

Office of Affordable Housing 2010 Funding Round Updates

Experience List

There is no experience list that will be posted for this year's round. Each entity should know whether they submitted a complete performance workbook in 2008 and 2009 and received a determination that they were experienced. Applicants that have previously submitted a performance workbook in 2008 and 2009 should update that workbook with both experience and compliance history that has occurred since their last submission and include it in their Application. If you were deemed experienced in 2008 or 2009, DCA will be using the performance workbook to determine your compliance score, but not experience. If you have not previously submitted the performance workbook and did not receive an experience determination in 2008 or 2009, the same workbook will be used to determine your experience at either pre application or application and your compliance score at application.

Please note that DCA is not determining compliance scores during the preapplication round.
