requirements; or
  - B.  150% of the HUD Mortgage Limit Schedules, because the Project meets the Allocation Criterion for:
    - Special-Needs Housing Set-Aside for Large Households;
    - Special-Needs Housing Set-Aside for persons with Disabilities;
    - Special-Needs Housing Set-Aside for Transitional Housing or Housing for the Homeless;
    - Rehabilitation Projects; or
    - The Project is 25 Housing Units or less
  - C.  175% of the HUD Mortgage Limit Schedules, because the Project meets at least one of the requirements for A and one of the requirements for B, above.
  - D.  200% of the HUD Mortgage Limit Schedules, because the Project consists of the rehabilitation of a Historic Property and meets at least one of the requirements for A and one of the requirements for B, above.

I further certify that I have the requisite authority to make this certification and acknowledge that I have read the Commission's *Policies* and agree to carry out the terms and conditions stated therein.

I acknowledge that I am responsible for ensuring that the Project described in the Application consists or will consist of one or more Qualified Buildings and that the Project will meet the definition of a "qualified low-income housing project" as that term is defined in Section 42 of the Internal Revenue Code, as amended, and will satisfy all applicable requirements of federal income tax law in acquisition, rehabilitation, or construction and operation of the Project to receive the Credit.

I acknowledge that I am responsible for all calculations and figures relating to the determination of Total Project Costs, Adjusted Basis, Eligible Basis and Qualified Basis for each Building in the Project described in the Application, and I understand and agree that the amount of any Credit reserved or allocated is calculated with reference to the figures submitted in the Application.
