

Qualified Allocation Plan (QAP)
2018 *Balanced Housing Opportunities Map*
Reference Guide

OVERVIEW

In order to balance housing investments and encourage the creation of affordable housing opportunities within the State of Delaware in areas that contain little or no affordable housing, but which may offer economic opportunity, proximity to the workplace, high performing schools, or supportive infrastructure, DSHA uses the QAP to incentivize development in Areas of Opportunity.

AREA	INDICATORS	HOUSING STRATEGY
Areas of Opportunity 	Delaware Market Areas* A, B, and C or Wilmington Market Areas A and B Strong School Proficiency	Strong, high value markets, many with high performing schools, where new affordable housing opportunities should be supported.
Stable 	Delaware Market Areas* D, E, and F or Wilmington Market Areas C, D, and E	Areas where a balance of market rate with subsidized housing should be supported
Distressed 	'Racially/Ethnically Concentrated Areas of Poverty' (R/ECAP) Delaware Market Areas* G and H or Wilmington Market Areas F, G, and H Strong Communities or Impacted Rural Communities	These are areas where development that furthers highly concentrated areas of minorities or poverty should be limited. These same areas should encourage sustainable homeownership.

Note regarding *State Strategies for Policies and Spending*

DSHA promotes the use of the *State Strategies* by tailoring programs based on its identified Investment Levels. For example: in order for a developer to apply for Low Income Housing Tax Credits, it is a threshold requirement that proposals for newly constructing or rehabilitating affordable rental communities be located in Investment Levels 1, 2, or 3. The Areas shown on the Balanced Housing Opportunities Map and listed above are only those located within Investment Levels 1, 2, and 3.

DATA LAYERS - DEFINITIONS AND SOURCES

Delaware Market Areas *excluding City of Wilmington

- As identified in the Market Valuation Analysis, developed by the Reinvestment Fund (TRF), and included in the *Delaware Housing Needs Assessment, 2015 – 2020*

Wilmington Market Areas

- As identified in the Wilmington Market Valuation Analysis, developed by the Reinvestment Fund (TRF) in 2015.

'Racially/Ethnically Concentrated Areas of Poverty' (R/ECAP)

- As defined by U.S. Department of Housing and Urban Development, census tracts with:
 - A family poverty rate $\geq 40\%$ or
 - A family poverty rate $\geq 300\%$ of the metro tract average* (whichever is lower)
 - AND a majority nonwhite population ($>50\%$)

The map reflects HUD-defined R/ECAPS as of November, 2015.

Strong Communities or Impacted Rural Communities

- Highly distressed predominantly minority communities located in Kent and Sussex Counties typically in isolated areas.

Strong School Proficiency

- Areas where students are attending schools achieving a proficiency of 90% or higher, according to the School Attendance Boundary Information System (SABINS), 2011. Values are percentile ranked and range from 0 to 100. The higher the score, the higher the quality of the school system in a neighborhood. This dataset is maintained by the Minnesota Population Center and the College of William & Mary, and contains school proficiency information on all school districts in Delaware to the Census block-group level. HUD has determined this source as a valid indicator of school performance and contributing factor to a neighborhood's quality.
