

## A Message From AHFA Regarding Coronavirus (COVID-19)

*AHFA is closely monitoring the COVID-19 pandemic. In light of the rapidly evolving situation, AHFA has adopted the best practices put forth by the Centers for Disease Control and Prevention (CDC) along with other health agencies and is closely following state and national developments.*

***While AHFA remains open for business, we are operating at reduced staffing levels. In addition, we have temporarily halted all employee business travel, and our offices are closed to visitors.***

*We appreciate your patience as we take steps necessary to address this issue.*
