

INFORMATION ABOUT OUR APPROVED LIST OF VENDORS

The Authority publishes an approved list of vendors for various third party studies that may be required when applying to the Authority for financing and/or an allocation of Tax Credits. Developers in most cases must choose a firm from one of these lists to complete their required studies. To view the various lists please click on the appropriate link below:

HOW TO GET ON ONE OF THE AUTHORITY'S APPROVED VENDOR LISTS

In order to be placed on one of the Authority's Approved Vendor Lists a firm must respond and score sufficiently to a Request for Proposal (RFP), that is published on the States' Central Management Services website (www.purchase.state.il.us). Each of the different Approved Vendor lists is developed from a separate RFP process, and each RFP is typically published on a two year cycle.

New firms interested in being informed that an RFP has been published for the Physical Needs Assessment List, Environmental Review List, Cost Estimation List or Appraisal List, should submit a contact name and email address to Richard Hastings at www.rhastings@ihda.org. Vendors interested in knowing about the Market Study Firms RFP, should submit a contact name and email address to Lisa Somers at www.lsomers@ihda.org.

In addition, CMS provides an automated notification process for vendors who register on their website. By selecting business categories, a vendor can receive email informing them of RFP's being published on the States' website.
