

COVID-19 and Minnesota Housing Multifamily Portfolio: Additional Guidance from Asset Management for Property Owners and Property Management Staff

In light of COVID-19 developments, guidance from the Centers for Disease Control and Prevention (CDC), and Governor Walz, many property owners and property management staff are making efforts to practice social distancing and minimize unnecessary social contact to the greatest extent possible. This is a time of unprecedented stress among tenants and property management staff who are all trying to remain safe and supportive during this uncertain time.

We know that there are more questions than answers right now, but we are releasing information and resources as soon and as frequently as possible, including COVID-19 related guidance for Property Owners and Property Management Staff (see below).

We ask for your continued patience as we work to respond as quickly as possible to your concerns. We will continue sharing informational resources as quickly and as widely as we can and all Minnesota Housing updates will be posted to our [COVID-19 webpage](#).

Please keep sharing your questions and concerns with your assigned Housing Management Officer (HMO) or Compliance Officer, recognizing that the best way to reach them at this time is through email.

Thank you and be well!
