

The 2003 Low-Income Housing Tax Credit Qualified Allocation Plan For the State of North Carolina

I. INTRODUCTION

The Qualified Allocation Plan (the Plan) has been developed by the North Carolina Housing Finance Agency (the Agency) as administrative agent for the North Carolina Federal Tax Reform Allocation Committee (the Committee) in compliance with Section 42 of the Internal Revenue Code of 1986, as amended (the Code). For purposes of the Plan, the term "Agency" shall mean the Agency acting on behalf of the Committee, unless otherwise provided.

The Plan was reviewed in one public hearing and met the other requirements under statutory law, prior to final adoption by the Committee. The staff of the Agency was present at the hearing to take comments and answer questions.

The Agency will only allocate low-income housing tax credits in compliance with the Plan. The Code requires that the Plan contain certain elements. These elements, and others added by the Committee, are listed below.

- A. Selection criteria to be used in determining the allocation of federal low-income housing tax credits:
 - 1. Project location and site suitability
 - 2. Market demand and local housing needs
 - 3. Serving the lowest income tenants
 - 4. Serving qualified tenants for the longest periods
 - 5. Design and quality of construction
 - 6. Financial structure and long-term viability
 - 7. Use of federal project-based rental assistance
 - 8. Use of mortgage subsidies
 - 9. Experience of development team and management agent(s)
 - 10. Serving tenant populations with special housing needs
 - 11. Willingness to solicit referrals from public housing waiting lists
 - 12. Tenant populations of individuals with children
 - 13. Projects intended for eventual tenant ownership
 - 14. Projects that include the use of existing housing as part of a Community Revitalization Plan
 - 15. Projects located in a Qualified Census Tract, the development of which contribute to a concerted Community Revitalization Plan
- B. Threshold, underwriting and process requirements for project applications and tax credit awards.
- C. Description of the Agency's compliance monitoring program, including procedures to notify the Internal Revenue Service of noncompliance with the requirements of the program.

An allocation of tax credits does not constitute a representation or warranty that the ownership entity or its owners will qualify for or be able to use the tax credits. The Agency's interpretation of the Code is not binding on the Internal Revenue Service, and the Agency neither represents nor warrants to any owner, equity investor, Principal or other program participant how the Internal Revenue Service will interpret or apply any provision of the Code. Each owner and its agents should consult its own legal and tax advisors.

In the process of administering the low-income housing tax credit and Rental Production Program (RPP), the Agency will make decisions and interpretations regarding project applications and the Plan. Unless otherwise stated, the Agency is entitled to the full discretion allowed by law in making all such decisions and interpretations.

II. SET-ASIDES AND COUNTY DESIGNATIONS

No county or project will be awarded tax credits for new construction exceeding \$1,500,000 unless doing so is necessary to meet another set-aside requirement of this Plan or to completely fund a project request. No county will be awarded more than one project under the rehabilitation set-aside. The Agency may waive these limits for 1) proposals utilizing HOPE VI financing, 2) other large scale revitalization efforts characterized by a high degree of committed public subsidies, or 3) implementation of a disaster relief plan. RPP loans cannot exceed \$1 million per project.

Any Principal will be limited to an award of a) not more than fifteen percent (15%) of the total tax credits available for new construction and b) one project under the rehabilitation set-aside. (A Principal may have one rehabilitation project and fifteen percent (15%) of the new construction credits.) All persons and entities meeting the definition of Principal will be certified by the applicant on the application, at carryover allocation and at final cost certification. Any project that qualifies for an allocation of credits but that would result in a Principal exceeding this limit will be disqualified and ineligible for a credit allocation in the current year.

The Agency may allocate 2003 tax credits outside of the normal process to projects that either: 1) address the loss of housing due to the effects of a natural disaster and were submitted in the last two years, or 2) allow the Agency to comply with HUD regulations regarding timely commitment of funds. The total amount of such allocation(s) shall not exceed \$750,000. The Agency may also make a forward commitment of the next year's tax credits in an amount necessary to fully fund projects with a partial award or to any project application that was submitted in a prior year if such application meets all the minimum requirements of the Plan in the year credits are to be allocated. In the event that credits are returned for failure to comply with Section VII(A)(2), the Agency may carry such credits forward, make an award to any project application (subject only to the nonprofit set aside), or a combination of both.

A. GEOGRAPHIC SET-ASIDES

The Agency has established geographic set asides for the ranking and selection of new construction projects. The Agency reserves the right to revise the available credits in each set-aside. Tax credits and RPP funds available for new construction projects will be distributed as follows:

WEST: 15%	CENTRAL: 25%	METRO: 30%	EAST: 30%
-----------	--------------	------------	-----------

WEST		CENTRAL		METRO	EAST	
Alexander	Jackson	Alamance	Lincoln	Durham	Beaufort	Johnston
Alleghany	Macon	Anson	Montgomery	Forsyth	Bertie	Jones
Ashe	Madison	Cabarrus	Moore	Guilford	Bladen	Lenoir
Avery	McDowell	Caswell	Orange	Mecklenburg	Brunswick	Martin
Buncombe	Mitchell	Chatham	Person	Wake	Camden	Nash
Burke	Polk	Cumberland	Randolph		Carteret	New Hanover
Caldwell	Rutherford	Davidson	Richmond		Chowan	Northampton
Catawba	Surry	Davie	Rockingham		Columbus	Onslow
Cherokee	Swain	Franklin	Rowan		Craven	Pamlico
Clay	Transylvania	Gaston	Scotland		Currituck	Pasquotank
Cleveland	Watauga	Granville	Stanly		Dare	Pender
Graham	Wilkes	Harnett	Stokes		Duplin	Perquimans
Haywood	Yadkin	Hoke	Union		Edgecombe	Pitt
Henderson	Yancey	Iredell	Vance		Gates	Robeson
		Lee	Warren		Greene	Sampson
					Halifax	Tyrrell
					Hertford	Washington
					Hyde	Wayne
						Wilson

Applications are allocated credits starting with those earning the highest scoring totals within each geographic set-aside and continuing in descending score order through the last project that can be fully funded. The remaining credits from all four geographic set-asides are then added together and allocated to the next highest scoring application(s) statewide, unless (in the Agency's discretion) such amount should be carried forward and applied to the next year's credit ceiling.

B. REHABILITATION SET-ASIDE

The Agency will award the lesser of the following amounts to projects proposing rehabilitation of existing housing: 1) ten percent (10%) of the state’s total tax credit ceiling (plus any amount necessary to fully fund a partial award), or 2) the amount required for five projects. Rehabilitation projects will not be eligible for credits other than in this set-aside. These awards will be based on the criteria listed in Section IV(H) and are not subject to the geographic set-asides. Adaptive re-use projects and entirely vacant residential buildings will be considered new construction.

C. NONPROFIT AND CHDO SET-ASIDES

If necessary, the Agency will adjust the awards under the Plan to ensure that the overall allocation results in 1) ten percent (10%) of the state’s federal tax credit ceiling being awarded to projects involving non-profits and 2) fifteen percent (15%) of RPP funds being awarded to projects involving Community Housing Development Organizations certified by the Agency (CHDOs). Specifically, credits that would have been awarded to the lowest ranking project(s) that do(es) not fall into one of these categories will be awarded to the next highest ranking project(s) that do(es) until the overall allocation(s) reach(es) the necessary percentage(s). In order to qualify for the first category, an application must either not involve any for-profit Principals or comply with the material participation requirements of the Code, applicable federal regulations and Section VI(A)(2). In order to qualify for the second category, an application must meet the requirements of 24 CFR 92.300(a)(1) and any other HUD regulation regarding the CHDO set-aside.

D. COUNTY INCOME DESIGNATIONS

Pursuant to N.C.G.S. § 105-129.42(c) the Agency is responsible for designating each county as High, Moderate or Low Income. Five criteria were used for making this determination:

1. County median income
2. Poverty rate
3. Percent of population in rural areas
4. Regional growth patterns
5. Enterprise area tier (one through five)

Each county was considered as a whole and evaluated relative to others in the state. Based on this process, the Agency designates counties as follows:

HIGH	MODERATE		LOW		
Alamance	Alexander	Lee	Alleghany	Graham	Pamlico
Cabarrus	Brunswick	Lincoln	Anson	Greene	Pasquotank
Chatham	Buncombe	Moore	Ashe	Halifax	Pender
Davidson	Burke	Nash	Avery	Haywood	Perquimans
Durham	Caldwell	New Hanover	Beaufort	Hertford	Richmond
Forsyth	Carteret	Onslow	Bertie	Hoke	Robeson
Guilford	Catawba	Person	Bladen	Hyde	Rockingham
Iredell	Cleveland	Pitt	Camden	Jackson	Rutherford
Johnston	Craven	Polk	Caswell	Jones	Sampson
Mecklenburg	Cumberland	Randolph	Cherokee	Lenoir	Scotland
Orange	Dare	Stanly	Chowan	Macon	Surry
Rowan	Davie	Stokes	Clay	Madison	Swain
Union	Franklin	Transylvania	Columbus	Martin	Tyrrell
Wake	Gaston	Watauga	Currituck	McDowell	Vance
	Granville	Wayne	Duplin	Mitchell	Warren
	Harnett	Wilson	Edgecombe	Montgomery	Washington
	Henderson	Yadkin	Gates	Northampton	Wilkes
					Yancey

III. DEADLINES AND FEES

- A. The following schedule will apply to the application process for 9% tax credits for 2003. Applicants seeking a tax exempt bond allocation and 4% tax credits should refer to the application schedule found in **Appendix G**.

January 10	Deadline for electronic submission of preliminary applications
January 17	Deadline for paper version preliminary applications and exhibits (12:00 noon, no exceptions)
February 28	Market analysts will mail studies to the Agency and applicants
March 14	Deadline for market-related project revisions
March 21	Preliminary site scores announced; market analysts will mail comments on revisions to the Agency and applicants
April 4	Deadline for site score review requests
April 18	Notification of final site and market scores and preliminary evaluation of rehabilitation projects
May 9	Deadline for new construction full applications (12:00 noon, no exceptions)
May 23	Deadline for rehabilitation full applications (12:00 noon, no exceptions)
August 15	Notification of final reservations (actual date will be no earlier than three weeks after announcement of AHP awards)
October 31	Deadline for final site control
November 14	Deadline for 10% cost certifications

The Agency reserves the right to change the schedule as necessary.

- B. Processing, application and allocation fees are as follows:

1. All applicants are required to pay a nonrefundable fee of \$5,020 at the submission of the preliminary application. This fee covers the cost of the market study or physical needs assessment and a \$1,020 preliminary application processing fee (which will be assessed for every electronic application submitted as of January 10, 2003).
2. All applicants are required to pay a nonrefundable processing fee of \$1,020 upon submission of the full application.
3. Entities receiving 9% credit awards are required to pay an allocation fee equal to five and one half percent (5.5%) of a single year's tax credits, calculated using the full 9% (and/or 4% for RD projects, acquisition credits, ect.) applicable federal rate ("AFR"). The allocation fee must be paid to the Agency upon return of the allocation letter. Failure to submit this allocation fee within 30 days of the date of the allocation letter will result in the withdrawal of the tax credit reservation. The fee for entities receiving tax-exempt bond volume is specified in Appendix G.
4. If expenses for legal services are incurred by the Committee or Agency to correct mistakes of the Owner which jeopardize use of the tax credits, such legal costs will be paid by the Owner in the amount charged to the Agency or the Committee.
5. The Agency will not process applications or other documentation relating to any Principal who has an outstanding balance of fees owed.

NOTE: The nonrefundable processing fee will be increased by two percent (2%) each year after 2002. The

allocation fee will increase by 0.25% each year up to six percent (6%) in 2005.

C. Monitoring fees as listed below must be paid prior to the issuance of a federal form 8609:

Project Type	Federal Credits Only	Federal and State Tax Credits
Tax credit projects without an Agency loan, including projects using tax-exempt bond financing and 4% credits	\$425 per unit	\$525 per unit
Projects using RD financing without RPP funding	\$250 per unit	\$350 per unit
Projects receiving an Agency loan, regardless of RD financing.	\$500 per unit	\$600 per unit

The monitoring fee is applied to **all units in a project**, including all market rate units and units reserved for managers or other personnel.

IV. SELECTION CRITERIA AND THRESHOLD REQUIREMENTS

Each new construction project will be ranked using the points described in Sections IV(A), IV(B), IV(C), IV(D), IV(E), IV(F) and IV(G) below. The Agency will not accept a full application where the preliminary application does not meet all site and market threshold requirements.

Applications must meet all threshold requirements and receive 175 points to be considered for award and funding. This limitation also applies to tax-exempt bond financing; even with an allocation of bond authority, projects must meet the minimum score and threshold requirements to be eligible for tax credits. Rehabilitation projects will not receive point scores but instead will be evaluated using the criteria listed in Section IV(H) (thus all references to receipt of points only apply to new construction projects). All threshold requirements also apply to rehabilitation projects unless otherwise noted.

A. SITE AND MARKET EVALUATION (MAXIMUM 170 POINTS)

1. SITE EVALUATION (MAXIMUM 140 POINTS)

- (a) Site scores will be based on the following factors. Each will also serve as a threshold requirement: the Agency may remove an application from consideration if the site is sufficiently inadequate in one of the categories. Evaluation of sites will involve a relative comparison with other applications in the same geographic set-aside, with an emphasis on those the Agency considers to be within the same market area. Criteria involving consideration of land uses will focus on the area within approximately one-half mile. The Agency will consider revitalization plans and other proposed development based on certainty, extent and timing. Where appropriate, the score for a particular category will reflect the project's tenant type (family/elderly/special needs).

NEIGHBORHOOD CHARACTERISTICS (MAXIMUM 80 POINTS)

- Trend and direction of real estate development and area economic health
- Physical condition of buildings and improvements
- Suitability of surrounding development
- Land use pattern is primarily residential (single and multifamily housing) with a balance of other uses (particularly retail and amenities)
- Availability, quality and proximity of essential services: grocery store; mall/strip center; gas/convenience; basic health care; pharmacy; schools/athletic fields; day care/after school; supportive services
- Availability, quality and proximity of important amenities and features: public park, library, hospital, community/senior center, basketball/tennis courts, fitness/nature trails, public swimming pool, restaurants, bank/credit union, medical offices, professional services, movie theater, video rental, public safety (fire/police)

SITE SUITABILITY (MAXIMUM 60 POINTS)

- Effect of industrial, large-scale institutional or other incompatible uses: wastewater treatment facilities, high traffic corridors, junkyards, prisons, landfills, large swamps, distribution facilities, frequently used railroad tracks, power transmission lines and towers, factories or

similar operations, sources of excessive noise, and sites with environmental concerns (such as odors or pollution)

- Amount and character of vacant, undeveloped land
- Adequate traffic controls (stop light, turn lanes, ect.)
- Burden on public facilities (particularly roads)
- Access to mass transit (if applicable)
- Degree of on-site negative features and physical barriers that will impede project construction or adversely affect future tenants; for example: power transmission lines and towers, flood hazards, steep slopes, large boulders, ravines, year-round streams, wetlands, and other similar features (for adaptive re-use projects- suitability for residential use and difficulties posed by the building(s), such as limited parking, environmental problems or the need for excessive demolition)
- Similarity of scale and aesthetics/architecture between project and surroundings
- Concentration of affordable housing

(b) General Site Requirements

- Sites must be sized to accommodate the number and type of units proposed. Required zoning must be in place by the full application submission date, including any special use permits, traffic studies, conditional use permits and other land use requirements.
- The applicant or a Principal must have site control by the preliminary application deadline, which may be evidenced by a valid option, contract or warranty deed.
- Utilities (water, sewer and electricity) must be available with adequate capacity to serve the site. Sites should be accessed directly by existing paved, publicly maintained roads. If not, it will be the applicant's responsibility to extend utilities and roads to the site. In such cases, the applicant must explain and budget for such plans at the preliminary application stage, as well as document the applicant's right to perform such work through, for example, language in the real estate option/contract, separate contract or consent by the city or town.
- Proposed construction must not be located within a 100-year floodplain. Proposed construction includes driveways, parking areas, playgrounds, community building/office, residential buildings, maintenance buildings, refuse collection areas, laundry rooms, mail collection areas, or any other permanent structure or fixture. The Agency may waive this restriction in certain counties in the East Region where viable alternatives do not exist and where sound measures to mitigate flood hazards are proposed.

2. MARKET ANALYSIS (MAXIMUM 30 POINTS)

- (a) The Agency will contract directly with market analysts to perform studies for new construction projects. Applicants will have a structured opportunity to interact with market analysts in order to make appropriate project design and targeting adjustments that best fit their markets.
- (b) A project will not receive tax credits or RPP funding if it is in the same market area as previously funded tax credit or RPP projects (including earlier phases of the same overall development) which have not reached stabilized occupancy or a recent history of high vacancy rates. The Agency may waive these limitations if the market study indicates a strong demand for all units involved. The Agency will limit the number of projects awarded in the same application round to those that it determines can be supported in the market.
- (c) Applications for new construction projects will be evaluated using four criteria, each of which will serve both as a threshold requirement and to determine points.
- The project's required market share, or the percent of income qualified households seeking housing that the project would need to capture to achieve stabilized occupancy.
 - The number of months between project completion and either stabilized occupancy or qualification of the tax credit units (whichever is later).
 - The vacancy rate at comparable properties.
 - The project's affect on existing low-income housing tax credit properties.
- (d) The Agency is not bound by the conclusions or recommendations of the market analyst(s), and will use its discretion in evaluating the criteria listed in this Section. For rehabilitation and 100%

special needs projects, the applicant must submit a market study that meets the requirements of Section 42(m)(1)(A)(iii) of the Code prior to issuance of a carryover allocation (unless the Agency, in its discretion, requires an earlier submission date).

- (e) Applications for 100% special needs housing that receive bonus points under Section IV(F)(4) also will be eligible to earn points under this section. The score will be based on the needs analysis component of the targeting plan as evaluated by DHHS. Any points would be determined during the full application review process.

B. RENT AFFORDABILITY (MAXIMUM 65 POINTS)

1. FEDERAL RENTAL ASSISTANCE (MAXIMUM 20 POINTS)

- (a) A maximum of 20 points will be awarded for a firm commitment that provides federal project-based rental subsidies for at least ninety-five percent (95%) of the tax credit units; committed federal subsidies of at least twenty percent (20%) but less than 95% will be awarded 10 points. To receive points for HUD Section 8 project-based rental subsidies, applicants must submit a letter from the issuing authority (i) supporting the proposed development, (ii) representing that it has the proposed number of certificates available to convert to project based assistance, (iii) committing it to request HUD approval for the conversion, (iv) setting forth a timetable for the advertisement and approval process, and (v) committing it to seek renewal of the subsidy contract for as long as possible subject to Congressional funding.
- (b) Applicants must include a written agreement between the owner and a public housing authority (PHA). The agreement must commit (i) the PHA to include the development in any listing of housing opportunities where households with tenant-based subsidies are welcome, and (ii) the project’s management agent to actively seek referrals from the PHA to apply for units at the proposed development. If the PHA refuses to cooperate for any reason, an explanation must be submitted as well as a statement of commitment by the applicant to seek referrals from the PHA.

2. MORTGAGE SUBSIDIES AND LEVERAGING (MAXIMUM 30 POINTS)

- (a) Only loans from established below-market, multifamily lenders will be considered; sources of mortgage subsidies include the following: Federal Home Loan Bank (FHLB) Affordable Housing Program (AHP), PHAs, local Community Development Block Grant (CDBG) funds (for on-site improvements only; includes Small Cities program), HUD Section 108, other local development funds and RD. Other sources of public funding may qualify **PROVIDED THEY ARE APPROVED IN WRITING IN ADVANCE** by the Agency. (Approval of a particular source in prior years does not meet this requirement.) In order to qualify, loans must be listed as a source in the application, have a term of at least 20 years and an interest rate less than or equal to two percent (2%).
- (b) Adjustments to the purchase price of the land by the seller, uncommitted RPP funds or other Agency loans, state credits and bond financing are not considered sources of mortgage subsidy.
- (c) Applications will be awarded five (5) points for having a commitment of at least \$100,000 in qualifying mortgage subsidy funds. Projects will earn a greater amount of points based on the total amount of funds per unit, as described below:

Funds/Unit	Points	\$10,000	20
\$5,000	10	\$11,000	22
\$6,000	12	\$12,000	24
\$7,000	14	\$13,000	26
\$8,000	16	\$14,000	28
\$9,000	18	\$15,000	30

The calculation includes all units and amounts will not be rounded up. The funds-to-unit ratio initially approved by the lending source determines the score, unless a subsequent change results in fewer points. The amount of subsidy provided by a local government will be reduced by the amount that the project budget includes the following: any impact, tap or related fees charged by

that local government and/or the cost of land sold by that local government in excess of the market value determined under Section VI(A)(4). For example, a project involving the following:

- 48 tax credit units and 16 market rate units,
 - a commitment of \$925,000 in qualifying funds, \$150,000 of which are from the city, and
 - tap fees of \$100,000 charged by the same city to the project
- will receive 24 points $[(925,000 - 100,000) / 64 = \$12,891 \text{ per unit}]$.

- (d) Projects funded entirely with equity and state tax credits (no grants or debt sources other than deferred developer fees) will be awarded 15 points. Any deferred fee must comply with Section VI(B)(5).
- (e) In order to be eligible for points under this Section, applications for new construction tax exempt bond projects must meet one of the following requirements:
- at least twenty percent (20%) of qualified units will be affordable to and occupied by households with incomes at or below fifty percent (50%) of county median income, or
 - at least ten percent (10%) of qualified units will be affordable to and occupied by households with incomes at or below forty (40%) of county median income.

3. TENANT RENT LEVELS (MAXIMUM 15 POINTS)

(PROJECTS WILL BE MONITORED FOR RENT AND OCCUPANCY RESTRICTIONS FOR THE PERIOD INDICATED IN THE EXTENDED USE AGREEMENT.)

Applicants should understand that electing to meet the requirements of this Section will reduce the number of potential tenants for certain units, which may be reflected in the market score. The applicant may earn points under one of the following scenarios:

- (a) If the project is in a High Income county:
- Ten (10) points will be awarded if at least twenty-five (25%) of qualified units will be affordable to and occupied by households with incomes at or below thirty (30%) of county median income.
 - Five (5) points will be awarded if at least fifty percent (50%) of qualified units will be affordable to and occupied by households with incomes at or below forty (40%) of county median income.
- (b) If the project is in a Moderate Income county:
- Fifteen (15) points will be awarded if at least twenty-five (25%) of qualified units will be affordable to and occupied by households with incomes at or below 40% of county median income.
 - Ten (10) points will be awarded if at least fifty percent (50%) of qualified units will be affordable to and occupied by households with incomes at or below fifty percent (50%) of county median income.
- (c) If the project is in a Low Income county, fifteen (15) points will be awarded for projects in which at least forty (40%) of qualified units will be affordable to and occupied by households with incomes at or below fifty percent (50%) of county median income.
- (d) In order to be eligible for tax credits, applications for new construction tax exempt bond projects must meet one of the following requirements:
- at least ten percent (10%) of qualified units will be affordable to and occupied by households with incomes at or below fifty percent (50%) of county median income, or
 - at least five percent (5%) of qualified units will be affordable to and occupied by households with incomes at or below forty (40%) of county median income.

4. COMMITMENT TO EXTEND LOW-INCOME OCCUPANCY

Applicants must agree to record a 30-year Declaration of Land Use Restrictive Covenants for Low-Income Housing Tax Credits (Extended Use Agreement) stating that the owner will not apply for relief under Section 42(h)(6)(E)(i)(II) of the Code.

C. PROJECT DEVELOPMENT COSTS

The Agency will assess negative points to applications using either the following “per unit” or “per net square foot” standards (total project costs less land and reserves) outlined in **Chart A** below, whichever is less. The point structure in **Chart B** will apply to the following: 1) detached single family developments, 2) duplex developments with less than 25 units, 3) 100% special needs housing, 4) HOPE VI projects 5) unique downtown circumstances and 6) projects utilizing historic tax credits. RPP loan funds will be limited by HOME Per-Unit Subsidy Limits and HOME Per-Unit Cost Limits. Copies of all executed change orders must be submitted to the Agency.

The equity raised from historic preservation tax credits will be subtracted from the total development cost before this calculation is made. Water and sewer tap fees and impact fees will also be subtracted from total development cost for this calculation provided that the applicant has included documentation from the local government verifying the amount of fees required.

CHART A			
Per Unit	OR	Per Net Sq. Ft.	Points
\$74,000		\$74	(-2)
\$77,000		\$77	(-4)
\$80,000		\$80	(-6)
\$83,000		\$83	(-8)
\$86,000		\$86	(-10)
\$89,000		\$89	(-15)
\$92,000		\$92	(-20)
\$95,000		\$95	(-30)
\$98,000		\$98	(-40)
\$101,000		\$101	(-50)
\$104,000		\$104	(-60)
\$107,000		\$107	(-70)
\$110,000		\$110	(-80)
\$113,000		\$113	(-90)
\$116,000		\$116	(-100)

CHART B			
Per Unit	OR	Per Net Sq. Ft.	Points
\$87,000		\$87	(-2)
\$90,000		\$90	(-4)
\$93,000		\$93	(-6)
\$96,000		\$96	(-8)
\$99,000		\$99	(-10)
\$102,000		\$102	(-15)
\$105,000		\$105	(-20)
\$108,000		\$108	(-30)
\$111,000		\$111	(-40)
\$114,000		\$114	(-50)
\$117,000		\$117	(-60)
\$120,000		\$120	(-70)
\$123,000		\$123	(-80)
\$126,000		\$126	(-90)
\$129,000		\$129	(-100)

To receive an RPP loan, projects 1) must have costs per unit of less than \$90,000 and 2) must not request RPP loan funds in excess of the following amounts per unit: \$15,000 in High Income counties; \$20,000 in Moderate Income counties; \$25,000 in Low Income counties. The latter restriction does not apply to projects with funds committed by RD prior to October 1, 2003.

D. CAPABILITY OF THE PROJECT TEAM

1. DEVELOPMENT EXPERIENCE

- (a) At least one Principal must have successfully developed, operated and maintained in compliance one North Carolina low-income housing tax credit development that was placed in service between December 1, 1996 and January 1, 2003. (The Agency may waive this requirement for applicants with adequate experience in the North Carolina tax credit program.) Such Principal must become a general partner or managing member of the ownership entity and remain responsible for overseeing the development and operation of the project for a period of two (2) years after placed in service. This requirement will not apply to HOPE VI developments. The Agency will determine what qualifies as successful and who can be considered as involved in a particular project.
- (b) All owners and Principals **must** disclose all previous participation in the low-income housing tax credit program. Additionally, all owners and Principals that have participated in an out of state tax credit allocation must complete the Authorization for Release of Information form and send it to each state identified.

- (c) The Agency will require executed agreements that clearly specify division of duties, rights, and obligations, including compensation, among owners and Principals in a project.
- (d) The Agency reserves the right to determine that a particular development team does not meet the threshold requirement of this Section due to differences between its prior work and the proposed project. Particularly important in this evaluation is the type of subsidy program used in the previous experience (such as tax-exempt bonds, RD).

2. MANAGEMENT EXPERIENCE

The management agent must have at least a) one similar tax credit project in their current portfolio and b) one staff person serving in a supervisory capacity with regard to the project who has been certified as a tax credit compliance specialist. Such certification must be from an organization accepted by the Agency (such as HCCP). None of the persons or entities serving as management agent may have in their portfolio a project with material or uncorrected non-compliance beyond the cure period. The management agent listed on the application must be retained by the ownership entity for at least two (2) years after project completion, unless the agent is guilty of specific nonperformance of duties.

3. PROJECT TEAM NEGATIVE ASSESSMENTS AND RESTRICTIONS

The Agency may disqualify any owner, Principal or management agent that has been debarred or received a limited denial of participation in the past 10 years by any federal or state agency from participating in any Agency multifamily development program.

The Agency may disqualify any project with an owner, Principal or management agent who is found to be directly or indirectly responsible for any other projects in which there is uncorrected noncompliance more than six months from the date of notification by the Agency.

- (a) Up to negative forty (-40) points may be assessed against a project with an owner, Principal or management agent who within the past ten years has been in a bankruptcy, an adverse fair housing settlement, an adverse civil rights settlement, or an adverse federal or state government proceeding and settlement.
- (b) Up to negative forty (-40) points may be assessed against a project with an owner or Principal who has been in a mortgage default or arrearage of three months or more within the last five years on an FHA-insured project, an RD funded rental project, a tax-exempt bond funded mortgage, a tax credit project or any other publicly subsidized project. Resolution of all outstanding Agency concerns regarding the default or arrearage may be considered in assessing negative points.
- (c) Up to negative forty (-40) points may be assessed against a project with an owner Principal or management agent who has been involved within the past ten years in a project which previously received an allocation of tax credits but failed to meet standards or requirements of the tax credit allocation and/or failed to fulfill one of the representations contained in an application for tax credits. This includes returning an allocation of tax credits to the Agency after the carryover agreement has been signed.
- (d) Up to negative forty (-40) points may be assessed against a project where the management agent is found to be directly or indirectly responsible for any other project in which there is uncorrected noncompliance more than three months from the date of notification by the Agency or any other state allocating agency.

E. UNIT CREATION AND PROJECT SIZE

- 1. Applications must either create new affordable units or rehabilitate existing units. No more than twenty percent (20%) of the units in a new construction 9% credit project may be market-rate (meaning not subject to tax credit restrictions).
- 2. New construction 9% credits: Twenty (-20) points will be subtracted from any project with more than 80 units but less than 101 units. Forty (-40) points will be subtracted from any project with 101 or more units.

3. New construction bond financed: Twenty (-20) points will be subtracted from any project with more than 120 units but less than 151 units. Forty (-40) points will be subtracted from any project with 151 or more units.

The Agency reserves the right to waive the penalties and limitations in this Section for proposals that reduce low-income and minority concentration.

F. BONUS POINTS AND TIEBREAKERS (MAXIMUM 50 POINTS)

1. Fifteen (15) points will be awarded to projects that have an obligation of funds from the U.S. Department of Agriculture, Rural Development (RD). Ten (10) points will be awarded to projects that have an obligation of funds under either the U.S. Department of Housing and Urban Development (HUD) 202 or 811 programs, including project based rental assistance appropriate for the project.
2. Ten (10) points will be awarded to projects that are (a) located within a Qualified Census Tract and can demonstrate that they contribute to a Community Revitalization Plan according to the parties responsible for the plan; and/or (b) involve the use of existing housing (that is not necessarily located within a Qualified Census Tract), the improvement of which has been designated as part of the Community Revitalization Plan. In both cases, the project site must be clearly within the geographic confines of the Community Revitalization Plan. The plan also must clearly indicate that revitalization activities are underway or will take place in the neighborhood surrounding the proposed project (a one-half mile radius surrounding the site) no more than two years from the time the project would be funded.
3. Five (5) points will be awarded to projects designed to increase the stock of housing accessible to those with mobility impairments. To receive bonus points, five percent (5%) of all project units must:
 - (a) be fully accessible according to the standards set forth in Volume 1-C (1999) of the North Carolina State Building Code, (Chapter 30, Multi-Family Dwellings),
 - (b) have at least one bathroom with a toilet located in a five foot by five foot clear floor space (may overlap with the five foot turning diameter described in Chapter 30), with no overlapping elements or fixtures; the toilet must be positioned in a corner with the centerline of the toilet bowl 18 inches from the sidewall, and
 - (c) have at least one bathroom with a 36 inch by 60 inch (minimum size) curbless, roll-in shower. Such showers must also meet the requirements for accessible controls as required by Volume 1-C.

At least one unit in each class of fully accessible units must meet the above requirements. Unit classes are measured by the number of bedrooms, pursuant to Volume 1-C (1999) of the North Carolina State Building Code (Chapter 30, Section 30.3.2.) These units are in addition to mobility impaired units required by federal and state law (including building codes). The application also must include a letter describing the need for such units from a local agency or non-profit that works with mobility impaired populations.

4. Twenty (20) points will be awarded to projects targeting the greater of five (5) units or ten percent (10%) of the total units to persons with disabilities or homeless populations. Projects that are targeting units under this Section are not required to provide onsite supportive services or a service coordinator. To receive bonus points, the application must demonstrate a partnership with a local lead agency and submit a Targeting Plan for review and certification by the N.C. Department of Health and Human Services (DHHS).

At a minimum, Targeting Plans must include:

- (a) A local housing needs assessment for the targeted population developed in partnership with the local lead agency.
- (b) A description of how the development will meet the needs of the targeted tenants including how the units will be made affordable to persons with extremely low incomes, unit size, access to supportive services, transportation, proximity to community amenities, etc.

- (c) A description of the experience of the local lead agency, their capacity to assure access to supportive services, and to maintain the relationship with the relevant tenants for the duration of the compliance period.
- (d) A Memorandum of Understanding (MOU) between the developer(s), management agent and the lead local agency. The MOU will include a description of the tenant referral process and how the local lead agency will remain linked to the project for the entire compliance period.
- (e) Certification that participation in supportive services will not be a condition of tenancy (not required for projects where all of the units are providing transitional housing for the homeless).
- (f) Agreement that for a period of ninety days after the initial rent-up period begins, establishing a preferential leasing opportunity for the number of units specified in the application for persons with disabilities.
- (g) Agreement to maintain a separate waiting list for persons with disabilities and prioritizing these individuals for any units that may become vacant after the initial rent-up period, based upon the minimum number of units specified in your application.
- (h) Agreement to affirmatively market to persons with disabilities.
- (i) Agreement to include a section on reasonable accommodation in property management's application for tenancy.
- (j) Agreement to accept Section 8 vouchers or certificates (or other rental assistance) as allowable income as part of property management income requirement guidelines for eligible tenants and not require total income beyond that which is reasonably available to persons with disabilities currently receiving SSI and SSD benefits.

All materials required under this Section must be submitted to DHHS by the full application due date. A detailed description of the elements to be addressed in the Targeting Plan is included in **Appendix D**.

5. Tiebreaker Criteria: The following will be used to award credits in the event that the final scores of more than one project are identical.
- (a) First Tiebreaker - The project requesting the least amount of federal tax credits per unit based on the Agency's equity needs analysis.
 - (b) Second Tiebreaker - Tenants with Children: Projects that can serve tenant populations with children. Developments will qualify for this designation if at least twenty-five (25%) of the units are three or four bedrooms. This tiebreaker will only apply where the market study shows a clear demand for this population (as determined by the Agency).
 - (c) Third Tiebreaker - Tenant Ownership: Projects that are intended for eventual tenant ownership. Such developments must utilize a detached single family site plan and building design and have a business plan describing how the project will convert to tenant ownership at the end of the 30-year compliance period.

In the event that a tie remains after considering the above tiebreakers, the project requesting the least amount of federal tax credits will be awarded the credits.

G. DESIGN STANDARDS (MAXIMUM 80 POINTS)

All proposed measures must be shown on the plans or in specifications in the application in order to receive points.

A maximum of 80 points will be awarded for new construction projects based on evaluation of the site plan design and layout, building and floor plan design and construction characteristics as they relate to the development cost per unit. Design standards are found in **Appendix B** and must be used for all projects receiving low-income housing tax credits and/or RPP funding or points may be deducted for non-compliance.

1. Site plan considerations: A maximum of 15 points will be given for projects which
 - Propose an attractive, scattered building layout focusing on visual appeal and privacy;
 - Propose site amenities, including playgrounds, gazebos, garden spots, walking trails, picnic areas, ball fields, basketball/tennis courts and exercise rooms, have natural areas with trees between buildings (for new construction); create accessible walks linking buildings to each other, to common areas and to parking; have large open spaces for recreational activities, have a well-designed entry to the site with attractive signage, lighting and landscaping.

In order to receive points, the items listed above must be clearly indicated on the site drawings.

2. Building and floor plan design: A maximum of 45 points will be given for projects which
 - Propose creative and versatile architectural designs. Examples of exterior building designs include broken roof lines, front gables, dormers or front extended facades, wide banding and vertical and horizontal siding applications, some brick veneer, front porches and attractive deck rail patterns.
 - Propose open, flowing floor plans. Examples include spacious kitchens, bathrooms, living rooms and dining rooms, dwelling units that exceed minimum square footages, bedrooms that exceed minimum square footages, bathrooms that are large with vanities and open floor spaces, kitchens that provides an abundance of counter top working space and cabinets, availability of storage space other than bedroom closets, and the adequacy of closet space, including large walk-in closets.
3. Construction characteristics: A maximum of 20 points will be given to projects which
 - Propose low maintenance, high durability, energy efficient products, and quality components. Examples include: High-grade vinyl or VC tile in kitchens, bathrooms, entryways, and laundry areas.
 - Propose energy efficient components that exceed Agency and/or building code minimum standards.
 - Propose measures to provide good attic and roof ventilation, use vinyl or aluminum windows and steel insulated exterior doors.
 - Propose to use quality exterior siding, such as vinyl, hardiplank, or brick veneer and have pre-finished aluminum exterior trim, including fascia, soffit, and porch posts.
4. Completion of previously approved projects: Negative points will be assessed for projects with owners, or Principals of prior project(s) that were not built in accordance with the plans and specifications on which such prior project(s') Design Standards score was based, if deviation from such plans and specifications results in conditions that would justify a reduction in that prior project(s') original Design Standards score(s). The number of negative points assessed to the project in the current year will be equal to the cumulative number of points by which each such prior project's original Design Standards score would have been so reduced to reflect the deviation, adjusted to reflect any change in the scale of the Design Standards scoring. For example, if the reduction in the prior project's Design Standards score as a result of the deviation from its plans and specifications is determined to be 10 points based on a scale of 50 maximum Design Standards points at the time such prior project was awarded credits, if there is a current scale of 100 maximum Design Standards points, the negative points assessed to the current project based on that prior project's deviation from its plans and specifications would be 20 points. Design and construction changes approved in writing by the Agency will not result in any negative points assessed under this Section.

H. CRITERIA FOR SELECTION OF REHABILITATION PROJECTS

In order to be eligible for funding, a project must a) have committed mortgage subsidies from a local government in excess of \$5,000 per unit or federal project-based rental assistance, b) have been placed in service on or before December 31, 1984 and c) require rehabilitation expenses in excess of \$15,000 per unit (as supported by a physical needs assessment approved by the Agency). The assessment must be performed by a licensed architect or engineer and involve the physical inspection of the site, amenities, dwelling units and any common areas. Rehabilitation expenses include hard construction costs directly attributable to the project, excluding costs for a new community building, as calculated using lines 2 through 7 (less line 6) in the Project Development Cost Description.

The Agency will evaluate applications based on the following ten criteria, which are listed in order of importance. Each will serve both to determine allocations and as a threshold requirement; the Agency may remove an application from consideration if the proposal is sufficiently inadequate in any of the categories.

1. The Agency will give the highest priority to applications proposing to rehabilitate the state's most distressed existing housing. However, buildings that are deteriorated to the point of requiring demolition will not be eligible for credits under this Section.
2. The Agency will give priority to applications that propose a scope of work appropriate to the building(s), as reflected in the Physical Needs Assessment. (Proposals should not involve unnecessary work.) Specifically, proposals should involve the following:
 - Making "common areas" handicap accessible, creating or improving sidewalks, installing new roof shingles, adding gutters, sealing brick veneers, applying exterior paint, and resurfacing or re-paving parking areas.
 - Improving site and exterior dwelling lighting, landscaping/fencing, and installing high-quality vinyl or hardiplank siding.
 - Adding gables, porches, dormers or roof sheds.
 - Use energy-efficient related products to replace inferior ones, including insulated windows and doors, and adding additional insulation.
 - Improving heating and cooling units, plumbing fixtures, water heaters, toilets, sinks, faucets and tub/shower units.
 - Improving quality of interior conditions and fixtures, including carpet, vinyl, interior doors, painting, drywall repairs, cabinets, appliances, light fixtures and mini-blinds.
 - Where possible, upgrading bathrooms pursuant to Section IV(F)(3).
3. Applications will have a reduced likelihood of being awarded credits to the extent that the purpose is to subsidize an ownership transfer.
4. Shortcomings in the above three criteria will be mitigated to the extent that a tax credit allocation is necessary to prevent a) conversion of units to market rate rents or b) loss of government resources (including past, present and future investments).
5. The Agency will give priority to applications that have certified Targeting Plans under Section IV(F)(4) and/or mortgage subsidy resources committed as part of the application.
6. Applications will have priority to the extent that the rehabilitation improvements are a part of a community revitalization plan and/or will benefit the surrounding community. However, projects in severely distressed areas will have a reduced likelihood of being awarded credits.
7. Applications will have a reduced likelihood of being awarded credits based on the number of tenants that would be permanently relocated (including market-rate).
8. The Agency will give preference to applications based on the quality of and degree of effort proposed in the temporary and permanent relocation plans.
9. While allocation of rehabilitation tax credits is not subject to any regional set-aside, the Agency will consider the geographic distribution of this resource and will attempt to avoid a concentration of awards in any one area of the state.

Projects that are feasible using tax exempt bonds (as determined by the Agency) or involve total development costs in excess of \$5 million or \$100,000 per unit will not be eligible for an award of 9% credits.

I. PRIORITY FOR ALLOCATION OF BOND CAP

Applicants proposing to use tax-exempt bonds with 4% tax credits must meet all of the requirements of the Plan and **Appendix G** (incorporated herein by reference) to claim such credits. The Committee will allocate the multifamily portion state's tax-exempt bond authority in the following order of priority:

1. Projects that serve as a component of an overall HOPE VI revitalization effort.
2. Rehabilitation projects.
3. Adaptive re-use projects.

4. Other new construction projects.

Applications will only be allocated bond authority if there is enough remaining after awarding all eligible applications in higher priority levels. Within each category, allocation priority will be based on the relevant scoring and threshold requirements of Section IV.

V. APPLICATION PROCEDURES AND REQUIREMENTS

A. GENERAL

1. The Agency may require applicants to submit any information, letter or representation relating to Plan requirements or point scoring as part of the application process. Unless otherwise noted, the Agency may elect to not consider information submitted after the relevant deadline.
2. Any misrepresentation, false information or omission in any application document may result in disqualification of that application and any other involving the same owner(s), Principal(s), consultant(s) and/or application preparer(s). Any misrepresentation, false information or omission in the application document may result in a revocation of a credit allocation.
3. The Agency may elect to treat applications involving more than one site or population type (family/elderly) as separate for purposes of the Agency's preliminary application process. Each application would require a separate initial application fee. Projects may be considered one application in the full application submission if all sites are secured by one permanent mortgage and are not intended for separation and sale after receipt of the tax credit allocation.
4. Applications, correspondence and supporting materials may be submitted to the Agency as follows:

Deliver to:	Mail to:
North Carolina Housing Finance Agency	North Carolina Housing Finance Agency
Rental Investment	Rental Investment
3508 Bush Street	P.O. Box 28066
Raleigh, NC 27609	Raleigh, NC 27611-8066
5. The Agency will notify the appropriate unit of government about the project after submission of the preliminary application. The Agency reserves the right to reject applications opposed in writing by the chief elected official (supported by the council or board), but is not obligated to do so.
6. Applicants may be assessed a \$500 fee for each instance of failure to comply with a written requirement of the tax credit application process (whether or not such requirement is in the Plan).

B. APPLICATION PROCESS

1. The Agency will send site score information to each applicant (upon request) after publication of the preliminary scores. The market analyst will send studies to the Agency and applicant.
2. Applicants may request a factual review of their project's preliminary site score. Review requests (and any supporting materials) must be submitted to the Agency and include a processing fee of \$500. The review will be limited to errors of fact, not of analysis.
3. The market score will not be subject to review or appeal. However, applicants will have an opportunity to revise their project (unit mix, targeting) based on the market analyst's recommendations; such revisions may increase the market score. Any revisions must be submitted in writing to both the market analyst and to the Agency.
4. Applicants for rehabilitation projects will receive a preliminary evaluation and recommendations from the Agency.
5. The deadlines for this Section are listed in Section III(A).

VI. GENERAL REQUIREMENTS

A. GENERAL THRESHOLD REQUIREMENTS FOR PROJECT PROPOSALS

1. Projects with Historic Tax Credits: Buildings either must be on the National Register of Historic Places or approved for the State Housing Preservation Office's study list at the time of the full application. Evidence of meeting this requirement should be provided.

2. Nonprofit Set-Aside:

For purposes of being considered as a nonprofit sponsored application under Section II(C), each nonprofit entity involved in a project must: (a) be qualified under Section 501(c)(3) or (4) of the Code, (b) be domesticated in North Carolina for at least 12 months prior to submitting an application, (c) have local community involvement on the board of directors, (d) materially participate (or a qualified corporation must materially participate), as defined under federal law, in the acquisition, development, ownership, and ongoing operation of the property for the entire compliance period, (e) have as one of its exempt purposes the fostering of low-income housing (f) own (or its qualified corporation own), directly or indirectly, an equity interest in the applicant, (g) be (or its qualified corporation be) a managing member or general partner of the applicant, and (h) must submit a narrative statement, certified by a resolution of the nonprofit's Board of Directors, with the full application describing the nonprofit's plan for material participation during the development of the project and compliance period.

The Agency reserves the right to make a determination that the nonprofit owner is not affiliated with or controlled by a for-profit entity or entities other than a qualified corporation. There can be no identity of interest between any nonprofit owner and for-profit entity, other than a qualified corporation.

3. Environmental Hazards: All projects involving use of existing structures must submit a hazardous material report which provides the results of testing for asbestos containing materials, lead based paint, Polychlorinated Biphenyls (PCBs), underground storage tanks, petroleum bulk storage tanks, Chlorofluorocarbons (CFCs), and other hazardous materials. The testing must be performed by professionals licensed to do hazardous materials testing. A report written by an architect or building contractor or developer will not suffice. A plan and projected costs for removal of hazardous materials must also be included.
4. Appraisals: The Agency will not allow the project budget to include more for land costs than its appraised market value. Any project budgeting more than \$5,000 per acre toward land costs must submit with the full application a real estate "as is" appraisal prepared by an independent, state certified appraiser in compliance with the Uniform Standards of Professional Appraisal Practice. The Agency may require appraisals in its discretion where cost per acre is below this amount. Appraisals for rehabilitation and adaptive re-use projects must break out the land and building values from the total value.
5. Concentration: Projects cannot be in areas of minority and low-income concentration (measured by comparing the percentage of minority and low-income households in the site's census tract with the community overall). The Agency may make an exception for projects in economically distressed areas which have Community Revitalization Plans with public funds committed to support the effort.
6. Displacement: In every instance of tenant displacement, the applicant must supply with the full application a plan describing how displaced persons will be relocated, including a description of the costs of relocation. The applicant is responsible for all relocation expenses, which must be included in the project's development budget. Applicants must also comply with either the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 if using RPP or federal funds, or **Appendix F** if not.
7. Tax Information Authorization: IRS Revenue Ruling 9-98 establishes a process for the Agency to obtain tax credit background information of applicants. The Agency has signed a Memorandum of Understanding with the Internal Revenue Service in order to implement this process. Applicants must submit an executed IRS Form 8821 with their full applications; every owner should submit a separate form. The IRS will provide the Agency with all federal tax information pertaining to low-income

housing tax credits, including audit findings and assessments for all tax periods specified on Form 8821, Tax Information Authorization.

8. Feasibility: The Agency will not allocate tax credits or RPP funding to an application that will have difficulty being completed and/or operated for the compliance period. Examples include projects that may not secure an equity investment or maintain adequate cash flow.

B. UNDERWRITING THRESHOLD REQUIREMENTS

The following minimum financial underwriting requirements apply to all projects. Projects that cannot meet these minimum requirements, as determined by the Agency, will not receive credits or RPP funding.

1. Loan Underwriting Standards:

Projects applying for tax credits only will be underwritten with rents escalating at three percent (3%) and operating expenses escalating at four percent (4%).

All projects will be underwritten assuming a constant seven percent (7%) vacancy and must reflect at least a 1.15 Debt Coverage Ratio (DCR) for the term of any debt financing on the project. Projects with no debt service (100% equity projects) must demonstrate a minimum net cash flow equal to three percent (3%) of the total operating expenses.

RPP loans will be underwritten using a 20 year term and a two percent (2%) interest rate. The Agency may, in its discretion, alter these terms to ensure project feasibility. Rents for projects utilizing HOME funds will not exceed the Fair Market Rents established by HUD. Underwriting of applications with a commitment from RD will incorporate the requirements of that program, and any RPP loan will have a 30 year term (fully amortizing) and zero percent (0%) interest.

2. Operating Expenses:

Assumptions for projects over 16 units:

- New construction (excluding adaptive re-use): \$2,300 per unit per year not including taxes, reserves and resident support services
- Renovation (includes rehabilitation and adaptive re-use): \$2,500 per unit per year not including taxes, reserves and resident support services.

Owner projected operating expenses will be used if they are higher than Agency minimums. The proposed management agent (or management staff if there is an identity of interest) must sign a statement (to be submitted with the full application) agreeing that the operating expense projections are reasonable.

3. Equity Pricing:

The Agency will conduct a survey of tax credit equity investors to determine appropriate pricing assumptions. Projects will be underwritten using the greater of this amount and the applicant's projection.

Equity should be calculated net of any syndication fees. Bridge loan interest typically incurred by the syndicator to enable an up front payment of equity should not be charged to the project directly, but be reflected in the net payment of equity. Equity should be based on tax credits to be used by the investor(s), excluding those allocated to the Principals unless these entities are making an equity contribution in exchange for the tax credits.

Applicants should use no more than the April 2003 AFR in preparing equity estimates.

4. Reserves:

- (a) Rent-up Reserve: Required for all except bond financed projects. A reasonable amount should be established based on the projected rent-up time considering the market and target population, but

in no event shall be less than \$300 per unit. These funds should be available to the management agent to pay rent-up expenses incurred in excess of rent-up expenses budgeted for in the project development costs. The funds are to be deposited in a separate bank account and evidence of such transaction provided to the Agency 90 days prior to the expected placed in service. All funds remaining in the rent-up reserve at the time the project reaches ninety-three (93%) occupancy must be transferred to the project operating reserve account.

For those projects receiving loan funds from RD, the 2% initial operating and maintenance capital established by RD will be considered the required rent-up reserve deposit.

- (b) Operating Reserve: Required for all projects except those receiving loan funds from RD. The operating reserve will be based on six month's debt service and operating expenses, and must be maintained the duration of the low-income use period.

Projects receiving RPP funds must capitalize the operating reserve account prior to the RPP loan closing. The Agency must approve any withdrawals from the operating account to meet project's operating deficits.

The operating reserve can be funded by deferring the developer's fees of the project. If this method is utilized, the deferred amounts owed to the developer can only be repaid from cash flow if all required replacement reserve deposits have been made. For tax credit projects where no RPP loan applies, the operating reserve can be capitalized by an equity pay in up to one year after certificate of occupancy is received. This will be monitored by the Agency.

For applicants seeking 4% housing credits with tax-exempt bond financing, the operating reserve will be based on four month's debt service and operating expenses. The period for which this reserve must be maintained can be established by the bond issuer.

- (c) Replacement Reserve: All new construction projects must budget replacement reserves of \$250 per unit per year. Rehabilitation and adaptive re-use projects must budget replacement reserves of \$350 per unit per year. The replacement reserve must be capitalized from the project's operations, escalating by four percent (4%) annually. Projects with an RPP loan must have Agency approval of withdrawals for capital improvements throughout the term of the loan.

In both types of renovation projects mentioned above, the Agency reserves the right to increase the required amount of annual replacement reserves if the Agency determines such an increase is warranted after a detailed review of the project's physical needs assessment.

For those projects receiving RD loan funds, the required funding of the replacement reserve will be established, administered and approved by RD, and the replacement reserve will not escalate annually.

Funds remaining in the operating and replacement reserve accounts at the end of the RPP loan term must be used for project maintenance costs approved by the Agency or applied against the loan.

5. Deferred Developer Fees:

Developer fees can be deferred to cover a gap in funding sources as long as the entire amount will be paid within 10 years, pursuant to the standards required by the IRS to stay in basis. Payment projections must not negatively impact the operation of the project, using Agency underwriting standards. Nonprofit organizations must include a resolution from the Board of Directors allowing such a deferred payment obligation to the project. The developer may not charge interest on the deferred amount in excess of the long term AFR.

6. Financing Commitment:

For all projects proposing **private** permanent financing, a letter of intent is required. This letter should clearly state the term of the loan is at least 18 years, how the interest rate will be indexed and the current rate at the time of the letter, the amortization period, any prepayment penalties, anticipated security

interest in the property and lien position. The interest rate must be fixed and no balloon payments may be due for 18 years. The bank must complete a cover letter using the format approved by the Agency, and submit it with the letter of intent. Applicants must submit a letter of commitment for financing within 90 days of receiving an award of tax credits.

For all projects proposing **public** permanent financing, binding commitments are required to be submitted by the full application due date. All loans must have a fixed interest rate and no balloon payments for at least 18 years after project completion. A binding commitment is defined as a letter, resolution or binding contract from a unit of government. The same terms described for the letter of intent (using the format approved by the Agency) from a private lender must be included in the commitment.

Applications may only include one set of proposed funding sources; the Agency will not consider multiple financial scenarios. A project will be ineligible for allocation if any of the listed funding sources will not be available in an amount or under the terms described in the application. The Agency may, in its discretion, waive this limitation if the project otherwise demonstrates financial feasibility.

It is not necessary to have AHP or NC Division of Community Assistance (DCA) CDBG subsidy commitments in place at the time of the application. All projects applying for tax credits and the CDBG subsidy must submit the application to DCA at the same time as the Agency's application deadline. However, the Agency will only consider AHP financing that has been submitted in the FHLB's first offering round of the calendar year. AHP and CDBG financing must be committed by August 1, 2003. (The deadline for consideration of AHP and CDBG funding in the 2004 cycle will be the full application date.) Public lenders must submit a cover letter using the format approved by the Agency.

7. Developer/Builder Fees:

- (a) Developer's fees shall be a maximum of fifteen percent (15%), or a lesser percentage adjusted for project size as described below. The Agency calculates developer's fees by adding lines 2-36 less lines 8 and 9 from the Project Development Cost Description in the application and multiplying by the applicable percentage to determine the maximum allowable developer fee.

up to 64 units	15%
65-112 units	12.5%
113 units plus	10%

In addition to the fees described above, a maximum developer's fee of four percent (4%) is allowed on the acquisition cost of buildings (not including land value/cost).

- (b) Builder's general requirements shall be limited to six percent (6%) of hard costs.
- (c) Builder's profit and overhead shall be limited to ten percent (10%) (8% profit, 2% overhead) OF TOTAL HARD COSTS including general requirements.
- (d) Where an identity of interest exists between the owner and builder, the builder's profit and overhead shall be limited to eight percent (8%) (6% profit, 2% overhead).
8. Consulting Fees: Consulting fees for a project must be paid out of developer fees, so that the aggregate of any consulting fees and developer fees is no more than the maximum developer fee allowed to that project.
9. Architects' Fees: For new construction projects, the architects' fees, including design and inspection fees, shall be limited to six percent (6%) of the total hard costs plus general requirements, overhead, profit and construction contingency (total of lines 2 through 10 on the Project Development Cost Description).
10. Investor Services Fees: Investor services fees must be paid from net cash flow and not be calculated into the minimum debt coverage ratio.

11. Project Contingency Funding: All new construction projects shall have a hard cost contingency line item of NO LESS OR NO MORE THAN three percent (3%) of total hard costs, including general requirements, builder profit and overhead. Rehabilitation and adaptive re-use projects shall include a hard cost contingency line item of NO LESS OR NO MORE THAN six percent (6%) of total hard costs.
12. Project Ownership: There must be common ownership between all units and buildings within a single project for the duration of the compliance period.
13. Section 8 Project-Based Rental Assistance: For all projects that propose to utilize Section 8 project-based rental assistance, the Agency will underwrite the rents according to the tax credit and HOME limits. These limits are based on data published annually by HUD. If the Section 8 contract administrator is willing to allow rents above these limits, the project may receive the additional revenue in practice, but Agency underwriting will use the lower revenue projections regardless of the length of the Section 8 contract.

Given the uncertainty of long-term federal commitment to Section 8 rental assistance, the Agency considers underwriting to the more conservative revenue levels to best serve the project's long-term financial viability.

VII. POST-AWARD PROCESSES AND REQUIREMENTS

A. GENERAL REQUIREMENTS

1. The tax credit reservation amount will be the total anticipated qualified basis amount multiplied by eight and one half percent (8.5%), or three and three quarters percent (3.75%) for the 4% credit. The actual tax credits allocated will be the lesser of the tax credits reserved, the applicable federal rate multiplied by qualified basis (as approved by the Agency), or the amount determined by the Agency pursuant to its evaluation as required under Section 42(m)(2) of the Code.
2. Ownership entities must a) have final site control over the property (deed or land lease) by October 31, 2003, b) expend ten percent (10%) of the project's reasonably expected basis and c) submit to the Agency a completed carryover agreement and cost certification by November 14, 2003. (This requirement also applies to projects with partial allocations.) Failure to meet these deadlines will preclude the project from participation in the state credit program. Pursuant to Section VI(B)(6), the Agency may determine that an awarded application listing state tax credits as a source of funding is ineligible for allocation due to failure to comply with the requirements of this Section. Projects will be required to elect a project-based allocation.
3. Once approved, the ownership entity will proceed to acquire, construct or rehabilitate the project. The ownership entity is required to update the Agency on the progress of development by submitting a Project Status Report. Sixty days prior to occupancy, the Agency must be notified in writing of the targeted project completion date. Upon completion for occupancy, the ownership entity must notify the Agency and furnish a completed Final Cost Certification form. The cost certification must include all project costs along with a certification for any subsidies the project will receive. Final IRS Section 1.42-17 Regulations effective January 1, 2001 require that the taxpayer of all projects in excess of ten units, which are placed in service after January 1, 2001, regardless of the year of credit allocation, submit a schedule of project costs accompanied by a Certified Public Accountant's (CPA) audit report that details the project's total costs as well as those that may qualify for inclusion in eligible basis under Section 42(d) of the Code. A third party CPA verification is required for cost certification on two or more units. The Agency may require an independent cost analysis.
4. Projects must meet all applicable federal, state and local laws and ordinances, including the Code and Fair Housing Act; the Agency may treat any failure to do so as a violation of the Plan.
5. Allocated credits may also be returned to the Agency under the following conditions as further described in Treasury Regulation Section 1.42-14: (a) credits have been allocated to a project building that is not a qualified building within the time period required by the Code, for example, because it is not placed in service within the period required under the Code, (b) credits have been allocated to a building that does not comply with the terms of its allocation agreement, (c) credits have been allocated

to a project that are not necessary for the financial feasibility of the project, or (d) by mutual written agreement between the allocation recipient and the Agency. Returned credits may include credits previously allocated to project that fails to meet the 10% test under Section 42(b)(1)(E)(ii) of the Code after close of calendar year in which allocation was made. Credits that are returned before October 1 in any calendar year are treated as credits returned in that calendar year, and all or a portion of such credits will be reallocated to the next highest ranked project(s) without a full allocation in that region and in that calendar year, pursuant to the terms of the Plan or, in the Agency's discretion, when appropriate and possible, carried over for allocation in the next calendar year. With respect to credits that are returned after September 30 in any calendar year, all or a portion of such credits may also be reallocated to the next ranked project(s) without a full allocation in that calendar year pursuant to the terms of the Plan, or all or a portion of such credits may be treated by the Agency, in its discretion, where appropriate and possible, as credits that are returned on January 1 of the succeeding calendar year to be allocated in that year.

By the time of the earlier of the date the project is placed in service, in the case of a carryover allocation, or by the 10% cost certification, (a) the ownership entity must have been legally formed, and (b) qualifying expenditures must have been incurred in the ownership entity's name or incurred by the ownership entity pursuant to a reimbursement agreement with a third party and such third party has incurred such expenditures by the time of 10% cost certification, and (3) the ownership entity must have a tax identification number.

6. The Agency may conduct construction inspections for adherence to approved final plans and specifications.
7. The owner of the project must sign and record the Extended Use Agreement in the county in which the project is located by the end of the first taxable year in which the credits allocated to the project are taken. The owner must have good and marketable title at that time, and must obtain the consent of any lienholder on the project property recorded prior to the Extended Use Agreement (other than a lienholder relative to the financing of the construction of the project that by its terms will be cancelled within one year of the last building in the project being placed in service) to be bound by the terms of this Extended Use Agreement.
8. The Agency may revoke credits after the project has been placed in service in accordance with the Code if the Agency determines that the owner has failed to implement all representations in the application to the Agency's satisfaction.
9. Federal form 8609 will not be issued until the owner and/or management company produces evidence of attending a low-income housing tax credit compliance seminar sponsored either by the Agency or a sponsor acceptable to the Agency within the last 12 months. In addition, 8609s will not be issued until the Agency confirms that the monitoring fees have been paid and that the project has adhered to all representations made in the application (including design elements). The Agency may require evidence of escrowed funds to complete landscaping.
10. In making application for tax credits, the applicant agrees that the Committee, the Agency, and their designees will have access to any information pertaining to the project. This includes having physical access to the project, all financial records and tenant information for any monitoring that may be deemed necessary to determine compliance with the Code. Applicants are advised that the Agency, on behalf of the Committee, is required to do compliance monitoring and to notify the IRS and the owner of any discovered noncompliance with tax credit laws and regulations, whether corrected or uncorrected. The Agency intends to conduct desk audits and monitoring visits of projects for the purpose of evaluating continuing compliance with tax credit regulations, selection criteria used to award bonus points, ensuring that the project continues to provide decent, safe and sanitary housing. The Agency will periodically modify monitoring procedures to ensure compliance with the requirements set forth in the Code and from time to time amended.

NOTE: Applicants are advised that some portion or all of a project's application may be subject to disclosure to the public under the North Carolina Public Records Act.

B. STATE TAX CREDITS

As the administrative agent for state credit refunds issued under N.C.G.S. § 105-129.42, the Agency has a responsibility to ensure that ownership entities do not receive resources ahead of corresponding value being created in the project. Therefore the following restrictions will apply to the state tax credit refund program.

1. **Loan Option:** Loans made by the Agency pursuant to N.C.G.S. § 105-129.42(d) will be under terms designed to have an effect similar to the equity generated under the previous state tax credit statute. Such loans will not be closed until the outstanding balance on the first-tier construction financing exceeds the total state credit amount. In other words, the entire loan must be used to pay down a portion of the then existing construction debt.
2. **Direct Refund Option:** The Agency and ownership entity will enter into an escrow agreement with regard to the refund dollars. The agreement will state, among other reasonable limitations, that issuance of the funds under N.C.G.S. § 105-129.42(g)(1) will not occur until all of the following requirements have been met:
 - (a) at least fifty percent (50%) of the activities included in the project's eligible basis have been completed;
 - (b) the Agency and local government inspector have conducted their framing inspections and approved all buildings (including community facilities); and
 - (c) the outstanding balance on the first-tier construction financing exceeds the total state credit amount (the entire refund must be used to pay down a portion of the then existing construction debt).

Applicants must indicate which of the two options will apply to the project as part of the full application process; such decision may not be changed for the carryover allocation. Ownership entities will have to fully comply with Section VII(A)(2) of the Plan to be eligible for participation in the state tax credit program. The Agency may adopt other policies regarding the state tax credit after adoption of the Plan. Owners, partners, members, developers or other Principals (and their affiliated entities) that are involved in a violation of any state tax credit requirement or fail to place a project in service after taking a loan or refund may, in the Agency's discretion, be assessed up to forty (-40) negative points or disqualified from participation in Agency programs.

C. COMPLIANCE MONITORING

Applicants will be required to utilize the TCR Online Internet reporting system (or other system as designated by the Agency) to update the Agency database on project and building information and unit activity. The database should be updated within 30 days of any change in information. Applicants will also be required to submit to the Agency a copy of the IRS form 8609 and Schedule A filed with the IRS for the first year credits are claimed.

The Agency will conduct on-site inspections and desk audits of at least one third of the projects under its jurisdiction. If projects are determined to be in noncompliance, monitoring may occur more often. The desk audit and inspection will include a project review of twenty percent (20%) of the units for the following:

- Tenant eligibility certifications
- Supporting eligibility documentation
- Leases
- Rent record (including utility documentation)
- Compliance with supportive services commitments
- Compliance with special populations targeting requirements (if applicable)
- Compliance with other commitments made in the application
- Inspection for compliance with HUD Uniform Physical Condition Standards

All projects, at a minimum, are expected to meet HUD's Section 8 Uniform Physical Condition Standards and comply with local and state health and building codes throughout the compliance period. A Memorandum of Understanding (MOU) has been executed with RD to accept their physical inspections in

lieu of performing the inspection. The Agency will determine when to utilize the MOU. In any event, the Agency will continue to monitor compliance documentation.

The Agency monitor rent levels relative to current median income levels. The Agency may require a window of affordability in calculating rents; owners should refer to the relevant Qualified Allocation Plan.

The county designation will be reviewed on an annual basis and published each year in the Plan. Tenant rents can not exceed the initial window of affordability from the original underwriting for the property without written permission of the Agency. In the event the county designation changes from low to high or high to low, requiring a change in the window of affordability, the Agency will not require a reduction in the existing rent structure. However, rent increases can only be implemented to the extent that they comply with the current required calculation. The Agency may waive this restriction if the ownership entity submits a written request and documentation demonstrating that the property will be financially jeopardized, and that it is unable to pay its operating expenses and debt service requirements while maintaining at least a 1.15 debt coverage ratio.

In mixed-use properties, 100% of the units may be monitored in any building receiving an allocation of tax credits.

The Agency will be monitoring projects to ensure the required monthly deposits to reserve for replacement accounts are made in accordance with the General Requirements.

During the compliance period the Committee and Agency reserve the right to perform an audit of any project that has received an allocation of tax credits. This audit may include an inspection of all buildings, and a review of all tenant records and any document relating to an application for an allocation of credits

The ownership entity of a low-income housing project must keep records (as defined below) for each building within a particular development. These records must be retained by the owner for a minimum of six (6) years beyond the owner's income tax filing date (plus any extensions) for that year. However, first year project records must be maintained for six (6) years beyond the tax filing date of the final year of the project's compliance period(21 years). The ownership entity must annually report to the Agency and maintain records for each qualified low-income building in the project showing:

- Total number of residential rental units in the building (including the number of bedrooms and the size in square feet of each such unit)
- Percentage of residential rental units in the building that are low-income units
- Rent charged on each residential rental unit in the building (including utility allowances)
- The size of each low-income household
- Low-income unit vacancies in the building and documentation of when and to whom the next available units were rented
- Income certification and student status of each low-income tenant
- Documentation to support each low-income tenant's income certification
- Character and use of the nonresidential portion of each building included in the building's eligible basis (this includes separate facilities such as clubhouses or swimming pools whose eligible basis is allocated to each building)

Failure to report annually to the Agency is deemed as noncompliance and is reportable to the IRS.

It is the responsibility of the ownership entity to certify annually to the Agency that the project meets the requirements of whichever set-aside of the Code is applicable to the project. Failure to certify is deemed as noncompliance and reportable to the IRS. This annual certification requires that the ownership entity certify that:

- The project meets the minimum requirements of the 20/50% or 40/60% test under the Code
- There has been no change in the applicable fraction as defined in the Code for any building in the project
- The applicant has received an annual Tenant Income Certification from each low-income resident and documentation to support that certification; or in the case of a tenant receiving Section 8 housing assistance payments, a statement from the PHA certifying the household's size and

amount of gross income; or the owner has a recertification waiver letter from the IRS in good standing that waives the requirement to obtain third party verifications at recertification and has received an annual Tenant Income Certification from each low-income household, and documentation to support the certification at their initial occupancy

- Each low-income unit was rent restricted in accordance with the Code.
- All units in the project are and have been for use by the general public and used on a non-transient basis (except for transitional housing for the homeless)
- No finding of discrimination under the Fair Housing Act has occurred for the Project (a finding of discrimination includes an adverse final decision by HUD, an adverse final decision by a substantially equivalent state or local fair housing agency, or an adverse judgment from a federal court).
- Each building in the project is and has been suitable for occupancy, taking into account local health, safety, and building codes, and the state or local government unit responsible for making building code inspections did not issue a report of a violation for any building or unit in the project
- There has been no change in the eligible basis (as defined in the Code) of any building in the project since last certification
- All tenant facilities included in the eligible basis, such as swimming pools, other recreational facilities, parking areas, washer/dryer hookups, and appliances were provided on a comparable basis without charge to all tenants in the buildings
- If a low-income unit in the project has been vacant during the year, reasonable attempts were or are being made to rent that unit or the next available unit of comparable or smaller size to tenants having a qualifying income before any units were or will be rented to tenants not having a qualifying income
- If the income of tenants of a low-income unit in the project increased above the limit allowed in Section 42(g)(2)(D)(ii) of the Code, the next available unit of comparable or smaller size was or will be rented to residents having a qualifying income
- An extended low-income housing commitment was in effect, including the requirement that an ownership entity cannot refuse to lease a unit because the applicant holds a Section 8 voucher or certificate of eligibility; neither the ownership entity nor the management agent has refused to lease a unit to an applicant based solely on their status as a holder of a Section 8 voucher and the project otherwise meets the provisions, including any special provisions, as outlined in the extended low-income housing commitment
- If the applicant received its credit allocation from the portion of the state ceiling set-aside for a project involving “qualified nonprofit organizations” under Section 42(h)(5) of the Code and its nonprofit entity materially participated in the operation of the development within the meaning of Section 469(h) of the Code
- There has been no change in the ownership or management of the project

The ownership entity of any exempted project must certify to the Agency on an annual basis that the project is in compliance with the requirements of the Code, Rural Development assistance or the tax-exempt bond financing guidelines, as applicable. The ownership entity must inform the Agency of any noncompliance or if the owner is unable to make one or more of the required certifications.

The Agency may elect to subcontract the compliance monitoring procedure to other agents.

In the event that any noncompliance with the Code is identified, a discrepancy letter detailing the noncompliance will be forwarded to the ownership entity and management company of the project.

The ownership entity must then respond in writing to the Agency within thirty (30) days after receipt of the discrepancy letter. The response must address all discrepancies individually and must indicate the manner in which corrections will be made. The owner will then have a cure period of sixty (60) days from the date of the discrepancy letter to correct the noncompliance and to provide the Agency with any required documentation or certification. The cure period may be extended for periods of up to six (6) months. Extensions will be based on a determination by the Agency that there is good cause for granting the extension.

The Agency will notify the Internal Revenue Service of any noncompliance within forty-five (45) days after the expiration of the cure period. All corrections made by the ownership entity within the cure period

will be acknowledged within this notice. A copy of the applicant's response to the noncompliance will accompany the notice to the IRS.

If a potential noncompliance is discovered during a compliance monitoring review, the ownership entity will be required to have its managing agent attend a compliance training session within two months following the compliance monitoring review.

VIII. DEFINITIONS

The terms listed below will be defined in the Plan as indicated below regardless of capitalization, unless the context clearly indicates otherwise. Terms used in the Plan but not defined below will have the same meaning as under the Code and IRS regulations.

Affiliate: As to any person or entity (i) any entity of which a majority of the voting interest is owned by such person or entity, (ii) any person or entity directly or indirectly controlling (10% or more) such person or entity, (iii) any person or entity under direct or indirect common control with any such person or entity, or (iv) any officer, director, employee, manager, stockholder (10% or more), partner or member of any such person or entity or of any person or entity referred to in the preceding clauses (i), (ii) or (iii).

Applicant: The entity that is applying for the tax credits and/or any RPP loan funds, as applicable.

Allowable Development Cost: Cost upon which the Agency calculates allowable developer fees. Includes lines 2-36 less lines 8, 9 and 10 in the Project Development Cost Description in the application.

Community Revitalization Plan: A plan that has been adopted and with specific funding commitments by one or more unit(s) of government prior to the date of preliminary application to the Agency and includes the following: a clearly delineated geographic target area that includes the project; detailed policy goals (one of which must be safe, decent and affordable housing) and implementation measures along with specific timeframes for the achievement of such policies; housing activities that will occur within at least one-half mile of the project; and at least one community revitalization action that has been initiated and indicates measurable progress.

Community Service Facility: Any facility designed to serve primarily individuals whose income is sixty percent (60%) or less of area median income.

Developer: Any individual or entity responsible for initiating and controlling the development process and ensuring that all, or any material portion of all, phases of the development process are accomplished. Furthermore, the developer is the individual or entity identified as such in the Ownership Entity Agreement and any and all Development Fee Agreements.

Displacement: The moving of a person and/or such person's personal property from their current residence.

Efficiency Apartment: A dwelling unit with a minimum of 450 net square footage (assuming new construction) in which the bedroom and living area are contained in the same room. Each unit has a full bathroom (shower/bath, lavatory and water closet) and full kitchen (stove top/oven, sink, full size refrigerator) which is located in a separate room.

Elderly Housing: Owners may choose one of the established definitions recognized under federal Fair Housing Law. Owners should read the law and obtain legal guidance to determine compliance.

Entity: Without limitation, any general partnership, limited partnership, limited liability company, corporation, joint venture, trust, business trust, cooperative, association, public agency or other entity, other than a human being.

Gross Square Footage or Floor Area: Space measured from outside walls to include all building footprints and covered spaces.

HOME Program Rents: Generally, projects using RPP loan funds must set rents below the lesser of the rent calculated as affordable for households at fifty (50%) of median income or the Fair Market Rent (FMR). Users should contact the Agency concerning this calculation if they are unfamiliar with HOME Program rules.

Homeless Populations: People who are living in places not meant for habitation (such as streets, cars, parks),

emergency shelters, or in transitional or supportive housing but originally came from places not meant for habitation or emergency shelters.

Housing Quality Standards: Minimum physical standards established by HUD.

Management Agent: Individual(s) or Entity responsible for the day to day operations of the development, which may or may not be related to the Owner(s) or ownership entity.

Material Participation: Involvement in the development and operation of the project on a basis which is regular, continuous and substantial throughout the compliance period as defined in Code Sections 42 and 469(h) and the regulations promulgated thereunder.

Maximum Housing Expense: The maximum rent, utilities and any other required charges paid by the tenant calculated on a monthly basis as permitted under the Code.

Net Square Footage: The outside to outside measurements of all finished areas that are heated and cooled (conditioned). Examples include hallways, community and office buildings, dwelling units, meeting rooms, sitting areas, recreation rooms, game rooms, etc. Breezeways, stairwells, gazebos and picnic shelters are examples of unconditioned outside structures that may not be used as net square footage.

Noncompliance (for purposes of deducting points from an application): An event occurring after June 30, 1993 that results in the issuance of an 8823 for any of the following: 1) Failure to maintain accurate records for each unit, 2) Failure to rent to a Section 8 voucher or certificate holder, 3) Rents for the development are not properly restricted, 4) The development has transient occupancy, 5) Any unit for which low-income housing tax credits were allocated is not available to the general public, 6) There are ineligible tenants found to be occupying qualifying units, 7) Failure of the development to maintain minimum housing quality standards, or 8) Failure to re-certify low-income tenants on an annual basis.

One Bedroom Apartment: A dwelling unit of at least 600 net square feet (assuming new construction), meeting state and local building code requirements, containing at least four separate rooms including a living/dining room, full kitchen, a bedroom and full bathroom.

Owner(s): Person(s) or entity(ies) that own an equity interest in the Ownership Entity.

Ownership Entity: The ownership entity to which tax credits and/or any RPP loan funds will be awarded.

Ownership Entity Agreement: A written, legally binding agreement describing the rights, duties and obligations of owners in the ownership entity.

Paint to Paint Square Footage: Interior heated rental dwelling space (does not include community room space).

Person: Any individual or Entity, and the heirs, executors, administrators, legal representatives, successors and assigns of such Person where the context so requires.

Person with a Disability: An adult who has a permanent physical or mental impairment which substantially limits one or more major life activities as further defined in North Carolina's Persons with Disabilities Protection Act (N.C.G.S. § 168A-3 (7a))

Principal: Principal includes (1) all such persons or entities who directly or indirectly earn a portion of the development fee for development services with respect to a project and/or earn any compensation for development services rendered to such project, which compensation is funded directly or indirectly from the development fee of such project, and such amount earned exceeds the **lesser of twenty-five percent (25%)** of the development fee for such project or **\$100,000**, and (2) all affiliates of such persons or entities in clause (1) who directly or indirectly earn a portion of the development fee for development services with respect to any project in the current year and/or earn any compensation for development services rendered to any project in the current year, which compensation is funded directly or indirectly from the development fee of any such project, and such amount earned exceeds the **lesser of twenty-five percent 25%** of the development fee for such project or **\$100,000**.

Qualified Census Tract: Any census tract which is so designated by HUD.

Qualified Corporation: Any corporation if, at all times such corporation is in existence, 100% of the stock of such corporation is held by a nonprofit organization that meets the requirements under Code Section 42(h)(5).

Rehabilitation: Replacement of one or more major building components in one or more residential buildings. Major building components include roof structures, wall or floor structures, foundation, plumbing system, electrical system, central heating and cooling systems. Hard construction costs must exceed \$10,000 per unit, calculated using lines 2 through 7 in the Project Development Cost Description in Part A of the application and certified at final cost certification.

Rental Production Program (RPP): Agency loan program for multifamily affordable rental housing administered and serviced by the Agency.

Single Room Occupancy (SRO) Unit: A single room dwelling unit with a minimum of 250 net square feet (assuming new construction) that is the primary residence of its occupant(s). The unit must contain either food preparation or sanitary facilities. At least one component of either a full bathroom (shower, water closet, lavatory) and/or a full kitchen (refrigerator, stove top and oven, sink) is missing. A SRO may serve a special population and may also have targeted supportive services on site or at an appropriately convenient location. There are shared common areas in each building which contain elements of food preparation and/or sanitary facilities that are missing in the individual units.

Stabilized Occupancy: Maintenance of at least ninety-three percent (93%) occupancy for six consecutive months.

Studio Apartment: A dwelling unit with a minimum of 375 net square feet (assuming new construction) in which the bedroom, living area and kitchenette are contained in the same room. Each unit has components of a full bathroom (shower/bath, lavatory and water closet) and full kitchen (stove top/oven, sink, refrigerator).

Three Bedroom Apartment: A dwelling unit with a minimum of 1,000 net square feet (assuming new construction), meeting state and local building code requirements containing at least seven separate rooms including a living/dining room, full kitchen, three bedrooms and 1.75 bathrooms, with each unit including a minimum of one bath with a full tub and one bath with an upright shower stall.

Two Bedroom Apartment: A dwelling unit with a minimum of 800 net square feet (assuming new construction), meeting state and local building code requirements containing at least five separate rooms including a living/dining room, full kitchen, two bedrooms and full bathroom.
