

must feasibly attain most of the objectives of the proposed project while also avoiding or substantially lessening at least one of the significant environmental effects of the proposed project. As required by NEPA, the alternatives will be evaluated at the same level of detail as the proposed project. As a result of the scoping and agency consultation efforts conducted to date, the alternatives currently proposed for evaluation in the EIR/EIS include:

1. No Project/Action Alternative. This alternative, required by both CEQA and NEPA, would evaluate the environmental impacts if the proposed project were not constructed and existing operations on the project site were to continue.

2. Proposed Project. This alternative would evaluate the proposed project as described in the Project Description.

3. One or more other alternatives (to be identified). Alternative(s) will be based on input received during the scoping process and feasible project options that could minimize or avoid significant environmental effects. These alternatives may possibly include a reduced project alternative and/or an alternative site, and will be identified during the scoping process.

One of the purposes of the NOI is to solicit input from the public, agencies, Indian tribes, and interested organizations regarding potential alternatives to the proposed project. Therefore, the City welcomes comments during the public scoping process regarding these alternatives or suggestions for other alternatives to be examined in the EIR/EIS.

Probable Environmental Effects

The following subject areas will be analyzed in the combined EIS/EIR for probable environmental effects: Aesthetics (including light and glare); air quality; biological resources; climate change/greenhouse gases; cultural resources; geology and soils; paleontology; hazards and hazardous materials; hydrology and water quality; land use; noise and vibration; population, employment, and housing; public services; recreation; transportation and traffic; utilities and service systems; environmental justice; cumulative impacts; and growth-inducing impacts.

Lead Agency

For purposes of complying with NEPA and CEQA, the City of West Sacramento is the Lead Agency and as the Responsible Entity under 24 CFR 58.2(a)(7) assumes the responsibility for environmental review, decisionmaking, and action that would otherwise apply

to HUD under NEPA. Section 104(g) of Title I of the Housing and Community Development Act (42 U.S.C. 5304[g]) authorizes recipients of HUD assistance to assume NEPA responsibilities in projects involving CDBG for infrastructure development.

Questions may be directed to the individual named in this notice under the heading **FOR FURTHER INFORMATION CONTACT**.

Dated: October 25, 2010.

Mercedes M. Márquez,

Assistant Secretary for Community Planning and Development.
