In 2014, the Department will continue implementation of the Rental Assistance Demonstration (RAD), authorized by the Consolidated and Further Continuing Appropriations Act of 2012 (P.L. 112-55). Under RAD, Public Housing Authorities (PHAs) and other owners of rental properties assisted under the Public Housing, Moderate Rehabilitation (Mod Rehab), Rent Supplement (Rent Supp) and Rental Assistance Payment (RAP) programs are offered the option to convert their properties to long-term, project-based Section 8 contracts that can leverage private financing for capital improvements. Through February 2013, HUD awarded 112 initial approvals to 70 PHAs, supporting the eventual conversion of over 12,100 Public Housing units; and 24 approvals to private owners of Rent Supp, RAP, and Mod Rehab properties for the conversion of 2,770 units with contracts expiring through September 30, 2013. The Department has also received 38 Letters of Interest (constituting an additional 4,300 units) from private owners of properties with contracts expiring after September 30, 2013.

While the Department will continue to process no-cost conversions in 2014, the Budget requests \$10 million for a targeted expansion of RAD to Public Housing properties that cannot feasibly convert at existing funding levels and are located in high-poverty neighborhoods, including designated Promise Zones, where the

Administration is supporting comprehensive revitalization efforts. This request will cover the incremental subsidy cost of converting approximately 3,300 Public Housing units, thereby increasing private investment in targeted projects and surrounding neighborhoods.

The Budget also includes the following proposals to facilitate additional no-cost conversions of HUD-assisted properties under RAD: 1) increases the unit cap on Public Housing conversions from 60,000 to 150,000; 2) excludes Mod Rehab properties from the unit cap; 3) makes Section 8 Mod Rehab Single Room Occupancy properties eligible for RAD; and 4) extends by two years (through September 30, 2015) the sunset date on conversions of Rent Supp, RAP and Mod Rehab properties.

The 2014 Budget provides \$20 billion for the Tenant-Based Rental Assistance Program (also known as the Housing Choice Voucher program). The Housing Choice Voucher program provides housing assistance to 2.2 million extremely low- to very low-income families to rent in the neighborhoods of their choice. This is the Federal government's largest and most income-targeted program for assisting very low-income families to rent decent, safe and sanitary housing in the private market. About 2,350 state and local Public Housing Authorities (PHAs) administer the Housing Choice Voucher program.

In addition to continuing assistance for families anticipated to be under lease by 2013, the Budget provides new vouchers to make progress on HUD's annual performance goals to maximize the number of families receiving rental assistance and to reduce the number of homeless veterans. The Budget includes \$111 million to renew over 14,000 vouchers for persons with disabilities that were previously funded from the Section 811 account, and \$75 million in new vouchers for homeless veterans through the HUD-Veteran Affairs Supportive Housing (HUD-VASH) program. The Budget also requests \$150 million for tenant protection vouchers, which are provided when certain actions occur beyond the control of the residents, such as public housing demolition or disposition, or when landlords terminate their Project-Based Rental Assistance contracts.

The Budget proposes comprehensive legislative reforms across HUD's core rental assistance programs (Housing Choice Vouchers, Project-Based Rental Assistance, and Public Housing). The main goals of this legislation are to improve family outcomes, streamline program delivery, reduce burden on PHAs and private owners, and reduce short- and long-term program costs.

This legislative proposal will include a substantial expansion of the Moving to Work (MTW) program to high-capacity PHAs. In partnership with HUD, participating PHAs will design and implement innovative policies related to housing preservation, family self-sufficiency, mobility, cost-effectiveness and other priority areas. Key tenant protections will continue to apply and PHAs will be subject to rigorous reporting and evaluation requirements.

Additional reforms include: (1) providing PHAs greater flexibility in the use of their funds for supportive services; (2) streamlining the Family Self-Sufficiency program; (3) allowing fixed-income families to recertify their incomes every three years; (4) simplifying and improving the annual plan requirement; (5) increasing

the threshold used to determine deductions for unreimbursed medical expenses from 3 to 10 percent of family income; (6) broadening the definition of extremely low-income to apply to families with incomes that are the higher of 30 percent of area median income or the Federal poverty level; and (7) ensuring the responsible stewardship of Federal funds by establishing reasonable limits on compensation provided to PHA personnel. This is part of a government-wide effort to review the compensation policy of non-Federal staff supported primarily with Federal funds.

The proposed legislation will also address reforms specific to the Housing Choice Voucher program, such as: (1) authorizing the renewal formula to ensure predictability and stability for the program; (2) improving the Project-Based Voucher program; (3) addressing homelessness through expansion of the sponsor-based assistance model; (4) enabling biennial and alternative inspections, and (5) streamlining the process for establishing annual Fair Market Rents. The Administration also continues to improve the management of the Housing Choice Voucher program by working on the development of the Next Generation Management System, which will comprehensively overhaul and improve HUD information technology systems to better manage and administer the program.

While some reforms are included in the general provisions at the end of this chapter, all others will be included in authorizing legislation to be transmitted to Congress in the Spring of 2013.

Until 2005, the Housing Certificate Fund provided funding to both the project-based and tenant-based components of the Section 8 program. Project-Based Rental Assistance and Tenant-Based Rental Assistance are now funded in separate accounts. The Housing Certificate Fund retains and recovers balances from previous years' appropriations, and uses those balances to support contract renewals, amendments, and performance-based contract administrators.

The Budget requests \$10.3 billion for Project-Based Rental Assistance (PBRA), of which \$400 million is requested as an advance appropriation to become available in 2015. The PBRA program assists approximately 1.2 million extremely low- to low-income households in obtaining decent, safe, and sanitary housing in private accommodations. PBRA serves families, elderly and disabled households and provides transitional housing for the homeless. Through this funding, HUD supports approximately 17,500 contracts with private owners of multifamily housing by paying the difference between what a household can afford, generally 30 percent of its eligible income, and the approved market-based rent for a housing unit.

The Budget proposes comprehensive legislative reforms to HUD's core rental assistance programs, including PBRA. In addition to crosscutting reforms, which are summarized under the Tenant-Based Rental Assistance heading, the Budget includes the following proposals that are specific to the PBRA program: (1) collects excess reserves (residual receipts) from owners in the PBRA program and uses them to cover a portion of the assistance payments; (2) establishes a demonstration allowing HUD to enter multi-year agreements to repay private investors who provide upfront funding for energy efficiency retrofits of HUD-assisted housing; and (3) amends the Low-Income Housing Preservation and Resident Homeownership Act (LIHPRHA) to align owner distribution policies in properties governed by LIHPRHA with other PBRA-assisted properties in order to facilitate preservation transactions. HUD also plans to implement a Flexible Portfolio Demonstration, which would offer regulatory and administrative flexibilities to high-performing multifamily owners in exchange for commitments to provide costs savings and to preserve property affordability.

Program activities include the following:

**Contract Renewals and Amendments.**—These activities provide funding for HUD to renew expiring contracts and amend contracts that have not expired but require additional funding for HUD to meet remaining payment obligations. These funds cover the direct housing costs of families in the program. Currently, 91 percent of contracts are funded annually; the other 9 percent are long-term contracts funded with previous appropriations, of which 45 percent will need amendment funding in 2014. Appropriations for these activities are supplemented with recoveries of excess balances remaining on expired contracts that utilized less than anticipated resources during their initial terms.

**Contract Administrators.**—This activity funds the local level administration of the program through HUD contracts with performance-based contract administrators. These entities, which are typically public housing authorities or state housing finance agencies, are responsible for conducting on-site management re-

views of assisted properties; adjusting contract rents; reviewing, processing, and paying monthly vouchers submitted by owners; renewing contracts with property owners; and responding to health and safety issues at properties. The Budget requests up to \$265 million for this purpose.

PUBLIC HOUSING CAPITAL FUND

*For the Public Housing Capital Fund Program to carry out capital and management activities for public housing agencies, as authorized under section 9 of the United States Housing Act of 1937 (42 U.S.C. 1437g) (the "Act"), \$2,000,000,000, to remain available until September 30, 2017: Provided, That notwithstanding any other provision of law or regulation, during fiscal year 2014 the Secretary of Housing and Urban Development may not delegate to any Department official other than the Deputy Secretary and the Assistant Secretary for Public and Indian Housing any authority under paragraph (2) of section 9(j) regarding the extension of the time periods under such section: Provided further, That for purposes of such section 9(j), the term "obligate" means, with respect to amounts, that the amounts are subject to a binding agreement that will result in outlays, immediately or in the future: Provided further, That up to \$8,000,000 shall be to support ongoing Public Housing Financial and Physical Assessment activities: Provided further, That of the total amount provided under this heading, not to exceed \$20,000,000 shall be available for the Secretary to make grants, notwithstanding section 204 of this Act, to public housing agencies for emergency capital needs resulting from unforeseen or unpreventable emergencies and natural disasters excluding Presidentially declared emergencies and natural disasters under the Robert T. Stafford Disaster Relief and Emergency Act (42 U.S.C. 5121 et seq.) occurring in fiscal year 2014: Provided further, That from the funds made available under this heading, the Secretary shall provide bonus awards in fiscal year 2014 to public housing agencies that are designated high performers: Provided further, That up to \$15,000,000 of funds made available under this heading shall be used for a Jobs-Plus Pilot initiative modeled after the Jobs-Plus demonstration: Provided further, That the Jobs-Plus Pilot initiative shall provide competitive grants to partnerships between public housing authorities, local workforce investment boards established under section 117 of the Workforce Investment Act of 1998, and other agencies and organizations that provide support to help public housing residents obtain employment and increase earnings: Provided further, That the Secretary may waive or specify alternative requirements for any provision of the United States Housing Act of 1937 (except for requirements related to fair housing, nondiscrimination, labor standards, and the environment) upon a finding by the Secretary that any such waivers or alternative requirements are necessary for the effective implementation of the Jobs-Plus Pilot initiative: Provided further, That the Secretary shall publish by notice in the Federal Register any waivers or alternative requirements pursuant to the preceding proviso no later than 10 days before the effective date of such notice.*

Note.—A full-year 2013 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Continuing Appropriations Resolution, 2013 (P.L. 112-175). The balance includes: up to \$20 million for emergency capital needs resulting from non-Presidentially declared emergencies and natural disasters; up to \$15 million for a Jobs-Plus pilot modeled after the evidence-based Jobs-Plus demonstration; and up to \$8 million for Public Housing financial and physical assessment support.

**PUBLIC HOUSING OPERATING FUND**

The Budget requests \$4.6 billion for the Public Housing Operating Fund, which provides subsidies to Public Housing Authorities (PHAs) to assist in funding the operating expenses of Public Housing units in accordance with Section 9(e) of the United States Housing Act of 1937. This request is equal to 90 percent of PHAs' estimated funding eligibility under the Operating Fund formula.

The Budget also proposes comprehensive legislative reforms to HUD's core rental assistance programs, including Public Housing. In addition to crosscutting reforms, which are summarized under the Tenant-Based Rental Assistance heading, the Budget includes the following proposals that are specific to Public Housing: (1) provides all PHAs with full flexibility to use their operating and capital funds for any eligible expense under both programs; (2) phases in a flat rent floor of 80 percent of the applicable fair market rent; (3) allows PHAs to form consortia for the purposes of administering Public Housing; (4) streamlines the community service requirement; and (5) establishes a utilities conservation pilot to encourage PHAs to undertake energy conservation measures and reduce Federal costs. The first three proposals are reflected in the general provisions at the end of this budget chapter; the latter two will be included in authorizing legislation to be submitted to Congress in the spring of 2013.

The Budget proposes \$400 million for Choice Neighborhoods to continue the transformation of neighborhoods of poverty into sustainable, mixed-income neighborhoods with well-functioning services, schools, public assets, transportation, and access to jobs. The goal of the program is to transform distressed neighborhoods and improve the quality of life of current and future residents by coordinating and concentrating neighborhood investments from multiple sources. To date, the Department has awarded 9 implementation grants in the amount of \$231 million and 47 planning grants in the amount of \$12.6 million. The Budget will fund an additional 10 implementation grants and 20 planning grants.

Choice Neighborhoods builds on the successes of Public Housing transformation under HOPE VI with a broader approach to concentrated poverty. In addition to preserving, rehabilitating, and transforming distressed Public Housing and other HUD-assisted rental properties, Choice Neighborhoods implementation grants support key social service investments as well as a range of community and economic development activities. A strong emphasis is placed on improving outcomes for youth by leveraging evidence-based school reforms and early education and after school programs. Grantees, which include public housing authorities, local governments, non-profits and for-profit developers, are required to undertake comprehensive local planning with input from residents and community stakeholders.

Choice Neighborhoods is also a central component of the Administration's new Promise Zones—high-poverty communities where the Federal government will work with local leadership to invest and engage more intensely to create jobs, leverage private investment, increase economic activity, reduce violence and expand educational opportunities. The Budget includes companion investments of \$200 million and \$10 million, respectively, in HUD's Neighborhood Stabilization and Rental Assistance Demonstration programs, \$300 million in the Department of Education's Promise Neighborhoods program, and \$35 million in the Department of Justice's Byrne Criminal Justice Innovation Grants program, as well as tax incentives to promote investment and economic growth.

The HOPE VI program, in coordination with funding from the Public Housing Capital Fund, has accomplished its goal of contributing to the demolition of 100,000 severely distressed Public Housing units. The Budget proposes no additional funds for this program. Instead, the Budget builds on the success of HOPE VI with the Choice Neighborhoods program, which makes a broad range of transformative investments in high-poverty neighborhoods where Public Housing and other HUD-assisted housing is concentrated.

Remaining balances of HOPE VI grants will spend out over several years as redevelopment projects are completed. Cumulative results of the HOPE VI program as of September 30, 2012 are as follows: 75,116 households relocated; 96,456 units demolished; 93,265 units (new and rehabilitated) completed; and 92,139 completed units occupied.

## FAMILY SELF-SUFFICIENCY

For the Family Self-Sufficiency program to support family self-sufficiency coordinators under section 23 of the United States Housing Act of 1937, to promote the development of local strategies to coordinate the use of assistance under sections 8(o) and 9 of such Act with public and private resources, and enable eligible families to achieve economic independence and self-sufficiency, \$75,000,000: Provided, That the Secretary may, by Federal Register notice, waive or specify alternative requirements (except for requirements related to fair housing, nondiscrimination, labor standards, and the environment) for any provision of section 23 of such Act in

order to better fulfill the purposes of section 23 of such Act, as determined by the Secretary.

The Budget requests \$75 million for a consolidated Family Self-Sufficiency (FSS) Program to help Housing Choice Voucher and Public Housing residents achieve self-sufficiency and economic independence. The FSS program is designed to provide service coordination through community partnerships that link assisted residents with employment assistance, job training, child care, transportation, financial literacy, and other supportive services. The funding will be allocated through one competition to eligible Public Housing Authorities (PHAs) to support service coordinators. Rather than operate two separate and independently administered FSS programs for Housing Choice Voucher and Public Housing families, the Budget proposes to consolidate and align the FSS program into one program to enable PHAs to more uniformly serve both programs' residents.

In addition to the FSS program consolidation, the Budget includes flexible authorities for PHAs to combine and use a portion of their funds from the Public Housing Operating and Capital Funds, and Tenant-Based Rental Assistance administrative fees towards additional service coordination that could complement the FSS program or provide residents with other supportive services that promote positive resident outcomes related to education, health, self-sufficiency and quality of life.

Title I of the Native American Housing Assistance and Self-Determination Act (NAHASDA) of 1996 (P.L. 104–330) authorized the Native American Housing Block Grant program. This program provides an allocation of funds on a formula basis to Indian tribes and their tribally designated housing entities to help them address housing needs within their communities. HUD estimated that in 2011, out of a population of 1.5 million American Indians and Alaska Natives in block grant formula areas, over 100,000 households were either overcrowded or lacked adequate plumbing or kitchen facilities.

The Budget includes \$650 million for the total activities of this program in 2014, including \$2 million for the Title VI loan guarantee program, which will guarantee \$16.5 million in loans to tribes. A primary goal of the Title VI program is to encourage private lenders to provide financing in Indian Country. The program provides for the Federal guarantee of notes or other obligations issued by Indian tribes or tribally designated housing entities for the purpose of financing affordable housing activities described in section 202 of the Act.

As required by the Federal Credit Reform Act of 1990, this account records, for this program, the subsidy costs associated with the loan guarantees committed in 1998 and beyond (including modifications of guarantees that resulted from obligations in any given year), as well as administrative expenses of this program. The subsidy amounts are estimated on a present value basis; the administrative expenses are estimated on a cash basis.

The Hawaiian Homelands Homeownership Act of 2000 (P.L. 106-568) amended the Native American Housing Assistance and Self-Determination Act of 1996 by adding Title VIII, which authorized the Native Hawaiian Housing Block Grant program. This program provides funds to assist and promote affordable housing activities to develop, maintain and operate affordable housing for eligible low-income Native Hawaiian families.

It authorizes annual grants to the Department of Hawaiian Home Lands (DHHL) for housing and housing-related assistance, pursuant to an annual housing plan, within the area in which DHHL is authorized to provide that assistance. DHHL uses performance measures and benchmarks that are based on the needs and priorities established in its five- and one-year housing plans. The Budget requests \$13 million for this program.

The Indian Housing Loan Guarantee program provides access to sources of private financing for Indian families, Indian tribes, and their tribally designated housing entities who otherwise could not acquire housing financing because of the unique legal status of Indian trust land. The Budget provides \$6 million to support additional loan guarantee activity and administrative systems support. In 2014, this program is projected to grow by 25 percent, representing almost 6,300 loans to American Indian borrowers. To support this increase in demand, the Budget proposes giving HUD increased flexibility to raise fees within this program to ensure the necessary resources are available. For 2014, HUD proposes using this authority to raise the upfront fee 50 basis points to 1.5 percent, allowing it to subsidize up to \$1.82 billion in Indian housing loans. The program has issued 18,949 loan guarantees totaling \$2.99 billion since 1995, with 52 percent of the activity occurring in 2010, 2011 and 2012. Even through the national foreclosure crisis, the program has maintained a claims rate of less than one and a half percent.

HUD will also submit a legislative proposal in the spring of 2013 to authorize qualifying lenders delegation of authority to participate in a direct guarantee process for underwriting loans. This will allow the Section 184 program to operate more efficiently and provide capital to more potential homebuyers.

As required by the Federal Credit Reform Act of 1990, this account records, for this program, the subsidy costs associated with the loan guarantees committed in 1992 and beyond (including modifications of guarantees that resulted from obligations in any year). The subsidy amounts are estimated on a net present value basis. The administrative expenses are shown on a cash basis.

The Native Hawaiian Housing Loan Guarantee program provides access to private financing to eligible Native Hawaiian families who reside on the Hawaiian Home Lands and who otherwise could not acquire private financing because of the unique legal status of the Hawaiian Home Lands. Because the program has sufficient carryover funds, the 2014 Budget does not provide any new credit subsidy budget authority.

As required by the Federal Credit Reform Act of 1990, this account records, for this program, the subsidy costs associated with the loan guarantees committed in 2001 and beyond (including modifications of guarantees that resulted from obligations in any

year). The subsidy amounts are estimated on a net present value basis. The administrative expenses are shown on a cash basis.

The 2014 Budget provides \$332 million for the Housing Opportunities for Persons with AIDS (HOPWA) program, the only Federal program dedicated to address the urgent housing needs of low-income Americans living with HIV and AIDS. HOPWA funding provides States and localities with resources and incentives to devise long-term comprehensive strategies for planning and providing housing and supportive services to meet the complex, multiple needs of persons living with HIV and AIDS and their families. HOPWA funds have been demonstrated to help reduce the risk of homelessness, increase housing stability, and improve access to HIV care and health outcomes for program participants.

Ninety percent of HOPWA funds are distributed to States and eligible metropolitan areas according to a formula, which is based on the number of AIDS cases in the jurisdiction. The remaining ten percent are awarded competitively to States, local governments, and private nonprofit entities for projects of national significance and for projects in non-formula areas. However, the HOPWA formula does not reflect the current nature and distribution of the epidemic. To modernize the program, the Administration is proposing an updated formula based on living cases of HIV and adjusted for an area's fair market rent and poverty rates, focusing HOPWA funds on areas that have the most need. The proposal also includes several changes that will allow better targeting of HOPWA resources and more flexibility for grantees to provide the most cost-effective, timely interventions. These changes, which will be proposed in separate legislation, will improve the nation's response to the specialized housing needs of HIV/AIDS patients and will further the Administration's National HIV/AIDS Strategy.

In addition, the Department will seek to develop a strategy to effectively integrate HOPWA housing activities with homeless assistance and prevention programs under the Homeless Assistance Grants program while integrating HOPWA in Continuum of Care coordinated planning, centralized intake and assessment, and Homeless Management Information Systems. The integration of HOPWA resources with other homelessness prevention interventions will facilitate more collaborative local planning, better deploy limited resources to achieve the greatest impacts, and help synchronize program tools to reduce administrative burdens to give priority to ending homelessness for a greater number of persons who are homeless and who are also living with HIV/AIDS.

The Community Development Fund account includes funding for the Community Development Block Grant (CDBG) program, Indian CDBG, Integrated Planning and Investment Strategies Grants, and a new competitive neighborhood stabilization grant program.

The Budget funds the CDBG formula grant program at \$2.8 billion to assist State and local governments in addressing local priorities and needs. The CDBG program provides over 1,200 flexible annual formula grants to States, local governments, and Insular Areas to benefit mainly low-to moderate-income persons. The funding is used for a wide range of community and economic development activities, such as public infrastructure improvements (approximately 33 percent of all CDBG funds), housing rehabilitation and construction (approximately 25 percent of funds), job creation and retention, and public services (e.g., child care). 70 percent of the CDBG formula grants are distributed to mainly urban areas (entitlement communities), and 30 percent is distributed to the States (non-entitlement communities).

The Administration recognizes that CDBG funds represent a significant expenditure that is not optimally targeted based on community need or used most effectively in many cases. The Budget includes several proposals to better target funds based on community need and ensure that communities receive grants

large enough to be more effective in advancing the goals of the program. The Budget proposes statutory changes to establish a minimum grant threshold and eliminate the community "grandfathering" provision. In addition, HUD will seek input from stakeholders over the coming months regarding further programmatic changes that would improve the targeting of formula funds and strengthen their accountability and performance.

The Budget also includes \$200 million for a new competitive set-aside grant program to provide funds to areas hit hardest by the foreclosure crisis to support specific activities that support neighborhood stabilization. This new initiative builds on the successes of the first three rounds of the Neighborhood Stabilization Program, and will target neighborhoods still feeling the effects of the foreclosure crisis, and allow them to manage foreclosures, put land back to effective uses, and begin to recover economically. Competitive grants will go to States, cities, and state housing financing agencies for a number of eligible uses, including purchasing and rehabilitating abandoned and foreclosed properties, establishing land banks, demolishing blighted structures, and redeveloping vacant or demolished property. Grantees will be encouraged to leverage these funds with Community Development Loan Guarantees and other Federal, State, and local funds to ensure that they have maximum impact.

The Budget requests \$75 million for Integrated Planning and Investment Grants, which is administered by HUD's Office of Economic Resilience. In partnership with the Department of Transportation (DOT) and the Environmental Protection Agency (EPA) and other Federal agencies, the Integrated Planning and Investment Grants aim to expand job opportunities and improve the quality of life for families by providing incentives to regions and communities to align planning efforts, invest public and private resources to attract businesses, modernize land use and building codes, attract private capital for community revitalization efforts, and sponsor robust community engagement efforts. This initiative complements DOT's funding to strengthen state and local infrastructure capacity, EPA's technical assistance, and efforts by other Federal agencies to advance economic development initiatives. Language is proposed to streamline HUD and DOT joint grant solicitations and implementation efforts to increase overall effectiveness and reduce burden on grantees.

The Budget increases the Indian Community Development program funding to \$70 million. This program provides eligible grantees with direct grants for use in developing viable Indian and Alaska Native Communities, including decent housing, a suitable living environment, and economic opportunities, primarily for low- and moderate-income persons. Within this account, \$10 million will be set aside to address mold issues in Indian housing.

This account reflects \$16 billion in CDBG funding appropriated by the Disaster Relief Appropriations Act, 2013 (Public Law 113-2). These funds are intended primarily to respond to the effects of Hurricane Sandy that impacted the Atlantic Coast in late October 2012, but will also be used to respond to other significant Presidentially-declared disasters that occurred in calendar years 2011, 2012, and 2013. Other amounts reflected in this account include prior year CDBG disaster supplemental funding, as well as funds provided by the 2009 American Recovery and Reinvestment Act (\$1 billion in CDBG formula grants and \$2 billion for Neighborhood Stabilization Program (NSP) II grants). The \$3.92 billion in NSP funding from the Housing and Economic Recovery Act of 2008 and the \$1 billion from the Dodd-Frank Wall Street

COMMUNITY DEVELOPMENT FUND—Continued

Financial Reform and Consumer Protection Act are mandatory appropriations and are reflected in a separate account.

EMPOWERMENT ZONES/ENTERPRISE COMMUNITIES/RENEWAL COMMUNITIES

Unobligated balances, including recaptures and carryover, remaining from funds appropriated to the Department of Housing and Urban Development under this heading are hereby permanently cancelled.

No new appropriation is requested for the Empowerment Zone (EZ) and Renewal Community (RC) programs in the 2014 Budget. Rather, a rescission of approximately \$25,000 in carryover is proposed. The tax incentives for RCs expired on December 31, 2009, while EZ tax incentives have been extended to December 31, 2013.

The 2014 Budget requests no funding for the Brownfields Economic Development Initiative (BEDI) program, which is a competitive grant program designed to assist cities with the redevelopment of brownfield sites for the purposes of economic development and job creation. Brownfields are abandoned, idled, and underused industrial and commercial facilities and land where expansion and redevelopment is burdened by real or potential environmental contamination. Local governments have access to other public and private funds, including Community Development Block Grant (CDBG) funds, which can serve similar purposes.

The HOME Investment Partnerships Program is authorized by the National Affordable Housing Act (P.L. 101-625), as amended. This program provides flexible annual formula grant assistance to States and units of local government to increase the supply of affordable housing and expand homeownership for low- to very-low income persons. Sixty percent of the formula grant funds is awarded to participating local governments and 40 percent is awarded to states. These communities often use the funds in partnership with local non-profit organizations to fund a wide range of activities that build, buy, and/or rehabilitate affordable housing for rent or homeownership, or to a much lesser extent, provide direct rental assistance to low-income people. Projects funded by HOME often leverage private dollars and are used in conjunction with the Low-Income Housing Tax Credit (LIHTC), Community Development Block Grant, and local funds. For example, 53 percent of almost 150,000 completed HOME assisted rental units were part of awarded LIHTC projects from 2007-2011.

The Budget requests \$950 million for HOME. Over time, this funding is estimated to result in the production of almost 39,500 units of affordable housing through new construction, rehabilitation, and/or acquisition. It is also estimated that communities will use a portion of their funding to support tenant-based rental assistance for about 9,500 units.

The 2014 Budget also proposes statutory changes that would allow recaptured Community Housing Development Organization

funds to be reallocated by formula; establish a single qualification threshold of \$500,000 irrespective of the appropriation amount; revise the current "grandfathering" provision so that participating jurisdictions that fall below the threshold three out of a five year period are ineligible for direct formula funds; and facilitate eviction of HOME rental unit tenants who pose an imminent threat. When implemented, these changes will improve the targeting focus and effectiveness of the overall administration of the program.

In addition to funding HOME, up to \$10 million will be eligible to specifically fund the Self-Help and Assisted Homeownership Opportunity Program (SHOP). SHOP is a competitive grant program that provides funds to increase the ability of non-profit organizations to assist low-income homebuyers willing to contribute "sweat equity" toward the construction of their homes. Communities can further leverage SHOP grants by using other sources of funding including HOME funds, which can also be used for sweat equity projects. The 2014 Budget also proposes statutory changes that would improve the administration of the SHOP program. These include allowing HUD to develop program regulations over five pages long, establishing a standard grant term of 36 months, establishing a deadline for completion of SHOP units, and explicitly naming planning, administrative, and management costs as eligible activities.

The Housing Trust Fund was originally authorized in the Housing and Economic Recovery Act of 2008 (Pub. L. 110-289) under section 1338 of the Federal Housing Enterprises Financial Safety and Soundness Act of 1992 (U.S.C. 1301 et. seq.) with a dedicated funding stream from assessments on Fannie Mae and Freddie Mac. However, the Federal Housing Finance Agency, the regulator for Fannie Mae and Freddie Mac, has indefinitely suspended these assessments.

The Budget proposes a \$1 billion mandatory appropriations to capitalize the Housing Trust Fund. The purpose of the Housing

Trust Fund is to provide grants to States to increase and preserve the supply of affordable rental housing and homeownership opportunities for extremely low- and very low-income families, and help address the growing shortage of affordable housing for these families. This program is similar to HOME, but is more income-targeted. The funding will be distributed by formula to States or State-designated entities that will target resources to areas with substantial affordable housing needs. The funding will be used primarily for construction, preservation, and rehabilitation of affordable rental housing, with up to ten percent of the funding for similar eligible activities that support homeownership. Of the total amounts made available, not less than 75 percent shall be used to benefit extremely low-income households, for whom the shortage of affordable housing is most acute. Over time, the funding provided for the Housing Trust Fund in 2014 is expected to produce approximately 16,000 affordable units using a mix of funding sources, including other public funds, tax credits, and private debt.

The Neighborhood Stabilization Program (NSP) was authorized by the Housing and Economic Recovery Act of 2008 (HERA) and funded at \$3.92 billion. In response to the foreclosure crisis, HERA directed HUD to develop a formula to distribute the funds to State and local governments with the greatest need. To determine the areas with the greatest need, the allocation formula had to be based on home foreclosures, subprime loans, and mortgage defaults or delinquencies. Grantees may use NSP funds for a number of eligible activities, including establishing financing mechanisms; purchasing and rehabilitating abandoned or foreclosed properties; establishing land banks; demolishing blighted structures; and redeveloping vacant or demolished property. NSP grantees must use at least 25 percent of the funds appropriated for the purchase and redevelopment of abandoned or foreclosed residential properties that will be used to house individuals or families whose incomes do not exceed 50 percent of the area median income. In addition, all activities funded by NSP must benefit low- and moderate-income persons whose income does not exceed 120 percent of area median income.

In September 2008, HUD announced direct NSP allocations to 309 jurisdictions, including all 50 states, Puerto Rico and the Insular Areas. Pursuant to HERA, grantees had 18 months from the date funds were made available to obligate the funds. As of February 2013, grantees had expended more than 95 percent of this first round of NSP funding (NSP1).

The American Recovery and Reinvestment Act of 2009 (ARRA) made several changes to the NSP program as enacted by HERA and appropriated an additional \$2 billion in funding for the NSP program. The ARRA funding for the second round of NSP funding (NSP2) is reflected within the Community Development Fund account. In January 2010, HUD announced 56 awards under the NSP2 program and all funds were obligated on February 11, 2010. NSP2 grantees had until February 11, 2013, to expend their funds. All but four grantees met the February deadline and

HUD is imposing corrective actions and sanctions to resolve expenditure issues surrounding these grants. As of February 2013, grantees had collectively expended more than 100 percent of NSP2 funding, including program income.

The Dodd-Frank Financial Reform and Consumer Protection Act of 2010 (Dodd-Frank Act) appropriated an additional \$1 billion for a third iteration of NSP (NSP3) in July 2010. The Department announced a formula allocation of these funds to 283 entities consisting of State and local governments in September 2010. Grantees submitted their plans for using the NSP3 funds by March 2011 and, from the date HUD made the funds available, grantees will have two years to expend 50 percent of the grant and three years to expend 100 percent. As of February 2013, NSP 3 grantees had expended more than 36 percent of funds.

The Budget provides \$200 million in new competitive funds for neighborhood stabilization activities as part of the Community Development Fund. The Administration continues to propose \$15 billion in mandatory funding for Project Rebuild which would build upon the success of the Neighborhood Stabilization Program and expand opportunities for grantees to address abandoned and foreclosed commercial properties for redevelopment purposes. Of the requested \$15 billion for Project Rebuild, \$10 billion is for a formula allocation to State and local governments while \$5 billion is reserved for competitive distribution to governmental entities as well as non-profit and for-profit entities.

The Homeless Assistance Grants account provides funds for the Emergency Solutions Grant (ESG) and Continuum of Care (CoC) programs. These programs, which award funds through formula and competitive processes, enable localities to shape and implement comprehensive, flexible, coordinated approaches to address the multiple issues of homelessness. Many communities have made great strides in creating comprehensive approaches to ending chronic homelessness through the development of local plans.

The 2014 Budget provides \$2.38 billion for a wide range of activities to assist homeless persons and prevent future homelessness. HUD estimates it will use \$1.95 billion for competitive renewals in the CoC program and \$346 million for the Emergency Solutions Grant Program, \$60 million of which shall be used for rapid re-housing in high need communities. The Budget also includes \$40 million for new competitive permanent supportive housing projects in the CoC program, and \$8 million for the Homeless Data Analysis Project.

In 2014, HUD will continue the implementation of the McKinney-Vento Act as amended by the HEARTH Act. HUD began implementation of the HEARTH Act with the Emergency Solutions Grants, Consolidated Plan, and Homeless Definition interim rules effective January 2012, and the Continuum of Care interim rule effective August 2012.

The 2014 Budget helps make progress toward ending homelessness by supporting the goals of "Opening Doors: the Federal Strategic Plan to Prevent and End Homelessness," which was published by the U.S. Interagency Council on Homelessness in 2010.

This program was created by the Supplemental Appropriations Act, 2008 (P.L. 110-252), which provided \$73 million for permanent supportive housing assistance as referenced in the Road Home Program of the Louisiana Recovery Authority (LRA). Of the total amount appropriated, \$50 million is for permanent supportive housing, which serves approximately 1,000 homeless individuals and families living with disabilities. These grants are administered under the Shelter Plus Care program, as authorized under subtitle F of title IV of the McKinney-Vento Homeless Assistance Act (42 U.S.C. 11403 et seq.). The LRA will be eligible to apply for Homeless Assistance Grants to renew this assistance. Additionally, this account provides \$23 million in project-based rental assistance vouchers to LRA to support an estimated 2,000 elderly and disabled disaster victims, as authorized, under section 8(o)(13) of the United States Housing Act of 1937 (42 U.S.C. 1437f(o)(13)). Beginning in 2010, these vouchers have been renewed within the Tenant-Based Rental Assistance account upon the termination of the original subsidy.

The Revolving Fund (liquidating programs) was established by the Independent Offices Appropriations Act of 1955 for the efficient liquidation of assets acquired under a number of housing and urban development programs, all of which are no longer active. The operational expenses are financed from a permanent, indefinite appropriation to administer the remaining repayments of loans and recaptures in the portfolio. Annually, any remaining unobligated balances in the account are returned as a dividend to the Treasury.

The Section 312 loan program portfolio, which provided first and junior lien financing at below market interest rates for the rehabilitation of homes in low-income neighborhoods, constituted a large portion of the account activities. This program ceased to originate new loans over 20 years ago. Since the sale of the Section 312 loan portfolio to the private sector in 2001, activity in this account has been minimal.

The 2014 Budget increases the guaranteed loan limit to \$500 million, but does not request funding for the Community Development Loan Guarantee program (Section 108). Instead of subsidy, the Budget includes a legislative change to allow HUD to collect fees to offset credit subsidy costs and make related adjustments to the program. Carryover loan guarantee credit subsidy in this account will continue to be used until exhausted. The Budget requires that the program operate at a zero credit subsidy cost and provides for the collection of fees to fund program costs. Program activities include economic development projects, housing rehabilitation, public facilities rehabilitation, construction or installation for the benefit of low- to moderate-income persons, or to aid in the prevention of slums.

As required by the Federal Credit Reform Act of 1990, this account records the subsidy costs associated with the loan guarantees committed since 1992, including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year. The subsidy amounts are estimated on a present value basis.

HOUSING FOR THE ELDERLY—Continued

Since 1959, the Housing for the Elderly program (Section 202) has supported both the construction and operation of supportive housing for very low-income elderly households, including frail elderly. The Budget provides \$310 million to renew and amend operating subsidy contracts for existing Section 202 housing, \$70 million to support service coordinators who work on-site to help residents obtain critical services, such as benefit counseling, and \$20 million to support a demonstration program to test and implement housing with services models for seniors.

As proposed in the 2013 Budget, the Administration continues to support legislative and administrative changes to permit a new generation of Section 202 housing with supportive services targeted at populations most in need of affordable housing. Building off emerging research on best practices, HUD will provide Section 202 operating assistance to States to fund innovative supportive housing projects in line with state housing and health care priorities. Funded projects—new or existing multi-family housing complexes—must be fully leveraged with other capital resources, such as Low-Income Housing Tax Credits, HOME funds, and other Federal, state, and local programs, and only require Section 202 for operating assistance. This will result in long-term strategies to increase the supply of affordable permanent housing units with structured access to appropriate services, but also enables the program to better facilitate cost savings to state and federal health care budgets through reduced institutionalization and emergency room utilization.

In addition, the Budget provides HUD with new authorities to make better use of existing resources. In 2014, HUD will review residual receipts collections, recaptures, and other unobligated balances to increase the amount available for awards to support housing with services models that serve as a platform for seniors to live independently and age in place.

Since 1992, the Housing for Persons with Disabilities program (Section 811) has supported the development of supportive housing for very low-income people with disabilities. The Budget provides \$106 million to renew and amend operating subsidy contracts for existing Section 811 housing, and \$20 million for new Project Rental Assistance (PRA) awards.

In 2014, HUD will continue to fund supportive housing projects in line with state housing and health care priorities through the Section 811 PRA program. PRA projects must be fully leveraged with other capital resources, such as Low-Income Housing Tax Credits, HOME funds, and other Federal, state, and local programs, and only require Section 811 for operating assistance.

Section 811 allows for States to better leverage community-based care, to affirmatively address legal requirements for integrated housing, and to provide a platform for disabled persons to live independently in integrated community-based settings. Supportive housing can achieve significant savings for state and federal health care budgets through reduced institutionalization and emergency room utilization.

The inaugural competition of the Section 811 PRA program in 2012 provided funding to thirteen states to support 3,530 units specifically set-aside for persons with disabilities with appropriate community-based supports and services. The majority of state PRA programs are targeting persons with disabilities in institutions or at risk of institutionalization consistent with each State's Olmstead agreements or Olmstead plan.

The Budget also provides HUD with new authorities to make better use of existing resources. In 2014, HUD will review residual receipts collections, recaptures, and other unobligated balances to redirect available funds to make new additional investments in PRA awards.

The Housing Counseling Assistance Program provides comprehensive housing counseling services to eligible homeowners and tenants through grants to non-profit intermediaries, state governmental entities, and other agencies with local to national presences. Eligible counseling activities include pre- and post-purchase education, personal financial management, reverse mortgage product education, foreclosure prevention/mitigation, and rental counseling. The Housing Counseling Assistance Program supports the delivery of a wide variety of housing counseling services to homebuyers, homeowners, low- to moderate-income renters, and elderly citizens including the Administration's current foreclosure mitigation efforts. The primary objectives of the Housing Counseling program are to expand homeownership opportunities, improve access to affordable housing, prevent foreclosure, increase financial literacy, and aid in HUD's commitment to bridging the minority homeownership gap. Additionally, the program supports a significant number of individuals with FHA-insured loans, which helps maintain the financial soundness of the FHA insurance funds. The 2014 Budget includes \$55 million for this program, the bulk of which funds grants for the direct provision of counseling.

The objective of the Energy Innovation Fund is to provide support for promising local initiatives that can be replicated across the nation and to stimulate and enhance private investment in cost-saving energy efficiency retrofits of existing housing, through improved use of FHA single family and multifamily mortgage products. In, 2010, \$50 million was appropriated for this initiative.

The single family Energy Efficient Mortgage Innovation Pilot provided up to \$25 million in incentive payments to support the new FHA PowerSaver loan guarantee program. PowerSaver is a partnership between HUD and 18 lenders that extends the benefits of Title I Energy Efficient Property Improvement loans to more homeowners and enabled them to borrow up to \$25,000 for terms as long as 20 years to make energy improvements of their choice, based on a list of proven measures developed by FHA and the U.S. Department of Energy (DOE).

The Multifamily Energy Innovation Fund Pilot provided \$25 million for financing and applied research demonstrations. The demonstrations will identify solutions to the primary and long-standing challenges to implementing energy efficiency and renewable energy improvements in existing affordable multifamily properties and leverage private capital and additional public funding to demonstrate proof of concept of specific models.

All funding for the program expires at the end of 2013. This schedule reflects the expenditure of prior year balances.

The Emergency Homeowners' Loan Program (EHLPL), authorized by the Dodd-Frank Wall Street Reform and Consumer Protection Act (P.L. 111-203), provided emergency mortgage assistance to homeowners who were unemployed or underemployed due to economic or medical conditions. EHLPL offered an eligible homeowner a declining balance, deferred payment, non-recourse, zero interest subordinate loan of up to \$50,000 to assist with paying all arrearages on the homeowner's first mortgage and up to 24 consecutive months of first mortgage assistance payments. EHLPL provided assistance to homeowners in Puerto Rico and the 32 states not assisted by the Treasury Department's Innovation Fund for Hardest Hit Housing Markets program. States with existing programs that provided substantially similar assistance to homeowners received grants to provide EHLPL assistance through such programs. The program became effective October 1, 2010 and, per statute, stopped accepting applications on September 30, 2011. As required by the Federal Credit Reform Act of 1990, this account records the administrative expenses for EHLPL, as well as the subsidy costs, associated with the direct loans obligated. The subsidy amounts are estimated on a present value basis; the administrative expenses are estimated on a cash basis.

The Other Assisted Housing Account contains the programs listed below:

**Rent Supplement.**—Rent Supplement assistance payments will continue to be made on behalf of qualified low-income tenants in approximately 6,120 units that have not converted to Section 8.

**Section 235.**—The Housing and Urban-Rural Recovery Act of 1983 (P.L. 98-181) authorized a restructured Section 235 (Homeownership Assistance) program that provided homeowners a 10-year interest reduction subsidy on their mortgages.

**Section 236.**—The Housing and Urban Development Act of 1968, as amended, authorizes the Section 236 Rental Housing Assistance Program, which subsidizes the monthly mortgage payment that an owner of a rental or cooperative project is required to make. This interest subsidy reduces rents for lower income tenants. Some Section 236 properties (approximately 11,300 units) also have rental assistance contracts with HUD through the Rental Assistance Payment (RAP) program.

When Rent Supplement and RAP contracts are terminated due to prepayments, remaining balances are recovered. HUD has identified \$3.5 million in Section 236 Interest Reduction Payment recaptures that may be cancelled in 2014 without impacting current contract amendment and extension activities.

As an increasing number of Rent Supplement and RAP rental assistance contracts reach the ends of their terms, the funding needs of the account have shifted from amendments to short-term extensions that help preserve this affordable housing stock. In order to meet the growing need for extensions, the Budget proposes appropriations language to allow recaptured funds to be used for these purposes. In addition, the Rental Assistance Demonstration (RAD) enables owners of properties with expiring Rent Supplement or RAP contracts to convert their assistance to long-term, project-based voucher contracts. More information on this Demonstration is available under the RAD heading.

The table below provides a summary of outlays by program.

The Homeownership and Opportunity for People Everywhere Program, funded from 1992-1995, provided affordable homeownership opportunities for low-income families. Units were converted to homeownership from public and Indian housing properties in HOPE I, from FHA-insured and Government-held multifamily properties in HOPE II, and from Government-owned or -held single family properties in HOPE III. HOPE Grants were used for property acquisition, rehabilitation, mortgage subsidies, security measures, and technical assistance. In addition, grants have been devoted to counseling and training of residents, and other activities intended to help them become economically self-sufficient homeowners.

This program was funded under Title XII of the American Recovery and Reinvestment Act of 2009 (P.L. 111-5). This account includes funds for grants, direct loan credit subsidy, and administrative expenses. All loan cash flows are recorded in the corresponding financing account (86-4589).

The Housing and Urban Development Act of 1968 authorized the Secretary to establish a revolving fund into which rental collections in excess of the established basic rents for units in Section 236 subsidized projects would be deposited.

The Housing and Community Development Amendment of 1978 authorized the Secretary, subject to approval in appropriation acts, to transfer excess rent collections received after 1978 to the Troubled Projects Operating Subsidy program, renamed the Flexible Subsidy Fund. Prior to that time, collections were used for paying tax and utility increases in Section 236 projects. The Housing and Community Development Act of 1980 amended the 1978 Act by authorizing the transfer of excess rent collections regardless of when collected.

The Budget proposes appropriation language in the general provisions at the end of this budget chapter to fully eliminate any authorities which mandate the transfer of excess resources from the Rental Housing Assistance Fund to the Flexible Subsidy Fund.

The Flexible Subsidy Fund assisted financially troubled subsidized projects under certain Federal Housing Administration (FHA) authorities. The subsidies were intended to prevent potential losses to the FHA fund resulting from project insolvency and to preserve these projects as a viable source of housing for low and moderate-income tenants. Priority was given to projects with Federal insurance-in-force and then to those with mortgages that had been assigned to the Department of Housing and Urban Development.

The Budget proposes appropriation language in the general provisions at the end of this budget chapter to fully eliminate any authorities which mandate the transfer of excess resources from the Rental Housing Assistance Fund to the Flexible Subsidy Fund.

The HOPE for Homeowners (H4H) program was created by the Housing and Economic Recovery Act of 2008 (Act) to help homeowners at risk of default and foreclosure refinance into more affordable, sustainable loans. Under the H4H Program, eligible homeowners refinanced their current mortgage loans into a new mortgage insured by FHA. The program ended on September 30, 2011.

As required by the Federal Credit Reform Act of 1990, this account records the administrative expenses for this program, as well as the subsidy costs, associated with the loan guarantees committed.

The Federal Housing Administration (FHA) provides mortgage insurance to encourage lenders to make credit available to borrowers for which the conventional market does not adequately

serve. These include first-time homebuyers, minorities, lower-income families, and residents of underserved areas (central cities and rural areas). In recent years, FHA has also served broader populations, providing access as conventional financing became scarce.

In 2014, the Budget requests a limitation of \$400 billion on loan guarantees for the Mutual Mortgage Insurance (MMI) Fund. The Budget projects insurance of \$178 billion in single family forward mortgages, \$14.9 billion in FHA short refinances, and \$6.4 billion in Home Equity Conversion Mortgages (HECMs) with additional commitment authority available in case these amounts are exceeded during execution. Since October 2010, FHA has increased its annual premium five times, the most recent increase announced in January of 2013. Additionally, FHA also announced at that time that it would reverse a prior policy whereby borrowers were permitted to stop paying annual insurance premiums when their loans amortized to a certain percentage of the original principal balance. Due to this policy, FHA was forfeiting prematurely substantial premium revenue to which it was entitled, while still maintaining responsibility for the outstanding insurance guarantee for these loans. Also, FHA is now requiring manual underwriting for loans with credit scores below 620 and debt-to-income ratios greater than 43% in order to ensure that such borrowers possess compensating factors that accord with FHA underwriting guidelines. Finally, in addition to the premium increases that have placed premiums for loans with values above \$625,500 at their statutory maximum, FHA will also require a minimum down payment of 5% percent for these loans. These increases will bolster FHA's capital reserves, accelerating the point at which FHA will regain compliance with its target capital reserve ratio. These increases also contribute to higher receipts generated by FHA's loan guarantee volume.

Apart from the Budget, HUD is pursuing a comprehensive legislative package which will give FHA the tools it needs to build upon the many administrative steps it has taken since 2009 to strengthen FHA Single Family Programs. These items will allow FHA to enhance enforcement authority, create certainty for FHA approved lenders, protect reverse mortgage consumers, and enhance loss mitigation opportunities for borrowers with FHA approved loans. In total, all these steps will reduce losses to the MMIF.

**Enhanced Indemnification Authority to Obtain Indemnification for Direct Endorsement Lenders:** In order to originate FHA insured loans, lenders must be approved by FHA to be either a Lender Insurance or a Direct Endorsement Lender. FHA can only seek indemnification from lenders with Lender Insurance approval. This authority would provide FHA the ability to treat both classes of FHA approved lenders equally with respect to non-compliant loans.

**Authority to Terminate Origination and Underwriting Approval:** In 2014, HUD will continue to seek authority to terminate lender approval on a broader geographic basis for institutions with default rates significantly higher than their peers.

**Transfer of Servicing:** This fiscal year, HUD will seek authority to approve servicers of FHA insured loans, enabling FHA to, on a case by case basis, transfer servicing of loans to institutions better equipped to reduce losses to the fund by assisting borrowers.

**Additional Authority to manage the Reverse Mortgage Program:** To address the expected losses to the MMIF from the Home Equity Conversation Mortgage Program, HUD intends to make significant revisions to the program including instituting a required financial assessment and establishing mandatory escrow accounts.

**Revise FHA's Compare Ratio:** In an effort to provide greater clarity and certainty to lenders while enabling FHA to more effectively minimize poor lender performance and resulting losses, HUD seeks legislative authority to revise the calculation for the Compare Ratio to better reflect the modern lending environment.

The Budget requests an appropriation of \$127 million in administrative expenses, which will allow FHA to implement improved risk management systems critical for FHA's oversight of its insured portfolio. The Budget discontinues the practice of transferring funds into the Information Technology Portfolio (formerly the Working Capital Fund) from this account.

As required by the Federal Credit Reform Act of 1990, this account records the subsidy costs, if any, associated with the loan guarantees committed in 1992 and thereafter. The subsidy amounts are estimated on a present value basis.

The amounts in this account are a means of financing and are not included in the budget totals.

The 2014 direct loan limitation of \$20 million in the MMI Fund would permit the Department to use Purchase Money Mortgages (PMMs) to help finance the sale of acquired single family properties. HUD would extend credit for these single family homes to community non-profit organizations or local government entities, which would be expected to sell the properties to low- and moderate-income buyers. The use of PMMs provides a tool for State and local non-profit organizations to use in revitalizing communities, and creates enhanced homeownership opportunities for low- and moderate-income families.

In 2002, a Capital Reserve account was established for the Mutual Mortgage Insurance Fund. Financial reserves, including securities, of the MMI Fund were transferred from the liquidating account to the Capital Reserve account. The Liquidating account now only reflects cash flows related to pre-1992 books of business. In 2003, the Capital Reserve account started earning interest on Treasury investments, collecting negative subsidy and downward re-estimates from the Financing account, and paying upward re-estimates to the Program account. As such, this account is the ultimate depository for all resources collected by the MMI Fund. The amount of reserves held in this account fluctuates with changes in economic conditions, loan performance, and other factors that cause actual reserve levels in the future to vary from projections. The Budget estimates that reserves will be insufficient for the cost of the 2013 upward credit subsidy re-estimate. As a result, the Budget anticipates that FHA will use a permanent indefinite appropriation in the MMI Program Account of \$943 million in addition to \$26,730 million in reserves transferred from this account to pay for the upward re-estimate. Such use of permanent indefinite authority is authorized by the Federal Credit Reform Act. Based on the results of the 2012 FHA Actuarial Review, the capital reserve ratio will reach the target level of 2 percent in 2017.

The Federal Housing Administration Fund currently consists of four separate insurance funds.

In order to present more clearly the operations of the various funds, FHA's budget transactions are separated into two major business segments. The basic single family insurance programs, including the Condominium, Section 203(k) rehabilitation, and Home Equity Conversion Mortgage programs, in the Mutual Mortgage Insurance (MMI) fund and the multifamily Cooperative Management Housing Insurance (CMHI) funds form one segment. All other multifamily and other specialized insurance programs are in the General Insurance and Special Risk Insurance funds (GI/SRI).

The Federal Credit Reform Act of 1990 creates a structure of three accounts for existing credit programs. For each of the FHA business segments (MMI/CMHI and GI/SRI) there is a liquidating account, which records the revenues and costs associated with loan insurance committed prior to October 1, 1991; a financing account which records the revenues and costs associated with commitments to insure loans made after September 30, 1991; and, a program account which records the transactions associated with the program subsidy costs, if any, and the costs of administering the program.

This liquidating account records, for this program, all cash flows to and from the Government resulting from MMI/CMHI loans insured prior to 1992 and is shown on a cash basis. All new activity in this program in 1992 and thereafter (including modifications of loans insured in any year) is recorded in the corresponding program (86-0183) and financing (86-4587 and 86-4242) accounts.

In 2002, the MMI Capital Reserve account was established to maintain reserves required by statute that were previously deposited in the liquidating account.

*Financial condition.*—The following tables reflect the revenues, expenses and financial condition of the MMI/CMHI liquidating funds based on Generally Accepted Accounting Principles.

This account includes credit subsidy budget authority and outlays for FHA's General Insurance and Special Risk Insurance Fund programs, including reestimates and modifications. These programs provide mortgage insurance for a variety of purposes including financing for the development or rehabilitation of multifamily housing, nursing homes, and hospitals. The Budget does not request an appropriation of new credit subsidy funds and assumes that HUD will continue to suspend issuance of new insurance on the two types of loans that currently require positive credit subsidy: Section 221(d)(3) multifamily housing loans for projects with non-profit sponsors and Section 223(d) operating loss loans to multifamily housing projects with a primary FHA mortgage. Neither suspension is expected to have a detrimental impact on the production and preservation of rental housing.

## GENERAL AND SPECIAL RISK PROGRAM ACCOUNT—Continued

Effective October 1, 2012, Section 223(d) operating loss loans to healthcare facilities with a primary 232 mortgage and Section 241(a) supplemental loans to FHA-financed multifamily housing loans are reported under the budget risk category of the primary FHA mortgage.

Credit subsidy rates for 2014 reflect a continuation of 2013 mortgage insurance premium increases for newly insured market rate multifamily housing and healthcare facility loans.

As required by the Federal Credit Reform Act of 1990, this account records the subsidy costs associated with loan guarantees committed or direct loans obligated in 1992 and thereafter. The subsidy amounts are estimated on a present value basis. This account no longer includes appropriations for administrative contract costs, which were moved to the MMI Fund in 2010.

The Housing for the Elderly or Handicapped Loan Fund was established pursuant to section 202 of the Housing Act of 1959, as amended. The fund provided direct loans to non-profit organizations sponsoring the construction and management of rental housing for the elderly or non-elderly persons with disabilities. No new loan commitments were made after 1991; however, projects developed under it continue to operate. After April 1, 1992, all projects for which there were administrative reservations converted to the capital advance assistance program. Any remaining activity for the loan program includes amendments for projects reaching final endorsement.

As required by the Federal Credit Reform Act of 1990, this account records all cash flows to and from the Government resulting from this program.

The National Manufactured Housing Construction and Safety Standards Act of 1974, as amended, authorizes the development and enforcement of appropriate standards for the construction, design, and performance of manufactured homes to assure their

MANUFACTURED HOUSING FEES TRUST FUND—Continued

quality, durability, affordability, and safety. All manufactured homes produced, since the standards took effect in 1976, must comply with Federal construction and safety standards. A majority of States participate in the program under compliance plans approved by HUD. Program requirements mandated by the Manufactured Housing Improvement Act of 2000 include procurement of an Administering Organization, formation of a Consensus Committee to recommend revisions to and interpretations of the manufactured housing standards, development and implementation of standards for installation of manufactured housing, and development and implementation of a dispute resolution program.

Fees are charged to the manufacturers for each transportable section produced and may be charged to any dispute resolution and installation program participant. Prior to 2009, this fee income was sufficient to fully support program operations. However, due to a significant decline in manufactured housing production rates in recent years, fee collections have been insufficient to maintain program requirements. The 2014 Budget proposes to fund the costs of authorized activities necessary to carry out all aspects of the manufactured housing legislation with a direct appropriation of \$1 million and approximately \$6.53 million in estimated fees. In order to achieve this level of collections, HUD is also proposing to increase the label fee in 2014 from \$39 to up to \$100 per label. This fee increase is necessary to ensure that HUD can continue to fulfill its statutory responsibilities.

GOVERNMENT NATIONAL MORTGAGE ASSOCIATION

The Government National Mortgage Association (GNMA) was formed by Congress in 1968. It is a wholly owned government corporation within the U.S. Department of Housing and Urban Development (HUD). It was established to support Federal housing initiatives by providing liquidity to the secondary mortgage market and to attract capital from the global capital markets for the nation's mortgage markets. Its primary function is to guarantee the timely payment of principal and interest on Mortgage-Backed Securities (MBS) that are backed by loans insured or guaranteed by the Federal Housing Administration (FHA), the Department of Veterans Affairs (VA), Rural Development in the U.S. Department of Agriculture, and HUD's Office of Public and Indian Housing.

In 2013, a Capital Reserve account was established for the Government National Mortgage Association. Financial reserves of the Association were transferred from the reserve receipt and liquidating accounts to the Capital Reserve account. This mandatory account earns interest on Treasury investments and is the eventual depository for all resources collected by the Association. The amount of reserves held in this account fluctuates with changes in economic conditions, issuer performance, and other factors that cause actual reserve levels in the future to vary from projections. The Liquidating account now only reflects cash flows related to pre-1998 books of business.

The Budget requests \$71 million for fair housing activities to support efforts to end housing discrimination. Of the amount requested, \$24.6 million is for the Fair Housing Assistance Program (FHAP), \$1.8 million is for the National Fair Housing Training Academy, \$44.1 million is for the Fair Housing Initiatives Program (FHIP), and \$500 thousand is for the Limited English Proficiency Initiative.

The National Fair Housing Training Academy (NFTHA) provides comprehensive fair housing and civil rights training for investigators, local agencies, educators, attorneys, industry representatives and other housing industry professionals.

FHAP, authorized by Title VIII of the Civil Rights Act of 1968, as amended, provides funding to State and local agencies to assure prompt and effective processing of Title VIII (Civil Rights Act of 1968) complaints under substantially equivalent State and local fair housing laws. To be eligible for assistance through FHAP, an agency must demonstrate that the fair housing law it administers is substantially equivalent to the Fair Housing Act. It is estimated that there will be a total of 100 FHAP jurisdictions in 2014. The funding requested for FHAP will support fair housing enforcement by funding State and local fair housing organizations to meet the needs of currently underserved populations. It will also address the persistently high rate of discrimination against minorities and people with disabilities as identified by HUD's 2000 Housing Discrimination Study and provide additional support to FHAP agencies on the heels of the State and local budget crisis.

FHIP, authorized by the Housing and Community Development Act of 1987, as amended by the Housing and Community Development Act of 1992, provides funding to States and local governments, and to public and private non-profit organizations that administer programs to prevent or eliminate discriminatory housing practices through enforcement, education, and outreach.

Title X of the Housing and Community Development Act of 1992 (Public Law 102-550), known as the Residential Lead-Based Paint Hazard Reduction Act, authorized the Secretary to establish the Lead-Based Paint Hazard Control Grant Program. The primary purpose of the program is to reduce the exposure of young children to lead-based paint and other environmental hazards in their homes, including protecting them from permanent developmental problems and asthma, and exposure to pesticides and carbon monoxide.

The program plays a critical role in addressing the number one environmental disease impacting children: lead poisoning. The Budget includes \$90 million for HUD's Lead Hazard Control Program, \$25 million for the Healthy Homes Program, and \$4 million for Technical Studies. The 2014 Budget also includes a provision that would allow the transfer of unobligated balances and recaptured funds from undersubscribed competitive programs to other competitive programs experiencing oversubscription.

The Lead Hazard Control Grant Programs provides grants of \$1 million to \$4 million to State and local governments and Indian tribes for control of lead-based paint hazards in low-income rental and owner-occupied housing. The grants are also designed to facilitate the development of a housing maintenance and rehabilitation workforce trained in lead-safe work practices and a certified hazard evaluation and control industry. In awarding grants, HUD promotes the use of new, low-cost approaches to hazard control that can be replicated across the nation.

The Healthy Homes Program enables the Department to assess and control housing-related hazards that contribute to childhood diseases and injuries. With funding from this program, grantees implement and evaluate methods for controlling two or more housing-related diseases through a single intervention.

The Office of Healthy Homes and Lead Hazard Control will continue its Technical Support program, which includes public education; support for State and local agencies, private property owners, HUD programs and field offices and professional organizations; technical studies to improve program policy and implementation; quality control to ensure that the evaluation and control of lead-based paint hazards is done properly in HUD-assisted housing; and development of standards, technical guidance, regulations and improved testing and hazard control methods.

The Information Technology Portfolio (formerly the Working Capital Fund) funds the information technology (IT) systems that support Departmental programs and operations, including FHA Mortgage Insurance, housing assistance, grant and disaster relief programs, as well as core financial and general operations. The Budget provides \$285.1 million for the development, modernization, enhancement, operation and maintenance of HUD's IT infrastructure and systems. The Budget renames the Working

Capital Fund to more accurately describe the account, and consolidates all IT funding within the IT Portfolio to align to the integrated IT investment strategy and governance processes that HUD has instituted in recent years.

Initiated in 2010, the Transformation Initiative (TI) is an ongoing effort aimed at increasing the effectiveness of program and service delivery, facilitating an evidence-based approach to improving program outcomes, and enabling innovative approaches to address the nation's housing and urban development problems. The 2014 Budget proposes TI transfers up to a maximum of 0.5 percent per program or \$15 million, whichever is less, and approximately \$80 million in total. The Budget proposes to use these funds for three complementary purposes: (1) research, evaluation and program metrics, (2) program demonstrations, and (3) technical assistance and capacity building.

Through an extensive consultation and prioritization process, HUD's Office of Policy Development and Research (PD&R) has developed the "Research Roadmap 2014–2018," which identifies research and evaluation priorities that will set HUD on a path to address the most pressing housing and urban development challenges. The TI provides a predictable stream of funding for these high quality research and evaluation projects and program demonstrations that will inform sound policymaking. The TI supplements HUD's Research and Technology appropriations, which are mainly dedicated to funding housing data, such as the American Housing Survey.

The TI also enables HUD to design and execute a series of major research demonstrations that rigorously test new program innovations. Demonstrations can be used to explore fundamental questions about housing market dynamics and their impact on economic, social and environmental objectives. The demonstrations will improve programs, help State and local governments, non-profits, and for profit organizations to develop more effective strategies for housing and community and economic development, and improve the delivery and reduce the cost of public services.

Traditionally, HUD has delivered program-oriented technical assistance to ensure that HUD grantees are fully aware of the rules governing the disparate programs. While awareness of rules

is necessary, effective responses to urban and housing challenges increasingly require coordination and awareness of diverse areas of knowledge: housing finance as well as land use, energy efficiency as well as healthy homes, community development as well as transportation planning, and accessibility as well as job creation. The TI enables HUD to develop enhanced and focused support to deliver cross-program technical assistance for States, local governments, and other HUD grantees for integrated management and planning across programs and jurisdictions, including improved use of data to drive decision-making and results. In 2014, HUD will strengthen its focus on using TI to deliver comprehensive capacity building to help distressed communities position themselves for revitalization and economic growth.

The following table illustrates the *maximum* and *estimated* transfers from HUD's programs into the Transformation Initiative account in 2014.

(INCLUDING CANCELLATION AND TRANSFER OF FUNDS)

SEC. 201. Fifty percent of the amounts of budget authority, or in lieu thereof 50 percent of the cash amounts associated with such budget authority, that are recaptured from projects described in section 1012(a) of the Stewart B. McKinney Homeless Assistance Amendments Act of 1988 (42 U.S.C. 1437 note) shall be cancelled or in the case of cash, shall be remitted to the Treasury, and such amounts of budget authority or cash recaptured and not cancelled or remitted to the Treasury shall be used by State housing finance agencies or local governments or local housing agencies with projects approved by the Secretary of Housing and Urban Development for which settlement occurred after January 1, 1992, in accordance with such section. Notwithstanding the previous sentence, the Secretary may award up to 15 percent of the budget authority or cash recaptured and not cancelled or remitted to the Treasury to provide project owners with incentives to refinance their project at a lower interest rate.

SEC. 202. None of the amounts made available under this Act may be used during fiscal year 2014 to investigate or prosecute under the Fair Housing Act any otherwise lawful activity engaged in by one or more persons, including the filing or maintaining of a nonfrivolous legal action, that is engaged in solely for the purpose of achieving or preventing action by a Government official or entity, or a court of competent jurisdiction.

SEC. 203. Sections 203 and 209 of division C of Public Law 112-55 (125 Stat. 693-694) shall apply during fiscal year 2014 as if such sections were included in this title, except that during such fiscal year such sections shall be applied by substituting fiscal year 2014 for fiscal year 2011 and fiscal year 2012, each place such terms appear.

SEC. 204. Except as explicitly provided in law, any grant, cooperative agreement or other assistance made pursuant to title II of this Act shall be made on a competitive basis and in accordance with section 102 of the Department of Housing and Urban Development Reform Act of 1989 (42 U.S.C. 3545).

SEC. 205. Funds of the Department of Housing and Urban Development subject to the Government Corporation Control Act or section 402 of the

Housing Act of 1950 shall be available, without regard to the limitations on administrative expenses, for legal services on a contract or fee basis, and for utilizing and making payment for services and facilities of the Federal National Mortgage Association, Government National Mortgage Association, Federal Home Loan Mortgage Corporation, Federal Financing Bank, Federal Reserve banks or any member thereof, Federal Home Loan banks, and any insured bank within the meaning of the Federal Deposit Insurance Corporation Act, as amended (12 U.S.C. 1811-1).

SEC. 206. Corporations and agencies of the Department of Housing and Urban Development which are subject to the Government Corporation Control Act are hereby authorized to make such expenditures, within the limits of funds and borrowing authority available to each such corporation or agency and in accordance with law, and to make such contracts and commitments without regard to fiscal year limitations as provided by section 104 of such Act as may be necessary in carrying out the programs set forth in the budget for 2014 for such corporation or agency except as hereinafter provided: Provided, That collections of these corporations and agencies may be used for new loan or mortgage purchase commitments only to the extent expressly provided for in this Act (unless such loans are in support of other forms of assistance provided for in this or prior appropriations Acts), except that this proviso shall not apply to the mortgage insurance or guaranty operations of these corporations, or where loans or mortgage purchases are necessary to protect the financial interest of the United States Government.

SEC. 207. The Secretary of Housing and Urban Development shall provide quarterly reports to the House and Senate Committees on Appropriations regarding all uncommitted, unobligated, recaptured and excess funds in each program and activity within the jurisdiction of the Department.

SEC. 208. A public housing agency or such other entity that administers Federal housing assistance for the Housing Authority of the county of Los Angeles, California, the States of Alaska, Iowa, and Mississippi shall not be required to include a resident of public housing or a recipient of assistance provided under section 8 of the United States Housing Act of 1937 on the board of directors or a similar governing board of such agency or entity as required under section (2)(b) of such Act. Each public housing agency or other entity that administers Federal housing assistance under section 8 for the Housing Authority of the county of Los Angeles, California and the States of Alaska, Iowa and Mississippi that chooses not to include a resident of public housing or a recipient of section 8 assistance on the board of directors or a similar governing board shall establish an advisory board of not less than six residents of public housing or recipients of section 8 assistance to provide advice and comment to the public housing agency or other administering entity on issues related to public housing and section 8. Such advisory board shall meet not less than quarterly.

SEC. 209. (a) Notwithstanding any other provision of law, subject to the conditions listed in subsections (c) and (e), for fiscal years 2014 and 2015, the Secretary of Housing and Urban Development may authorize the transfer of some or all project-based assistance, debt held or insured by the Secretary, and statutorily required low-income and very low-income use restrictions if any, associated with one or more multifamily housing project to another multifamily housing project or projects.

(b) PHASED TRANSFERS.—Transfers of project-based assistance under this section may be done in phases to accommodate the financing and other requirements related to rehabilitating or constructing the project or projects to which the assistance is transferred, to ensure that such project or projects meet the standards under section (c).

(c) The transfer authorized in subsection (a) is subject to the following conditions:

(1) NUMBER AND BEDROOM SIZE OF UNITS.—

(A) For occupied units in the transferring project: the number of low-income and very low-income units and the configuration (i.e. bedroom size) provided by the transferring project shall be no less than when transferred to the receiving project or projects and the net dollar amount of Federal assistance provided to the transferring project shall remain the same in the receiving project or projects.

(B) For unoccupied units in the transferring project: the Secretary may authorize a reduction in the number of dwelling units in the receiving project or projects to allow for a reconfiguration of bedroom sizes to meet current market demands, as determined by the Secretary and provided there is no increase in the project-based assistance budget authority.

(2) The transferring project shall, as determined by the Secretary, be either physically obsolete or economically nonviable.

(3) The receiving project or projects shall meet or exceed applicable physical standards established by the Secretary.

(4) The owner or mortgagor of the transferring project shall notify and consult with the tenants residing in the transferring project and provide a certification of approval by all appropriate local governmental officials.

(5) The tenants of the transferring project who remain eligible for assistance to be provided by the receiving project or projects shall not be required to vacate their units in the transferring project or projects until new units in the receiving project are available for occupancy.

(6) The Secretary determines that this transfer is in the best interest of the tenants.

(7) If either the transferring project or the receiving project or projects meets the condition specified in subsection (d)(2)(A), any lien on the receiving project resulting from additional financing obtained by the owner shall be subordinate to any FHA-insured mortgage lien transferred to, or placed on, such project by the Secretary, except that the Secretary may waive this requirement upon determination that such a waiver is necessary to facilitate the financing of acquisition, construction, and/or rehabilitation of the receiving project or projects.

(8) If the transferring project meets the requirements of subsection (d)(2)(F), the owner or mortgagor of the receiving project or projects shall execute and record either a continuation of the existing use agreement or a new use agreement for the project where, in either case, any use restrictions in such agreement are of no lesser duration than the existing use restrictions.

(9) The transfer does not increase the cost (as defined in section 502 of the Congressional Budget Act of 1974, as amended) of any FHA-insured mortgage, except to the extent that appropriations are provided in advance for the amount of any such increased cost.

(d) For purposes of this section—

#### SEC. 243. PERFORMANCE PARTNERSHIP PILOTS—

(a) DEFINITIONS. In this section,

(1) "Performance Partnership Pilot" (or "Pilot") is a project that seeks to identify, through a demonstration, cost-effective strategies for providing services at the state, regional, or local level that—

(A) involve two or more Federal programs (administered by one or more Federal agencies)—

(i) which have related policy goals, and

(ii) at least one of which is administered (in whole or in part) by a state, local, or tribal government; and

(B) achieve better results for regions, communities, or specific at risk populations through making better use of the budgetary resources that are available for supporting such programs.

(2) "To improve outcomes for disconnected youth" means to increase the rate at which individuals between the ages of 14 and 24 (who are homeless, in foster care, involved in the juvenile justice system, or are neither employed nor enrolled in an educational institution) achieve success in meeting educational, employment or other key goals.

(3) The "lead Federal administering agency" is the Federal agency, to be designated by the Director of the Office of Management and Budget (from among the participating Federal agencies that have statutory responsibility for the Federal discretionary funds that will be used in a Performance Partnership Pilot) that will enter into and administer the particular Performance Partnership Agreement on behalf of that agency and the other participating Federal agencies.

(b) USE OF DISCRETIONARY FUNDS IN FISCAL YEAR 2014 APPROPRIATIONS ACT. Federal agencies may use Federal discretionary funds, that are made available in this act or any other appropriations act providing funds for Fiscal Year 2014 and corresponding authority to enter into Performance Partnership Pilots, to carry out up to a total of 13 Performance Partnership Pilots involving up to a total of \$130,000,000 in aggregate Federal discretionary budget authority. Such Pilots shall:

(1) be designed to improve outcomes for disconnected youth, and

(2) involve Federal programs targeted on disconnected youth, or designed to prevent youth from disconnecting from school or work, that provide education, training and employment, and other related social services; and

(c) PERFORMANCE PARTNERSHIP AGREEMENTS. Federal agencies may use Federal discretionary funds, as authorized in subsection (b), to participate in a Performance Partnership Pilot only in accordance with the terms of a Performance Partnership Agreement that—

(1) is entered into between—

(A) the head of the lead Federal administering agency, on behalf of all of the participating Federal agencies (subject to the head of the lead Federal administering agency having received from the heads of each of the other participating agencies their written concurrence for entering into the Agreement), and

(B) the respective representatives of all of the state, local or tribal governments that are participating in the Agreement; and

(2) specifies, at a minimum, the following information:

(A) the length of the Agreement (which shall not extend beyond September 30, 2018);

(B) the Federal programs and federally-funded services that are involved in the Pilot;

(C) the Federal discretionary funds that are being used in the Pilot (by the respective Federal account identifier, and the total amount from

such account that is being used in the Pilot), and the period (or periods) of availability for obligation (by the Federal Government) of such funds;

(D) the non-Federal funds that are involved in the Pilot, by source (which can include private funds as well as governmental funds) and by amount;

(E) the state, local, or tribal programs that are involved in the Pilot;

(F) the populations to be served by the Pilot;

(G) the cost-effective Federal oversight procedures that will be used for the purpose of maintaining the necessary level of accountability for the use of the Federal discretionary funds;

(H) the cost-effective State, local or tribal oversight procedures that will be used for the purpose of maintaining the necessary level of accountability for the use of the Federal discretionary funds;

(I) the outcome (or outcomes) that the Pilot is designed to achieve;

(J) the appropriate, reliable, and objective outcome-measurement methodology that the Federal Government and the participating state, local, or tribal governments will use, in carrying out the Pilot, to determine whether the Pilot is achieving, and has achieved, the specified outcomes that the Pilot is designed to achieve; and

(K) in cases where, during the course of the Pilot, it is determined that the Pilot is not achieving the specified outcomes that it is designed to achieve,

(i) the consequences that will result from such deficiencies with respect to the Federal discretionary funds that are being used in the Pilot, and

(ii) the corrective actions that will be taken in order to increase the likelihood that the Pilot, upon completion, will have achieved such specified outcomes.

(d) AGENCY HEAD DETERMINATIONS. A Federal agency may participate in a Performance Partnership Pilot (including by providing Federal discretionary funds that have been appropriated to such agency) only upon the written determination by the head of such agency that the agency's participation in such Pilot—

(1) will not result in denying or restricting the eligibility of any individual for any of the services that (in whole or in part) are funded by the agency's programs and Federal discretionary funds that are involved in the Pilot, and

(2) based on the best available information, will not otherwise adversely affect vulnerable populations that are the recipients of such services. In making this determination, the head of the agency may take into consideration the other Federal discretionary funds that will be used in the Pilot as well as any non-Federal funds (including from private sources as well as governmental sources) that will be used in the Pilot.

(e) TRANSFER AUTHORITY. For the purpose of carrying out the Pilot in accordance with the Performance Partnership Agreement, and subject to the written approval of the Director of the Office of Management and Budget, the head of each participating Federal agency may transfer Federal discretionary funds that are being used in the Pilot to an account of the lead Federal administering agency that includes Federal discretionary funds that are being used in the Pilot. Subject to the waiver authority under subsection (g), such transferred funds shall remain available for the same purposes for which such funds were originally appropriated: Provided, That such transferred funds shall remain available for obligation by the Federal Government until the expiration of those Federal discretionary funds (which are being used in the Pilot) that have the longest period of availability, except that any such transferred funds shall not remain available beyond September 30, 2018.

(f) WAIVER AUTHORITY. In connection with a Federal agency's participation in a Performance Partnership Pilot, and subject to the other provisions of this section (including subsection (e)), the head of the Federal agency to which the Federal discretionary funds were appropriated may waive (in whole or in part) the application, solely to such discretionary funds that are being used in the Pilot, of any statutory, regulatory, or administrative requirement that such agency head—

(1) is otherwise authorized to waive (in accordance with the terms and conditions of such other authority), and

(2) is not otherwise authorized to waive, provided that in such case the agency head, prior to granting the waiver, shall—

(A) not waive any requirement related to nondiscrimination, wage and labor standards, or allocation of funds to State and substate levels;

(B) issue a written determination with respect to such discretionary funds that the granting of such waiver for purposes of the Pilot—

(i) is consistent with both—

*(I) the statutory purposes of the Federal program for which such discretionary funds were appropriated, and*

*(II) the other provisions of this section, including the written determination by the agency head issued under subsection (e);*

*(ii) is necessary to achieve the outcomes of the Pilot as specified in the Performance Partnership Agreement, and is no broader in scope than is necessary to achieve such outcomes; and*

*(iii) will result in either—*

*(I) realizing efficiencies by simplifying reporting burdens or reducing administrative barriers with respect to such discretionary funds, or*

*(II) increasing the ability of individuals to obtain access to services that are provided by such discretionary funds; and*

*(C) provide at least 60 days advance written notice to the Committees on Appropriations and other committees of jurisdiction in the House of Representatives and the Senate.*
