1 **Nevada 2016 QAP for Low Income Housing Tax Credits (LIHTC)**

2
3
4 **GENERAL INFORMATION**

5
6 **Background**

7
8 The Nevada Housing Division (NHD) administers the Low Income Housing Tax Credit (LIHTC)
9 program and is required as the state’s housing credit agency, to adopt a Plan describing the
10 process for the allocation of housing credits. Section 42 of the Internal Revenue Code (IRC or the
11 Code) is the federal statute establishing the tax credit program. In accordance with Section 42,
12 each state allocating agency must have a Qualified Allocation Plan (QAP or Plan) which:
13

- 14 • Sets forth selection criteria to be used to determine housing priorities
- 15 • Gives preference among selected projects to:
 - 16 ○ Projects serving the lowest income tenants,
 - 17 ○ Projects obligated to serve qualified tenants for the longest periods,
 - 18 ○ Projects which are located in qualified census tracts (as defined in Subsection 17)
19 and the development of which contributes to a concerted community
20 revitalization plan.
- 21 • Includes the following selection criteria:
 - 22 ○ Project location
 - 23 ○ Housing needs characteristics
 - 24 ○ Project characteristics
 - 25 ○ Applicant characteristics
 - 26 ○ Tenant populations with special housing needs
 - 27 ○ Public housing waiting lists
 - 28 ○ Tenant populations of individuals with children
 - 29 ○ Projects intended for eventual tenant ownership
 - 30 ○ The energy efficiency of projects
 - 31 ○ Projects of a historic nature

32
33 In 1975, the Nevada Legislature determined that there was a shortage of safe, decent, and
34 sanitary housing throughout the State for persons and families of low and moderate income. To
35 address this Statewide deficiency, and to ensure that there would be sufficient safe, decent and
36 sanitary housing for persons and families of low and moderate income, the Legislature enacted
37 Chapter 319 of Nevada Revised Statutes (NRS) Chapter 319, “Assistance to Finance Housing,”
38 establishing and granting powers to the Nevada Housing Division (the “Division”). Thereafter,
39 the Division’s implementing regulations were enacted as Chapter 319, “Assistance to Finance
40 Housing,” of the Nevada Administrative Code (“NAC”).
41
42

1 There are 2 methods of obtaining a Tax Credit allocation under a QAP: 1) through the competitive
2 application process; and 2) tax-exempt bond financing.

3

4 **SECTION 1 ANNUAL PLAN GENERAL INFORMATION**

5

6 Nevada's 2016 QAP is adopted pursuant to § 42 of the Internal Revenue Code (IRC or Code), §
7 1.42 of the Department of Treasury Regulations, the Nevada Administrative Code, specifically
8 NAC 319.951 through 319.999, inclusive, and any other federal and state regulations regarding
9 the § 42 IRC LIHTC program. .

10

11 The 2016 QAP covers the periods of January 1, 2016 to December 31, 2016. All reservations of
12 2016 tax credits made during the plan year are subject to the QAP. The Division will update its
13 web page with information regarding the 2016 QAP. The website address is:
14 <http://housing.nv.gov/>.

15

16 **Objectives of the qualified allocation plan**

- 17 1. Increase the amount of safe and livable affordable rental housing in Nevada
- 18 2. Preserve existing affordable rental housing
- 19 3. Contribute to a vibrant and sustainable economy by supporting and facilitating the
20 construction of affordable workforce housing near employment centers
- 21 4. Increase the availability of housing with supportive services, including for veterans
- 22 5. Support the housing goals and objectives stated in the State of Nevada Consolidated Plan

23

24 **Completeness and Consistency of Tax Credit Applications**

25 Applications must be completed in a form prescribed by the Division. Original applications must
26 be complete and must materially match other applications for funding that relate to the project
27 (e.g., other applications for funding such as HOME), if any.

28

29 Applicants must check all category and geographic boxes which the Applicant elects to compete
30 in.

31

32 For purposes of NAC 319.974(2)(b) as amended by R115-14P the division considers the following
33 circumstances to be grounds for rejection of an application for failure to comply with
34 requirements of the QAP.

35

36 For the purposes of NAC 319.974(2)(b) the Division will consider the following as factors for
37 determining that the project does not comply with requirement for an award of credits under
38 this QAP.

39

40 The Division will not accept an application, document or fee if the application, document or fee
41 is received by the Division after the deadline date specified in the QAP for the receipt thereof. If
42 a fee for an application is paid by check on or before the date the fee is required to be paid and
43 the check is dishonored, the Division will reject the application for which the fee was submitted.

44

1 If the Division requires further additional documentation or clarification of submitted
2 documentation to complete a review of an application, the Division will notify the applicant. The
3 information or documentation requested by the Division in the notice must be submitted within
4 5 days after the date of the notice. Except as otherwise provided in this subsection, if the
5 information or documentation is not received within that period, the Division will reject the
6 application. If the requested documentation relates to preference points, the preference points
7 will not be awarded.

8
9 For the purposes of NAC 319.974(2)(a) the Division will consider an application incomplete if the
10 application is missing information including, without limitation, any budget, back-up, or other
11 application information required. An application for preference points without appropriate back-
12 up documentation for preference point rating factors will be accepted—however, the project will
13 not receive points for those items where information is missing, incomplete or unclear.

14
15 The Division may reject an application if:

16 (a) It is determined to be an incomplete application.

17 (b) Required materials were not submitted pursuant to the application deadline.

18 (c) Information or documentation is missing or incomplete information¹ is provided that
19 prevents underwriting, and/or does not conform to the QAP

20 (d) The applicant--or any person who controls the applicant, including a general partner,
21 shareholder or member who controls or owns an interest in the applicant of 25 percent or more,
22 controlled a person of a previous applicant or project sponsor:

23 (1) Failed to complete a project in accordance with the application approved by the
24 Division;

25 (2) Within the 2 years immediately preceding the year in which the application is
26 submitted, made a material misrepresentation to the Division concerning tax credits; or

27 (3) Has, as determined by the Division, knowingly and materially failed to comply with the
28 Code or a declaration of restrictive covenants and conditions concerning a project.

29
30 In such cases, the Division will deem the application void and the Applicant/Co-Applicants will
31 forfeit all application and other fees paid to the Division. Applicants/Co Applicants are
32 responsible for ensuring that all required items and back-up documentation are included with
33 the application. Therefore, Applicants/Co-Applicants should read the QAP carefully and contact
34 the Division with any questions well before the Application Deadline.

35
36 Applicants/Co Applicants are encouraged to send in applications more than 15 days before the
37 Application Deadline to take advantage of a pre-deadline application completeness check. The
38 purpose of this check is to determine whether all major required application documents are
39 included.

40

1

1 A completeness check is a general review for completeness to confirm that the major documents
2 required in the application appear to be present in the application. It is not a confirmation that
3 the material submitted with the application will be accepted upon further review.
4

5 The Division will retain all rejected applications. Completed applications, supporting documents
6 and any communication with the Division concerning those applications and documents, other
7 than the financial statements of a natural person, are public records and will be made available
8 by the Division for inspection and copying in accordance with the provisions of chapter 239 of
9 NRS.

10 11 **Formatting**

12 One original hard copy and one electronic copy of the application must be submitted. The
13 electronic copy can be submitted on compact disc (CD) and must contain all information included
14 in the hard copy submission. Scanned copies of the application are acceptable—except that a
15 working copy of the Microsoft Excel part of the application is required.
16

17 Application elements must be submitted as separate files of the project with the appropriate
18 labeling as prescribed by the division.
19

20 The original application must be in a two-volume binder with the application and supporting
21 scoring documents in Volume One, marked with appropriate tabs, and the Market Study and any
22 Environmental/Engineering documents in Volume Two.
23

24 **Reporting**

25 The Division requires regular property operating information throughout the initial compliance
26 and extended compliance periods. This includes no less than annual financial, operating,
27 reserve, occupancy and other information. More specifically, this may include copies of balance
28 sheets, income statements, operating and capital reserve statements, rent rolls, and audited
29 financial statements.
30

31 All operators submitting applications herein agree to submit within 30 days of receipt legal
32 documents or after operators submit (electronic) financial and operating records to their
33 investors or partners, copies to the Division of any and all legal notices, including notices of
34 delinquency, foreclosure, loan demands, liens, etc., and the following financial and operating
35 records. Copies of all reports should be emailed to the Division, in native working (when in Excel)
36 or in pdf formats. The Division will provide further information on this matter in its call(s) for
37 information.
38

- 39 • A letter or note stating the final tax credit pricing agreed to by the developer.
- 40 • Copies of monthly or quarterly reports submitted to investors or partners at the time they
41 are submitted to such parties.
- 42 • Copies of annual audited project financial statements are required to be submitted to the
43 Division each year during the initial 15 year compliance period. Copies of non-audited
44 financial statements are acceptable after year 15 if they are the type of documents sent

1 to investors, lenders and partners. Copies of all secured debt loan documents (including
2 original and refinancing), investor, partnership and management agreements and
3 amendments are required to be submitted after they are fully executed and, if recorded,
4 after they are recorded, and if amended, then after they are amended.
5

6 **SECTION 2 APPLICATION SUBMISSION DEADLINE DATE**

7 8 **Deadline for Applications for Tax Credits**

9 Applications for Tax Credits, along with all supporting documentation, in hard copy and
10 electronic copies (CDs, including working versions of the Excel application), must be
11 submitted to THE DIVISION'S Las Vegas or Carson City offices and received by **5:00 P.M.**
12 **(Pacific Time) on Friday, May 6, 2016** (the "Application Deadline"), unless otherwise
13 specified by the Division.
14

15 **Deadline for Applications for Additional Tax Credits**

16 Applications for Additional Tax Credits, along with all supporting documentation, in hard copy
17 and electronic copies (CDs, including working versions of the original and updated Excel
18 applications), must be submitted to THE Division's Las Vegas or Carson City offices and
19 received by **5:00 P.M. (Pacific Time) on Monday, May 30, 2016** (the "Application Deadline"),
20 unless otherwise specified by the Division.
21
22

23 **SECTION 3 TRAINING**

24 25 **A. Training Dates/Reservations for Sessions**

26 Persons desiring training on the 2016 QAP and application should notify the Division in writing
27 by **January 15, 2016**. If a minimum of five persons notify the Division by this date, a formal
28 training in February will be scheduled. Otherwise, requests for technical assistance will be
29 handled on a case-by-case basis. Persons interested in training should contact: Michael Dang,
30 Chief of State and Federal Programs 702-486-7220 x 224 or email mdang@housing.nv.gov and
31 copy Sharath Chandra, SChandra@housing.nv.gov.
32

33 **B. Training Cost**

34 The cost of the above identified training, if scheduled, is **\$75** per person. The registration fee
35 must be prepaid by check payable to the Division and delivered to the Division's Carson City or
36 Las Vegas offices 10 days prior to the training date.
37

38 **SECTION 4 GUIDING PRINCIPLES AND PRIORITIES**

39
40 Demand for housing credits often exceeds supply. In determining how and where to allocate the
41 credit, the Division must consider the need for affordable housing throughout the state of
42 Nevada. The purpose of the QAP is to reserve Federal Tax Credits for the creation and

1 maintenance of rental housing units for low and very low income households in the state in such
2 a way as to further the following principles and priorities:

- 3
- 4 • Reserve credits in order to provide an equitable distribution throughout the state;
- 5 • Reserve credits in order to provide a reasonable mix of affordable housing projects, both
6 in regard to the number of units, populations served (e.g., elderly, special needs, families)
7 and type (e.g., mixed use);
- 8 • Reserve credits to as many rental housing projects as possible, considering cost, size,
9 location, income mix of proposals, and environmental sustainability;
- 10 • Reserve credits in order to provide opportunities to a variety of qualified Applicants, both
11 for-profit and non-profit; and
- 12 • Reserve only the amount of credit that the Division determines to be necessary for the
13 financial feasibility of a project and its viability as a qualified low income housing project
14 throughout the credit period.
- 15

16 **Criteria for Reviewing Applications**

17 Consistent with the Code requirements, the process for evaluating Tax Credit applications
18 includes a comprehensive analysis that gives preference to applications serving the lowest
19 income residents for the longest period of time, together with an analysis of the overall viability
20 of the proposed project. In order to ensure that the diverse housing needs of communities
21 throughout Nevada are considered, the low income targeting and extended use period of
22 proposed projects will be considered along with, at a minimum the following criteria:

23

24 **Market Conditions**

25 The Division will consider the impact of the proposed project on the stability of both tax credit
26 and market rate properties in the primary market area (PMA) of the proposed project, including
27 vacancy rates, rent concessions, or reduced rents. In addition, the Division staff will analyze the
28 assumptions made in the Market Study provided by the Applicant regarding capture and
29 absorption rates and overall demand. Tax Credit applications may be deemed ineligible if: (1) the
30 assessment determines that comparable affordable housing projects have occupancy levels less
31 than 90%; (2) the proposed housing project would have a significant adverse financial effect on
32 other publicly funded projects without offsetting public benefits; or (3) the rents for the
33 affordable housing project are equal to or greater than comparable market-rate housing.

34

35 The Division publishes an annual Apartment Facts report on its website. Potential applicants may
36 consult this publication as part of their research on market conditions. The Division will review
37 submitted third-party market studies as well as its own internal publications in determining the
38 needs of an area and alignment between proposed projects.

39

40 **Project Readiness**

41 The proposed project must be ready to proceed to be constructed, completed and tenant
42 occupied within the timeframes set forth in this Plan and NAC 319.981. The components of
43 “Project Readiness” are outlined further in Section 14.4 Project Readiness. As part of the overall

1 evaluation of the project’s readiness, the Division will provide preference to projects that meet
2 additional readiness-to-proceed criteria outlined in the scoring sections.
3

4 **Overall Financial Feasibility and Viability**

5 The Code states that “the housing credit dollar amount allocated to a project shall not exceed
6 the amount the housing credit agency determines is necessary for the financial feasibility of the
7 project and its viability as a qualified low income housing project through the credit period.” The
8 Division, therefore, will evaluate the overall financial strength of each project and consider such
9 items as debt coverage ratios throughout the 15-year pro forma period, the ability to pay
10 deferred Developer Fees from cash flows, operating reserve amounts, and annual operating
11 expenses. While still acknowledging that there are legitimate circumstances that allow for a
12 waiver of certain underwriting criteria (e.g., lower vacancy rates for 100 percent occupied
13 project-based voucher deals, lower per unit per annum (PUPA) for independent senior deals),
14 projects that exceed the underwriting criteria will be considered to be stronger deals.
15

16 **Experience Developing and Managing Multifamily Rental Properties**

17 The Division will evaluate the experience of the Applicant/Co-Applicants in terms of the quality
18 of the development and management experience, including the compliance and overall financial
19 strength of the Applicant/Co-Applicants’ current low income housing portfolio, the number of
20 successful projects, compliance with any applicable regulatory requirements, and the
21 Applicant/Co-Applicants’ past performance with respect to the efficient operation of high-quality
22 low income housing projects.
23

24 **Total Project Cost per Unit**

25 The Division recognizes the wide range of project costs throughout the state, including
26 differences in land costs, construction costs, permits, etc. Project cost ratio comparisons are not
27 the absolute and exclusive arbiters of the best use of tax credits. Federal law requires carefully
28 rationing the amount of the credits.
29

30 **Proximity to Existing Tax Credit Projects**

31 The Division must monitor the distribution of tax credit projects across the state as well as in
32 particular submarkets. Applicants are required to include in their Market Study a reconciliation
33 or explanation of the impacts and mitigation factors regarding the proximity of the proposed
34 project to nearby existing tax credit projects to ensure viability of the existing nearby projects.
35 The radius within which a detrimental competitive impact may be felt will be a function of the
36 population density in and surrounding a project area. . Recently approved projects should be
37 afforded the opportunity to lease-up without direct competition from another Tax Credit project.
38 The Market Study must address the impact of the proposed project on existing projects that are
39 not achieving pro-forma rents.
40

41 **Site Suitability**

42 Sites will be evaluated on the basis of suitability and overall marketability including, but not
43 limited to, schools, shopping, public transportation, medical services, parks/playgrounds;

- 1 conformance with neighborhood character and land use patterns; site suitability regarding slope,
- 2 noise (e.g., railroad tracks, freeways), environmental hazards, flood plain or wetland issues.
- 3

APPORTIONMENT OF TAX CREDITS

SECTION 5 APPORTIONMENT ACCOUNTS AND INITIAL BALANCES

OVERVIEW OF THE ALLOCATION PROCESS

The Division annually receives a population based allocation of 9% Federal Income Tax Credits from the IRS. The Per Capita Tax Credit (PCTC) for 2016 is estimated to be **\$2.30** subject to adjustment by the Consumer Price Index (CPI). This estimate is based upon the **\$2.30** multiplier published by the IRS in the *Federal Register*.

The division then allocates those tax credits to developers selected on a competitive basis to receive the tax credits.

The Division also is able to allocate 4% Federal Income Tax Credits. The state has had a sufficient amount of 4% tax credits and allocates the 4% tax credits on a non-competitive approach.

The Division creates with the 9% tax credits a beginning Tax Credit Ceiling Authority balance. That balance includes the sum of:

1. The annual 9% tax credit geographically allocated from the IRS,
2. Any tax credits received by the Division from the national pool of unused tax credits
3. Any tax credits returned, recaptured or received by the Division after the date the Division publishes the annual plan.

The allocations described in this QAP are based, initially, upon this total.

Tax credits are then allocated according to the processes described in following sections.

Estimated Tax Credit allocations are shown in Table 1. Applicants/Co Applicants may enquire of the Division for the final tax credit ceiling and category amount levels of apportionment prior to the submission of an application from the Division's website or by contacting the Division. The Division reserves the right to round up or down the actual dollar amount designated to any set-aside or geographical apportionment.

1 **Table 1. NEVADA 2016 CREDIT AUTHORITY AND ALLOCATION PLAN**

2

ESTIMATE BASED ON \$2.30 PER CAPITA MULTIPLIER	STATE POPULATION ESTIMATE ² ALLOCATIONS (%)	ESTIMATED TAX CREDIT LEVELS
ESTIMATED TAX CREDIT STATE CEILING	2,839,099	\$6,529,928
National Pool Unused Credits Received		0
FINAL CREDIT CEILING		\$6,529,928
NON-PROFIT SET-ASIDE (IRC § 42)	10%	\$652,993
USDA-RD SET-ASIDE	10%	\$652,993
(Less Adjustments)		242,971
USDA-RD SET-ASIDE (Net)		410,022
Northern Nevada Expansion Set-aside (Section 8.4)	10%	\$652,993
Additional Tax Credits	2.5%	163,248
Total of All Set Asides		\$1,879,256
Balance to Allocate Geographically	100%	\$4,407,701
TOTAL GEOGRAPHIC APPORTIONMENT	Percent of State Population	
CLARK COUNTY	72.78%	\$3,207,925
WASHOE COUNTY	15.36%	677,023
OTHER COUNTIES	11.86%	\$522,753

3

4

² See NAC 319.972 (Authorized IRS and State Demographer Values will be posted on website when available)
The above amounts are subject to change as final IRS and State figures are received.

1 **SECTION 6. THE TAX CREDIT RESERVATION PROCESS**

2
3 The Division will award tax credits from one or more of three primary accounts: Set-Aside,
4 Geographic, or General Pool account. Awards are made to the applications which receive the
5 highest scores within the set-aside and/or geographic categories they elect to compete in, based
6 on the remaining balance of tax credits available and the conditions in this QAP.

7
8 The Division may make conditional reservations and any such conditions placed on a reservation
9 must be satisfied by the time of the Carryover Allocation or the reservation will be terminated.

10
11 The Allocation and Apportionment Procedures below outline the process the Division will use in
12 allocating Tax Credits.

13
14 **SECTION 7. PROCESS OVERVIEW**

15 1. In each annual round, the Division will add any tax credits carried over by the Division from
16 a previous year and any tax credits awarded to the State from the national pool of unused tax
17 credits to determine the total amount of tax credits available for allocation for the plan year. The
18 Division will, pursuant to the annual plan, make an initial apportionment of the total allocation
19 of tax credits in the following order:

20 (a) An allocation to specified set-aside accounts in this section.

21 (b) An allocation to a geographic account or subaccount specified in this section.

22 (c) An allocation to the general pool account through the waterfall process outlined herein.

23 2. In accordance with the provisions of the Code, the Division will set aside 10 percent of the
24 state ceiling for projects relating to nonprofit organizations as required by the Code. The Division
25 treats those tax credits as minimum tax credits for nonprofit organizations. The Division may set
26 aside additional amounts of tax credits for projects relating to nonprofit organizations and will
27 identify those amounts herein as additional tax credits for nonprofit organizations. The Division
28 will place any tax credits set aside pursuant to this subsection into a set-aside account.

29 3. The Division may establish and utilize set-aside accounts other than those specified in
30 subsection 2 into which the Division will place tax credits after the minimum tax credits for
31 nonprofit projects specified in that subsection have been set aside by the Division.

32 4. After each apportionment has been made to a set-aside account pursuant to subsections 2
33 and 3, the Division will:

34 (a) Place remaining tax credits into a geographic distribution account; and

35 (b) Apportion those credits among geographic subaccounts for counties as provided herein.

1 5. The Division will make reservations of tax credits from the geographic subaccounts specified
2 in subsection 4 based on the location of the project. If, during the first reservation round, the
3 Division does not reserve all of the tax credits placed into the subaccount for:

4 (a) Clark County, then the Division will transfer any surplus tax credits remaining in that
5 subaccount to the subaccount for Washoe County.

6 (b) Washoe County, then the Division will transfer any surplus tax credits remaining in that
7 subaccount to a subaccount for all of the counties other than Clark County and Washoe County.

8 6. If the Division does not apportion remaining tax credits to the accounts or subaccounts
9 described to this point, then the Division will place the remaining tax credits into a general pool
10 account.

11 Except as otherwise provided in this section, if the Division does not reserve remaining tax credits
12 in an account or subaccount after the Division considers all eligible applicants during the first
13 round, the Division will transfer those tax credits to the general pool account and may reserve
14 those tax credits from that account during the first round.

15 Upon completion of the first round, the Division will transfer any unreserved tax credits other
16 than minimum tax credits set aside for nonprofit organizations to the general pool account. The
17 Division will make all subsequent reservations of tax credits from that general pool account in
18 accordance with the procedures and preference points described herein.

19 7. Except as otherwise provided in this subsection, if an applicant is eligible for tax credits that
20 have been set aside, the Division will first consider his or her application for a reservation of tax
21 credits against the set-aside accounts specified in this section. If the applicant does not receive a
22 reservation of tax credits from a set-aside account, the Division will include the application with
23 all other applications and consider the application for a reservation of tax credits against any
24 selected, appropriate geographic account or subaccount. If an applicant does not receive tax
25 credits from a geographic account or subaccount, the Division will consider reserving tax credits
26 for the applicant from the general pool account. Funds in the General Pool will be allocated as
27 described herein.

28 8. If all tax credits are not awarded in a reservation round, the Division may:

29 (a) Carry over the unused tax credits to the next plan year or place any unused tax credits,
30 other than minimum tax credits set aside for nonprofit organizations, into the general pool
31 account; and

32 (b) Allocate in accordance with Section 10.C.

33 9. If all tax credits are not reserved during a reservation round and the Division initiates
34 subsequent rounds, the Division will notify each applicant who did not receive tax credits during
35 the previous round and allow him or her to resubmit an application. If an application was rejected

1 in a previous round or must be changed upon resubmission, the application must be
2 accompanied by a resubmission fee equal to 75% of the initial application submission fee. If time
3 allows, the Division may accept new applications for a subsequent round. If any tax credits are
4 subject to forfeiture or any other loss if not reserved during the plan year, the Division may
5 reduce the period for submission of applications and the period for analysis and review of the
6 applications to ensure that those tax credits are awarded not later than the end of the plan year.

7 **A. The Five-Percent Rule**

8 Except as otherwise provided, to maximize any reservations against an account or subaccount
9 specified in this section, the Division may implement the following. The Division may make
10 reservations of tax credits until the remaining available balance of tax credits for the next
11 application is insufficient to cover the amount requested in the category for which tax credits are
12 being allocated.

13 If the amount requested by the Applicant is reduced by 5% and the available balance equals or
14 exceeds that amount, then the Applicant may elect to receive that amount if the Applicant
15 confirms in writing to the satisfaction of the Division that its project will still be viable and
16 financially feasible with the 5% less tax credits than were originally requested.

17 If the Applicant does not prove to the satisfaction of the Division that its project will still be viable
18 and feasible if allocated 5% less tax credits than were originally requested or the Applicant
19 otherwise declines to receive the allocation of the lesser amount, then the Division may skip that
20 application and allocate the remaining balance according to the allocation processes defined
21 herein.

22 **B. Ten Percent Test for Carryover Allocations**

23
24 Pursuant to the year-end tax bill of 2000 and the Housing and Economic Recovery Act of 2008
25 (HERA), the 10% test for the Carryover Allocations will be extended for twelve months from the
26 date of the Carryover Allocation. All information which must be submitted in order to receive a
27 Carryover Allocation must be sent to the Division's Carson City or Las Vegas office and received
28 by 5:00 P.M., Friday, September 25, 2016. The Division will issue Carryover Allocations on or
29 about November 7, 2016. The Applicant/Co-Applicants must supply the Division with a Federal
30 Tax Identification Number to receive a Carryover Allocation.

31
32 The Project Sponsor must meet the 10% test by **November 7, 2016**. Project Sponsors must
33 submit a quarterly project status report of the project, during the construction phase, until a
34 certificate of occupancy is issued by the building department.

35
36 **C. The 270 Day rule**

37
38 Pursuant to NAC 319.981, each project must close within 270 days after the date the Division
39 provides the Applicant notice of the reservation of Tax Credits.

1
2 Applicant/Co-Applicants must sign the Division's Agreement to Commence Construction within
3 270 days from the date of the reservation letter.

4
5 Pursuant to NAC 319.989(11) Applicants/Co-Applicants must commence construction within 270
6 days from the date of the reservation letter and otherwise comply with this QAP section.

7
8 All Applicants/Co-Applicants must also execute an agreement to promote the Division's
9 participation in the project during the construction phase (see Exhibit 4 of the Division's
10 Application for Tax Credits).

11
12 To demonstrate to the Division that the project has closed pursuant to NAC 319.971, the
13 Applicant/Co-Applicants must demonstrate to the Division that the Applicant/Co-Applicant has:

- 14
15 1) Purchased and holds title in fee simple to the project site in the Applicant/Co-
16 Applicants' name, or submitted to the Division with the application a written, legally
17 enforceable long-term ground lease with a term of at least 50 years.
- 18
19 2) Entered into a written agreement with a contractor who is licensed in this State to
20 begin construction before the expiration of the period.
- 21
22 3) Obtained adequate financing for the construction of the project. The Applicant/Co-
23 Applicants must provide written commitments or contracts from third parties.
- 24
25 4) Executed a written commitment for a loan for permanent financing for the
26 construction of the project in an amount that ensures the financial feasibility of the
27 project. The commitment may be subject to the condition that the construction is
28 completed and the project is appraised for an amount sufficient to justify the loan in
29 accordance with the requirements of the lender for credit. If the project is a rural
30 development project that receives loans or grants from the United States Department of
31 Agriculture, the Applicant/Co-Applicants must provide a form approved by the Division
32 that indicates that money has been obligated for the construction of the project before
33 the expiration of the period. An advance of that money is not required before the
34 expiration of the period.

35
36 A project that is not closed within the 270-day period, including having failed to commence
37 construction, will lose its reservation of tax credits unless the Division approves from the
38 Applicant/Co-Applicants a written request for an extension of 45 days.

39
40 The request must be submitted on the Extension Request Form prescribed by the Division and
41 accompanied by proof satisfactory to the Division indicating that:

- 42
43 1) The requirements for financing the project have been substantially completed;

44

1 2) The delay in closing was the result of circumstances that could not have been
2 anticipated by and were outside the control of the Applicant/Co-Applicants at the time
3 the application was submitted by the Applicant/Co-Applicants; and
4

5 3) The project will be closed within the 45-day period.
6

7 The Division will require that a fee be submitted with the request for an extension of the 270-day
8 period as specified in Section 21 Fees.
9

10 Projects that have not closed within 270 days from the date of the reservation letter, or which
11 have been granted a 45-day extension and have not closed within the 45-day extension period,
12 will have their reservation of Tax Credits terminated.
13

14 **D. Declaration of Restricted Covenants (DRC)** 15

16 The DRC for all projects which receive a reservation must be recorded: (i) when the project
17 receives a Carryover Allocation; or (ii) before the commencement of construction, whichever
18 occurs first. All Applicants/Co-Applicants and Project Sponsors agree to cooperate with the
19 Division to timely record the DRC.
20

21 **SECTION 8. SET-ASIDE ACCOUNT ALLOCATIONS** 22

23 **SET-ASIDE ALLOCATIONS**

24 This category includes sub categories for projects which must (§ 42) or may be funded before
25 the geographic or general pool allocations.
26

27 Applications submitted under set-asides which do not receive funding from the set-aside
28 category(ies) selected in the application may be eligible to, and may, compete for an allocation
29 of Tax Credits in the geographic category—as long as the application indicated it was submitted
30 to also compete in the geographic category.
31

32 **1. § 42 NONPROFIT SET-ASIDE** (IRS category, § 42(h)(5)(A)) The Division will set-aside 10% of
33 the state ceiling with a preference for one or more projects applied for by Non-Profit Applicant
34 organizations.
35

36 Credits from the Non-Profit set-aside will be allocated to the highest scoring non-profit projects
37 in accordance with the process described in this section and shown in part in Section 5,
38 Apportionment Accounts and Initial Balances. Tax Credits from the Non-Profit set-aside will be
39 allocated until the amount of Tax Credits in the set-aside is fully allocated.
40

41 A reservation or allocation of Tax Credits from this set-aside will be limited to non-profit
42 organizations acting alone or in partnership with a for-profit Co-Applicant. The goal and mission

1 of the Applicant/Co-Applicant non-profit organization must be developing and providing
2 affordable housing.

3
4 The non-profit Applicant/Co-Applicant must have successfully developed and operated
5 affordable housing which offers restricted/subsidized rents to income eligible tenants, utilizing
6 HUD/LIHTC/PHA and/or other public funding sources. The non-profit organization Applicant/Co-
7 Applicant must have actively participated in the development and operation of the affordable
8 housing projects either as the manager or general partner of the Project Sponsor, the contractor,
9 or Project Sponsor. Applicant, if awarded tax credits under this set-aside, will be required to
10 continually provide documentation of “material participation”...i.e., regular, continuous, and
11 substantial involvement with the project. (IRS Form 8823, Specific Instructions, Item 11q; see,
12 also, IRC §469(h)).

13
14 The non-profit Applicant/Co-Applicant must have received and provide a copy of a determination
15 letter from the IRS indicating that the organization is qualified pursuant to IRC Section 501(c)(3)
16 or 501(c)(4) before submitting an application and the application package must contain an
17 executed Certification of Material Participation by the Qualified Non-Profit Organization, Exhibit
18 Seven of the Division’s Application for Tax Credit (that is posted on the Division website).

19
20 The Applicant/Co-Applicants must also certify that no change has occurred in the organization
21 since the issuance of the IRS determination letter that would affect the validity of the
22 determination letter. If the Applicant/Co-Applicants receive a Carryover Allocation of Tax Credits
23 from the non-profit set-aside pursuant to the Nevada 2016 Credit Authority and Allocation Plan,
24 any new Project Sponsor during the compliance period must establish that the new Project
25 Sponsor meets all of the requirements to qualify for a Carryover Allocation of Tax Credits or the
26 Final Allocation of Tax Credits from the non-profit set-aside under the provision of this QAP.

27
28 If additional Tax Credits are needed to fund the proposal, the additional Tax Credits will be
29 distributed from the appropriate geographic apportionment account explicitly selected and
30 where the project would be located.

31
32 Unreserved amounts from the Non-profit set-aside, if any, may be applied to the next highest
33 scoring nonprofit project application. If there are no other nonprofit applications, then the
34 remaining balance may be carried over into subsequent rounds as a minimum Tax Credit to be
35 set-aside exclusively for Non-profit corporations pursuant to regulation.

36 37 **2. USDA-RD SET-ASIDE**

38 The Division will set-aside 10% of the state ceiling with a preference for one or more United
39 States Department of Agriculture Rural Development (USDA-RD) projects and consider their
40 recommendations.

41
42 Allocation of Tax Credits to the project(s) with the highest score in the USDA-RD set-aside account
43 will be made first, and subject to the Five Percent Rule. Tax Credits will be allocated until the

1 amount of Tax Credits in the set-aside is fully allocated or the amount remaining in the set-aside
2 is too small to fund the next highest scoring project.

3
4 Unreserved amounts from the USDA-RD set-aside if any will be placed for distribution into the
5 General Pool Account.

6
7 Tax Credit applications will be processed with the normal Tax Credit reservation cycle. If no Tax
8 Credit applications are received requesting the USDA-RD set-aside, or if there is a remaining
9 balance in this account, the Division will transfer the remaining balance from the USDA-RD set-
10 aside account to the General Pool account.

11
12 If the USDA-RD is unable to issue a certification stating the availability of federal funding by the
13 date the Division receives notice that National Pool Tax Credits are available, said reservations
14 will be cancelled and the USDA-RD set-aside will be credited to the General Pool account for
15 distribution.

16
17 At the time of application, the Applicant/Co-Applicants must have supplied the local USDA-RD
18 office with a letter authorizing that office to release to the Division a copy of the Applicant/Co-
19 Applicants' application for USDA-RD funding. A copy of the letter must be submitted with the
20 Tax Credit application. Applicant must also include in the Tax Credit application a letter or other
21 written indication (emails are acceptable) from the local USDA-RD confirming receipt and
22 authorization to proceed.

23
24 A reservation or allocation of Tax Credits from the USDA-RD set-aside will be limited to new
25 construction projects, and/or projects with confirmed USDA-RD financing (including loan
26 guarantees) and/or local USDA-RD authorization to secure such financing, and/or projects that
27 have reached the 15 year threshold, and/or existing housing projects not yet in the Division's Tax
28 Credit housing portfolio receiving direct funding from USDA. Direct funding includes loan
29 guarantees, loan assumptions or other similar support as long as approved by USDA.

30
31 Acquisition/Rehabilitation projects must be in accordance with USDA-RD regulations and must
32 substantially rehabilitate or change the project to accommodate the housing needs in the
33 jurisdiction in which the project is located. Acquisition/Rehabilitation projects will require a
34 letter from USDA explaining why the rehabilitation is warranted and indicating that the scope of
35 the capital needs assessment is acceptable, and that the rehabilitation meets USDA-RD's
36 definition for substantial rehabilitation. The letter must accompany an application to constitute
37 a complete application; therefore, applicants are encouraged to submit their application and
38 capital needs assessment to USDA-RD for review prior to Tax Credit application submission. The
39 project must also meet the Division's definition for substantial rehabilitation that for this
40 particular set-aside is an investment of at least \$10,000 per unit prior to funds invested to meet
41 the Division's energy requirements.

42
43

1 **3. ADDITIONAL TAX CREDITS**

2 The Division will set-aside 2.5% of the state ceiling with a preference for one or more projects
3 applied for by organizations which have had reasonably unforeseeable increased construction
4 costs or decreases in credit pricing that result in a financing gap, after the prior year application,
5 and subject to the conditions of this section.
6

7 Allocations to requests for Additional Tax Credits will be made pursuant to Administrator
8 discretion and, where exercised, in accordance with the terms described herein.
9

10 Any remaining, unreserved amounts from the Additional Credits Set-Aside will be placed for
11 distribution into the General Pool Account.
12

13 These Credits will initially be distributed on a pro-rata basis based upon the proportion of the
14 population in each geographic area (e.g., 72% of this set-aside will initially be designated for Clark
15 County, et. seq.).
16

17 Projects may be awarded not more than 10% of the underlying project's prior year (if applicable)
18 award. Although applicants may be eligible for up to a 10% award, the actual award may be less
19 than 10%. Applicants must certify, prior to an allocation, that, if granted, the amount of
20 Additional credits proposed by the Division will be sufficient.
21

22 Applicant/Co-Applicants submitting applications for additional credits must submit a modified
23 application consisting of a cover letter requesting the additional credits. This letter or the
24 supporting documentation must include an explanation and support that the need for additional
25 credits was not reasonably foreseeable at the time the prior year application was submitted.
26

27 Applicants must include working copies of the original prior year Excel application and a copy of
28 an updated Excel application including the updated budgets, sources and uses, cash flow, any
29 changes to eligible basis, etc. The application must show variances and explanations of variances,
30 where applicable, of changes in quantities, per unit costs, total estimates, tax credit pricing, etc.
31

32 Supporting documentation must include copies of the letter(s) from funding sources for the prior
33 year application showing their commitment to fund at the prior year application level as well as
34 any updated funding commitment letters.
35

36 Applicants must explain where Value Engineering changes have been made and break out the
37 changes in terms of quantities, costs, materials changes, specification levels, etc.
38

39 As allocations for Additional Tax Credits may be determined on a competitive basis, applicants
40 should clearly indicate any project changes which may warrant additional points.
41

42 Applications for Additional tax credits will only be considered if the Applicant has satisfied all of
43 the 270 day requirements which may include an additional 45 day extension.
44

1 Requests for additional Tax Credits are subject to the limitations specified below:

2
3 1) Additional Tax Credits exclude Developer Fees. Contractor Fee cannot go above the
4 actual percentage in the initial application.

5
6 2) The request for additional Tax Credits is limited to 10% of the original award.

7
8 3) Requests for additional Tax Credits within the 10% limit and not totally funded through
9 the set-aside may be considered at the end of the initial competitive round at the discretion
10 of the Administrator.

11
12 4) Applicants must show evidence that they have fully complied with the 270 day rule including
13 having commenced construction.

14 15 **4. NORTHERN NEVADA HOUSING EXPANSION SET-ASIDE**

16 Due to the planned Northern Nevada economic expansion impacting Washoe, Storey and
17 Douglas Counties, the need for affordable housing will be critical. It is the division's intention to
18 be proactive and to begin to meet the need. A proposed 10% set-aside of the gross total tax
19 credit ceiling will be created for the new construction of family housing, with a mix of 1, 2 and 3
20 bedroom units. The target will be 60 new units. The allocation for this set-aside will be
21 processed in a separate round.

22 **SECTION 9. GEOGRAPHIC ACCOUNT ALLOCATIONS**

23
24 After reservations are made to projects applying for Set-Aside or Additional Funding, pursuant to
25 the rules regarding those categories and their available balances, the Division will, according to
26 relative populations, proportionately allocate Tax Credits to projects in each of the three
27 geographic sub-accounts: Clark County, Washoe County, and Other Nevada Counties.

28
29 The allocations will be based upon Nevada's most recent official population estimates issued by
30 the State Demographer. The population estimates for Clark County, Washoe County, and Other
31 Nevada Counties will be used to establish apportionment percentages for the geographic sub-
32 accounts.

33
34 Geographic allocations will be made based on the high score within each set-aside where there
35 are sufficient available tax credits for the specific account.

36
37 The Division will proportionally make Tax Credit reservations to geographic sub-accounts and,
38 with regards to any remaining tax credits for these accounts, in the following order and subject
39 to the Five Percent Rule:

40
41 (1) Clark County. The Division will award Tax Credits to the highest scoring application until the
42 amount of Tax Credits in the Clark County Geographic Subaccount is fully allocated or the

1 amount remaining in the subaccount is too small to fund the next highest scoring project.
2 Unreserved amounts from the Clark County Geographic Subaccount, if any, will be placed for
3 distribution into the Washoe County Geographic Subaccount.

4 (2) Washoe County. The Division will award Tax Credits to the highest scoring application until
5 the amount of Tax Credits in the Washoe County Geographic Subaccount is fully allocated or
6 the amount remaining in the subaccount is too small to fund the next highest scoring project.
7 Unreserved amounts from the Washoe County Geographic Subaccount, if any, will be placed
8 for distribution into the Other Nevada Counties Geographic Subaccount.

9 (3) Other Nevada Counties. The Division will award Tax Credits to the highest scoring application
10 until the amount of Tax Credits in the Other Nevada Counties Geographic Subaccount is fully
11 allocated or the amount remaining in the subaccount is too small to fund the next highest
12 scoring project.

13
14 (4) Remaining unreserved amounts, if any, from the Other Nevada Counties Geographic
15 Subaccount will be placed for distribution into the General Pool Account.
16

17 **SECTION 10 GENERAL POOL ALLOCATIONS**

18
19 Allocations which have been placed in the General Pool shall be distributed according to the
20 following manner. At the discretion of the Administrator, Tax Credits in the General Pool may be
21 allocated to fund:

22
23 (1) the next highest ranked project in the first funding round submitted in any of the geographic
24 sub accounts, if that project can be implemented with the remaining amount of Tax Credits as
25 represented in the application;

26
27 (2) new projects as part of a second funding round or

28
29 (3) projects requesting additional Tax Credits.
30

31 A partial commitment to a project with a corresponding forward commitment for the balance of
32 credits may be made at the discretion of the Division Administrator.

ELIGIBLE PROJECTS

SECTION 11 ELIGIBLE PROJECT CATEGORIES

This Section sets forth the eligible project categories for the awarding of tax credits for the 2016 QAP. Each applicant must select one project category for consideration by the Division for the 2016 QAP. A project may consist of scattered-site or single-site housing.

A. Projects for Individuals.

This category is based on the housing needs for predominately single individuals who are not 55 years of age and over (Senior Housing Age 55 and older category provided). Allowable unit sizes in the project are primarily studios and one bedroom units to accommodate these individuals. No more than 10% of the total units in the project can be 2 bedroom. Unit size/limitations and points are explained in the point section.

B. Projects for Individuals with Children and Families with Children

This category is based on the housing needs for predominately individuals with children and families with children. To be considered for this category, units must be made available to individuals with children and families with children. Under this project category, a maximum of 10% of the total units can be studios.

C. Senior Housing Age 55 and Older

This category is based on the housing needs for predominately individuals who are 55 years of age or older. To be considered for the category, all of the units in the project must be made available for seniors. The unit must be intended and operated for occupancy by persons 55 years of age or older, and at least 80% of the occupied units are occupied by at least one person who is 55 years of age or older. The housing facility or community must publish and adhere to policies and procedures that demonstrate they will meet this requirement.

D. USDA-RD Projects

This category is treated in the Set-aside section.³

E. Special Needs

This category is based on the housing needs for predominately individuals with Special Needs, as described below. To be considered for this category, at least 20% of the units must serve one or more of the special needs population identified below. The Special Needs populations identified below are not intended to be “all inclusive” and the Division reserves the right to award preference points to other Special Needs populations upon request of the Applicant/Co-Applicants and approval by the Division. Requests for approval to serve a Special Needs category not shown below must be received in writing well in advance of

³ Beginning with the 2016 QAP, the Division will consider the project priorities of the USDA-RD. Their priorities are currently favoring acquisition/rehab’ projects over new construction projects.

1 submitting an application. The request must include documentation supporting the
2 proposed category as being a federal or state recognized Special Needs category.

- 3
- 4 1) Persons with physical disabilities;
- 5
- 6 2) Persons with developmental disabilities;
- 7
- 8 3) Persons with mental illness as defined by the National Institute of Mental Health;
- 9
- 10 4) Permanent supportive housing for persons and families who are homeless;
- 11
- 12 5) Victims of domestic violence;
- 13
- 14 6) Persons with HIV/AIDS (as diagnosed by a board certified physician in Nevada);
- 15
- 16 7) Transitional housing for persons released from incarceration, including persons
17 paroled or on probation;
- 18
- 19 8) Transitional housing as defined in IRC Section 42 (i) (3) (B) (iii);
- 20
- 21 9) Persons with drug, substance and/or alcohol abuse behavior. The individual must be
22 in a state of recovery or is currently receiving treatment and/or counseling for the abusive
23 behavior; and
- 24
- 25 10) Persons with Alzheimer's disease or Dementia.

26

27 Applicants must submit documentation showing that they will be responsible for ensuring that
28 Services and care will be provided to the project's Special Needs populations for the initial 15-
29 year IRS mandated period of affordability. The provision of care during the extended compliance
30 period will be assessed by the Division to determine if the project can continue as both an
31 affordable housing facility and a provider of care. If the provision of care is not feasible, the
32 Division has the authority to amend the extended use agreement.

33

34 Care services for Special Needs populations must be optional to tenants residing in restricted
35 units. Any cost associated with care services must be separated from the rent. *Fees may not be*
36 *charged for any item that is part of the eligible basis.*

37

38 The Applicant/Co-Applicants must provide a description of the care services provided and/or
39 available to low income tenants and the estimated costs of those services. The Applicant/Co-
40 Applicants must provide a list of the services provided at the facility, the cost of each service, and
41 a description of how the cost for the services will be funded, especially for tenants that may not
42 have the means to pay for the level of care. The subsidization of the services to low income
43 tenants may be accomplished through a mixed income project in which residual income derived
44 from the market-rate units to subsidize the services received by the low income tenants.

1
2 For project serving Frail Elderly and Alzheimer populations:
3

- 4 • Only 20/50 and 40/60 mixed income projects are eligible for Tax Credits.
- 5 • Care services must be conducted on a 24-hour basis.
- 6 • The Division will require an IRS Private Letter Ruling or comparable legal opinion
7 indicating that the project meets General Use requirements.
8

9 Frail Elderly and Alzheimer projects are not eligible to receive scoring points for extended
10 compliance periods.
11

12 F. Mixed Income Residential Projects This category is based on the housing needs for both low
13 income residents as well as moderate income residents. Under this category, to be considered a
14 Mixed Income Project, a minimum of **20%** of the units in the project must be unrestricted,
15 market-rate dwelling units. Once established, the qualified basis (applicable fraction) for the
16 project must be maintained for at least the 30-year compliance period. The applicable fraction
17 will be the lesser of the percentage of Tax Credit units to the total units in the project, or the
18 percentage of restricted square footage in the project to the total square footage in the project,
19 excluding common areas.
20

21 Units are considered “unrestricted, market rate dwelling units” for the purposes of this QAP if
22 they are not considered in the qualified basis (applicable fraction).
23

24 G. Mixed Use (or Multi Use)

25 This category is based on the housing needs for those who would elect to live in a setting where,
26 typically within walking distance, are other convenient desired land uses. Under this category,
27 to be considered a Mixed Use Project the following criteria must be met:
28

29 1. Commercial, office or retail space must be a minimum of 1,200 square feet. Project may be
30 part of a mixed-use (physically integrated buildings) or multi-use project (adjacent uses⁴) which
31 include the commercial or retail space described herein—only if this specific project parcel is part
32 of a master planned development and the project parcel has a Declaration of Restrictive
33 Covenants or Land Use Regulatory Agreement with respect to these specific land uses.
34

35 2. Commercial retail or office space may be leased to a third party. For example, the office space
36 to meet this requirement may not be used by the applicant instead of normal internal office
37 space.
38

39 3. The local government must provide documentation that the site is properly zoned for
40 commercial or retail or office space. The commercial or office space components and the housing
41 component must be parceled out. Each component must have a separate legal description prior
42 to receiving a Carryover Allocation of Tax Credits.

⁴ Adjacent used here as lying near or close to; possibly, but not necessarily abutting.

1
2 4. The eligible basis for the Tax Credit project must not include any costs for the commercial retail
3 or office space. The Applicant/Co-Applicants must document the source of funding for
4 commercial or office space components in the sources and uses section of the application. The
5 commercial retail or office space components must be underwritten separately with a minimum
6 debt ratio of 1:20.

7
8 5. The Market Study must include an assessment of the economic viability of the commercial
9 retail or office space site based on comparable leasing costs per square foot, projected
10 income/operating expenses, vacancy, local competition, etc.

11
12 6. Commercial retail or office space establishments must be conducive to family housing.
13 Commercial retail or office space establishments may *not* include adult-only establishments,
14 nightclubs, massage parlors, liquor stores, or other similar establishments.

15
16 7. *The issuance of 8609's (LIHC Allocation & Certification) will be dependent upon a valid start of*
17 *construction to the commercial section of the project.*

18
19 H. Housing for Eventual Tenant Ownership (Rent to Own)

20 This category is designed to serve low income residents which may be interested in eventually
21 owning a home which they first rent. To be considered for this category, all of the restricted
22 rental units in the project must be made available for eventual ownership. Residential units must
23 be single-family structures, consisting of 1:4 units, and/or townhomes. Each unit must have
24 separate legal descriptions to allow for ownership to transfer to the eventual purchaser. All units
25 must be located within a 2.5 mile radius, and the Applicant/Co-Applicants must designate the
26 center from which the radius will be measured.

27
28 The Applicant/Co-Applicants must make the units in the project available for purchase by the
29 existing tenants upon the termination of the 15-year compliance period. Existing tenants must
30 have a first right of refusal to purchase the unit. Thereafter, units may be made available for
31 purchase to other qualified low-income families and/or individuals that satisfy the project's
32 requirements.

33
34 The purchase price of the units must take into consideration the rent paid by the tenants. The
35 mortgage must be a 15-year or 30-year fixed rate mortgage with rates and terms consistent with
36 those offered and available in the local housing market.

37
38 *The project must fully comply with the tenant income and rent requirements for the LIHTC*
39 *program during the initial 15-year period of affordability.* The project will be exempt from any
40 additional affordability requirements when all of the single-family structures in the project are
41 sold to eligible families. The 15-year affordability period will be extended on all of the remaining,
42 unsold units until the last single-family home in the project is purchased. The project is not
43 eligible for any extended compliance points. Homes not sold must remain affordable rental units

1 pursuant to the terms and conditions of the original application and the Declaration of
2 Covenants.

3
4 Key Requirements for Tenant Ownership Projects

5
6 1) Tenant Income: The Applicant/Co-Applicants must set eligible tenant incomes pursuant to
7 LIHTC program requirements during the initial 15-year period of affordability. Tenant incomes
8 must conform to HUD income guidelines and Applicant/Co-Applicants must complete all of the
9 required income verifications and certifications. Project compliance requirements are contained
10 in the Division's *Low Income Housing Tax Credit Compliance Policies and Procedures Manual*.

11
12 2) Rent Restrictions/Lease Agreements: Tenant lease agreements must conform to LIHTC
13 program requirements during the initial 15-year period of affordability. The tenant portion of
14 the rent plus utility allowance and any other mandatory fees must not exceed the maximum gross
15 rent allowed by the Code. Project compliance requirements are contained in the Division's *Low*
16 *Income Housing Tax Credit Compliance Policies and Procedures Manual*.

17
18 3) Management Plan: The Applicant/Co-Applicants must submit a plan for the ongoing
19 management, maintenance and repair of the project as a rental property for the initial 15-year
20 credit period. The plan should include information on the location of the leasing office, costs
21 associated with property leasing and administration, and maintenance schedules and costs for
22 general repairs, maintenance, and replacement of mechanical items.

23
24 4) Escrow Account: The Applicant/Co-Applicants must provide a written description as to how
25 the de minimis tenant escrow accounts will be set up. A portion of the tenant's rent must be set
26 aside and accumulated to contribute as a down payment towards the purchase of the unit (de
27 minimis payment). Tenants who terminate residency at the project must have this money
28 returned to them plus nominal interest accrued. The Applicant/Co-Applicants is required to set
29 up individual bank accounts (de minimis accounts) for each tenant family residing in the property.

30
31 5) Right of First Refusal: The Applicant/Co-Applicants must provide a copy of the Right of First
32 Refusal Agreement to the Division for approval. The Agreement must:

33 a. Guarantee the tenant the right to purchase the property if the tenant agrees to the terms and
34 conditions of the original lease;

35
36 b. Specify a "not to exceed" offering price to the tenant; and

37
38 c. Provide a clause that then tenants cannot be displaced from the property without just cause.

39
40 **Section 11.1** Modifications of Existing Projects (Not a Project Category)

41 This category is designed to facilitate the rehabilitation of certain properties. If the proposed
42 project is a multi-family project acquisition/rehabilitation, a multi-family project rehabilitation
43 or change of use to multi-family project, the application must include:

- 1 1) Capital Needs Assessment (CNA). A CNA is required for all acquisition/rehabilitation or
2 conversion projects whether or not the project will maintain its affordability for 30 years or more.
3 The CNA *must* be prepared by a competent, industry acknowledged, third-party. The CNA must
4 list planned expenses by component category. Each item should be clearly identified in the
5 format for itemizing planned expenses as outlined in Planned Expenses by Component. The
6 Division reserves the right to have its 3rd party estimator review the CNA and offer input into the
7 scope of work. In a scattered-site property, the CNA must reflect costs associated with the
8 rehabilitation of each unit by unit contained in the project.
9
- 10 2) Scope of Rehabilitation. Rehabilitation developments *must* demonstrate that the
11 rehabilitation is substantial and involves at least an average of \$30,000 per unit in direct costs
12 (actual construction costs) for 9% projects and \$15,000 per unit for 4% projects prior to
13 incorporating the mandatory energy requirements of this QAP. If the CNA reflects a per unit
14 investment of less than the required per unit cost, the project will not be considered for Tax
15 Credits. A separate scope of work, along with estimated cost, must be submitted for energy
16 efficiency improvements based upon the energy efficiency audit conducted by the Division or its
17 designee.
18
- 19 3) Service Date. All buildings *must* be put into service within two years from the date of the
20 Carryover Allocation of the Tax Credits, or the Tax Credits will be terminated and returned to the
21 Division.
22
- 23 4) Tenant Displacement and Relocation. To minimize displacement of existing tenants, the
24 Applicant/Co-Applicants may choose to income-qualify all tenants immediately upon acquisition
25 of the buildings in the project.
26
- 27 5) Prior Ownership. Applicants or Co-Applicants must provide a detailed ownership history of
28 buyer and seller. The Applicant's or Co-Applicant's prior ownership interest in the property
29 cannot exceed 50%⁵. No sale will be allowed from one partnership to another partnership if the
30 entity selling the property is also one of the limited/general partners purchasing the property,
31 and the entity selling the property has more than a 50% interest in the purchased property except
32 as allowed in HERA.
33
- 34 6) Lead Based Paint. Under the Uniform Physical Conditions Standards, housing projects must
35 comply with Lead Safe Housing Rules⁶. These requirements apply to *buildings and units built*
36 *before 1978*. Paint with at least one milligram of lead per square centimeter of paint, or with a
37 half percent of lead by weight, is considered lead-based paint and subject to the federal
38 regulations. Typical lead based paint hazards include deteriorated paint and dust or bare soil
39 with lead above specified levels.

⁵ Public Law 110-289 adopted July 30, 2008 also known as the Housing and Economic Recovery Act of 2008 (HERA) Sec. 3003 (e) provided for a simplification of the related party rule and allowed a prior owner (or owners) to own up to 50% of the ownership interest in the property. A project will not receive points for those items where information is missing, incomplete, or unclear.

⁶ 24 C.F.R. part 35

1
2 If you have an Acquisition/ Rehabilitation of a senior project, please see the exception in Section
3 14.13.A.

4
5 I. All Categories – Multiple Projects Same Parcel

6 All proposed projects involving multiple projects on the same parcel must, in addition to meeting
7 the project type requirements for their project, adhere to the following:

8
9 Applicants/Co-Applicants must request Division approval in the form of a legal opinion by Division
10 Counsel stating that they are separate projects, that there is an adequate agreement for shared
11 amenities and/or easements, and the jurisdiction has approved them as separate projects on the
12 same parcel **no less than 30 business days before the submittal of the Tax Credit application.**

13
14 The application must include a zoning letter from the local jurisdiction that states without
15 exception the parcel is zoned for the proposed project, can accommodate both projects without
16 splitting the parcel and requires no further actions.

17
18 Phased projects must adhere to the requirements of this section with the following exception:

- 19
20 • Multiple projects on the same parcel owned by the same owner/applicant are considered
21 one project and must submit a completely executed copy of the governing document of the
22 entity, i.e. the partnership agreement, operating agreement or bylaws, as amended, verifying
23 ownership of the entire project by the owner/applicant and confirming the project will not
24 be split upon sale. If this documentation is not received within 90 days of reservation of tax
25 credits, then the reservation may be terminated. If the partnership agreement, operating
26 agreement or bylaws verifies the ownership of the entire project by the entity and confirming
27 that all projects will be sold together in any future sale, then an agreement for shared
28 amenities/easements may not, at the Division’s discretion, be needed.

29
30 **SECTION 12 MANDATORY PROJECT REQUIREMENTS**

31
32 All proposed projects must meet the following mandatory requirements:

33
34 **I. ENERGY CONSERVATION REQUIREMENTS⁷**

35 Applicant/Co-Applicants and Project Sponsors must comply with the Minimum Energy Efficiency
36 Requirements specified in this section as a condition of receiving the Carryover Allocation or Final
37 Allocation of Tax Credits.

38
39 By submitting the application, Applicant/Co-Applicants agrees to comply with all of the Division’s
40 Energy Efficiency Requirements. Failure to do so will result in a revocation of the Carryover
41 Allocation or Final Tax Credit allocation, as applicable.

42

⁷ The Division may review these requirements more deeply for the 2016 QAP.

1 Sections A-F: New Construction
 2 Section G: Acquisition/Rehabilitation

3

4 **A. General Building Performance**

5

6 1) Energy performance quality assurance measures and other requirements equal to or greater
 7 than the EPA Energy Star Home Program Version 2.5. Verified by an analysis of the building plans
 8 pre-construction using the REM/Rate or equivalent software and verified by inspections and
 9 testing post-construction using sampling protocol.

10

11 2) Using all applicable prescriptive measures listed for mechanical system and building envelope
 12 efficiencies should result in the structure meeting the energy efficiency requirements. When the
 13 detailed analysis of the building and individual units demonstrates that the energy performance
 14 meets the Energy Star level, trade-offs with components may be made and all prescriptive
 15 measures may not be required.

16

17 **B. Mechanical Systems Standards**

18 Heating and cooling equipment must be sized using ACCA’s Manual J or equivalent protocol. This
 19 information is given for heating systems and hot water heaters fueled by natural gas. For areas
 20 not served by natural gas and for installation of high efficiency Energy Star qualified heat pump
 21 or solar water heaters, consult with the Division.

22

23 1) Heating. A furnace inside conditioned space will be a sealed-combustion unit.

24

25 2) Cooling. Thermal Expansion valves are required.

26

EQUIPMENT	NORTHERN NEVADA	SOUTHERN NEVADA
Conventional Forced Air Furnace	92 AFUE	90 AFUE
Split System Central A/C and Air Source Heat Pumps up to 135,000 BTUh	13 SEER	<u>AC</u> - 14.5 SEER or 12 EER <u>Heat</u> - 8.2 HSE <u>PF</u>
Combination Space Heating/Water Heater	80 CAafue	80 CAafue

27

28 AFUE – Annual Utilization Efficiency

SEER – Seasonal Energy Efficiency Rating

29 EER – Energy Efficiency Ratio

HSPF – Heating Seasonal Performance Factor

30 CAafue – Combined Appliance AFUE, *for integrated systems that use the water heater to also provide heat this is the*
 31 *recovery efficiency of the water heater.*

32 Duct Leakage – Leakage to outside conditioned space of complete HVAC system and ducts 6CFM or less/100 square
 33 feet of living space

34

35 3) **Thermostats:** Must be seven-day programmable with setback capabilities for wake, day,
 36 evening and night settings. Not required for senior housing units. For senior housing units,
 37 thermostats with large display settings are preferred.

- 1
2 4) **Ventilation:** Meet ASHRAE Standard 62.2 Ventilation for Acceptable Indoor Air Quality.
3
4 5) **Return Air:** Transfer grills or jump ducts at bedrooms in units with 2 or more bedrooms unless
5 served by return balancing air duct or if pressure difference with door closed and air handler
6 running is 3 pascals or less.
7
8 6) **Hot Water:**
9 a. Residential Water Heaters. Residential water heaters must have a Minimum
10 Energy Factor 0.65. Water heaters inside conditioned space of the dwelling unit will be power
11 vented or direct-power vented unit.
12
13 The Energy Factor (EF) for gas water heaters may be found at
14 <https://www.ahridirectory.org/ahridirectory/pages/home.aspx>
15
16 b. Commercial Water Heaters. Commercial water heaters must have a Minimum
17 Thermal Efficiency of 82%.
18
19 7) **Ceiling Fans:** Each dwelling unit must contain Energy Star Rated reversible ceiling fans.

20
21 **C. Building Envelope**

22 Minimum Efficiency must be equal to or greater than required minimum below or the IECC code
23 in effect at the time of construction, whichever is greater.
24

COMPONENT	NORTHERN NEVADA, LAKE TAHOE AND RURAL NEVADA	SOUTHERN NEVADA
Attic/Ceiling	R38 <u>R49</u>	R30 <u>R38</u>
Wall <u>Cavity</u> <u>or Cavity + Continuous</u> <u>Sheathing</u>	R22/R24 in Lake Tahoe	R15 <u>R20 or R13 + R5</u>
Band Joist <u>Cavity</u> <u>or Cavity + Continuous</u> <u>Sheathing</u>	R22/R24 in Lake Tahoe	R15 <u>R20 or R13 + R5</u>
Floors Over <u>Unconditioned</u> Crawl Spaces	R30	R15 <u>R19</u>
Slab Foundations	R10 Perimeter Insulation <u>from</u> <u>top of slab to 2' depth</u>	N/A
Windows	Energy Star Qualified <u>With NFRC certification</u>	Energy Star Qualified <u>With NFRC</u> <u>certification</u>
Air Infiltration		

	Meet the Energy Star v. 2.5 air infiltration requirement.	Meet the Energy Star v. 2.5 air infiltration requirement.

34
35
36
37

- 1) **Lights:** Light Fixtures shall be Energy Star Qualified (light fixtures placed in unconditioned spaces must be airtight (i.e., ICAT fixtures).
- 2) **Appliances:** The below must be Energy Star labeled.
 - a. Refrigerators
 - b. Dishwashers
 - c. Clothes Washers
- 3) **Paint:** Low Volatile Organic Compound (VOC) paint must be used for all interior walls.
- 4) **Hot Water Conservation:**
 - a. Showerheads. Use 2.0 gallons per minute or less.
 - b. Bath Faucets. Use 1.5 gallons per minutes or less.
- 5) **Quality Assurance:** Equipment must meet Energy Star Version 2.5 quality installation requirements. During project construction, each unit type (i.e., floor plan and location in building) will be inspected and tested as a quality assurance measure until two consecutive units of this model type meet testing requirements. At this point, testing on this unit type can be reduced to a sampling rate of 1 in 7, or 15%.

D. Mechanical Systems Testing and Verification

Test all systems for proper installation and operation.

- 1) Heating- Proper installation will be verified.
- 2) Cooling- Thermostatic Expansion Valve verified (if installed).
- 3) Duct Leakage- Verified by pressure testing.
- 4) Thermostats- Verified by physical inspection.
- 5) Ventilation- Verified by testing and inspection.
- 6) Return Air Balancing- Verified by inspection.
- 7) Hot Water- Verified by inspection.

E. Building Envelope

- 1) Complete the Energy Star checklists, including Thermal Bypass Inspection Checklist.
- 2) Ensure the insulation is at required levels, is installed properly and consistently.
- 3) Document NFRC rating on windows for required U-value and SHGC.

- 1 4) Ensure that Low E coatings on windows are installed on the correct surface.
- 2 5) Verified by Inspection during Construction: Attics, Walls, and Band joists, Crawl Space
- 3 and Foundations, Slab Foundations, Windows.
- 4 6) Verified by Post Construction by Pressure Test: Infiltration.
- 5 7) Verified by Inspection Post Construction
- 6 a. Appliances (i.e., Refrigerators, Dishwashers, Clothes Washers).
- 7 b. Hot Water Conservation (i.e., Showerheads and Faucets).
- 8

9 Information relating to the safety, healthy, comfortable operation and maintenance of the
10 building and systems that provide control over space conditioning, hot water energy use to be
11 provided to occupants. The Division encourages architects, engineers, and contractors to contact
12 **Barbara Collins, ERHA West**, the Division Consultant, if you have any questions. She can be
13 reached at bcollins@erhwest.com.

14 F. Energy Efficiency Requirements – (New Construction)

15
16
17 1) Energy Efficiency Standard. The project must have an overall energy efficiency rating
18 equivalent to EPA’s Energy Star Home Program Version 2.5 level of efficiency.

19
20 2) Pre-Construction Energy Analysis. All projects must undergo pre-construction energy analysis.
21 The pre-construction energy analysis will be completed using **Appendix C-1**, building plans and
22 specifications. The information required to complete the pre-construction energy analysis is
23 referenced in Appendix C, Required Energy Analysis Forms.

24
25 3) To complete the pre-construction energy analysis the Applicant/Co-Applicants must contact
26 the Division to request/schedule the required energy analysis. The Division will contract with a
27 qualified energy analysis company to perform a pre-construction energy analysis of the proposed
28 project. The cost of the pre-construction energy audit will be **\$1,000** payable with the submission
29 of the energy analysis worksheet. The costs of the Interim and final energy analysis will be **\$250**
30 per unit with a minimum 15% of the project being subject to the energy analysis and includes per
31 diem charges of the testing contractor. Travel expenses are in addition to these fees. The costs
32 of the pre-construction and post energy analysis fees will be paid separately with the application
33 fees Listed in Section 21, Fees.

34
35 The output from the pre-construction energy analysis *must* include the Division’s Summary of
36 Energy Saving Recommendations form that lists the most cost-effective energy saving measures
37 for achieving the prescribed energy efficiency standard. A copy of the list of recommended
38 energy saving measures *must* be provided to the Division. *Installation of the recommended*
39 *energy saving measures is the responsibility of the Applicant/Co-Applicant and will be monitored*
40 *by the Division.*

41
42 4) Interim Energy Analysis and Inspections During Project Construction. The Division will perform
43 interim energy analysis and inspections of a selected sample of residential units during project
44 construction. Sample testing may vary based upon testing analysis.

1
2 The Applicant/Co-Applicant or Project Sponsor, as applicable, is required to provide the Division
3 with reasonable access to perform interim energy analysis and inspections. The interim energy
4 analysis and inspections will be performed: (1) after ceiling and wall insulation is installed and
5 prior to installing drywall and, (2) after building duct systems are installed and prior to enclosing
6 the duct work. *The Division will conduct energy analysis and inspection within 10 days of*
7 *receiving notice from the Applicant/Co-Applicant or Project Sponsor of the project readiness.*
8

9 The interim energy analysis and inspections performed by the Division or designate may include
10 (individual testing requirements may vary by project):
11

- 12 a. Physical inspection of ceiling, wall and floor insulations.
- 13 b. Duct-Blaster tests to measure air leakage of duct systems.

14
15 5) Final Energy Analysis and Inspections. The Division will perform a final energy analysis of the
16 project at the completion of project construction to determine whether or not the project
17 achieves the energy efficiency standard and requirements specified in this section. A final energy
18 analysis will be performed in proximity to project completion.
19

20 The final energy analysis and inspections performed by the Division will include:
21

- 22 a. Energy analysis to determine the overall energy efficiency of the project and
23 inspections of ceiling, wall and floor insulations;
- 24
25 b. Blower-Door test to determine unit air leakage within residential units; and
- 26
27 c. Physical inspection of buildings and units to determine whether the energy efficiency
28 measures identified in the pre-construction energy analysis have been installed.
29

30 6) Remediation. In cases where the Division's post-construction energy analysis determines that
31 the energy efficiency is less than the required energy efficiency standard prescribed in this
32 section, the Project Sponsor will be provided an opportunity to make improvements and
33 enhancements to achieve the energy efficiency standard. The Project Sponsor will be required
34 to pay any additional costs associated with the additional consultant time, travel and/or testing
35 that is necessary.
36

37 **G. Energy Efficiency Requirements – Acquisition/Rehabilitation**

38

39 1) Energy Efficiency Standard. The project must have an overall energy efficiency level that is
40 equivalent to a minimum of 10% above the 2006 International Energy Conservation Code as
41 determined by a REM-Rate analysis or an equivalent energy use analysis. When equipment or
42 components are replaced during an acquisition / rehabilitation they should meet the Section 12,
43 New Construction specifications for the item being replaced unless the energy analysis
44 demonstrates it would not be cost-effective to do so.

1
2 2) Pre-Rehabilitation Energy Analysis and Energy Audit. All projects must undergo a pre-
3 rehabilitation energy analysis and energy audit. The pre-rehabilitation energy analysis will verify
4 that planned improvements will meet Division requirements. The information required to
5 complete the pre-rehabilitation energy analysis is in Appendix C - 2, Acquisition Rehabilitation
6 Required Energy Analysis Form. In addition, Project Sponsors undertaking
7 acquisition/rehabilitation projects must provide a list of planned energy conservation expenses
8 by component as part of the Capital Needs Assessment. The format for itemizing planned
9 expenses by component category is in Appendix A, Planned Expenses by Component Category.

10
11 The pre-construction energy analysis and energy audit must be completed immediately, upon
12 notification of Tax Credit reservation. The pre-construction energy analysis and energy audit will
13 give consideration to recent (less than five years old), appliance and mechanical systems
14 installations.

15
16 To complete the pre-construction energy analysis and energy audit, the Project Sponsor must
17 contact the Division to request/schedule them. The Division will contract with a qualified
18 residential energy analysis company to perform a pre-construction energy analysis of the
19 proposed project and an energy audit of the existing dwellings. The cost of the pre-construction
20 energy audit will be **\$ 250.00** per unit with a minimum of one of each unique unit type in the
21 project being subject to the energy audit. The cost of the energy analysis is **\$1000.00**, payable
22 with the submission of the Appendix C – 2 Acquisition Rehabilitation Required Energy Analysis
23 Form.

24
25 In addition, a minimum of 10% of the project will be inspected during the rehabilitation work and
26 15% of the project will be inspected and tested post-construction. The costs of the site visits and
27 inspections will be **\$250.00** each. Travel expenses are in addition to these fees. The costs of the
28 inspections, site visits and energy analysis fees will be paid separately. Listed in Section 21, Fees.

29
30 The output from the pre-construction energy analysis *must* include the Division’s Summary of
31 Energy Saving recommendations form listing the most cost-effective energy saving measures for
32 achieving the required efficiency level. *Installation of the energy saving measures listed on the*
33 *form is mandatory for rehabilitation projects.* A copy of the Division’s Summary of Energy Saving
34 recommendations form with the recommended energy saving measures *must* be provided to the
35 Division. Installation of the energy saving measures is the responsibility of the Applicant/Co-
36 Applicants and will be monitored by the Division.

37
38 3) Interim Energy Analysis and Inspection during Project Rehabilitation. The Division will perform
39 interim energy analysis and inspections of a selected sample of residential units during project
40 construction. Sample testing will not be less than 15% of proposed units and will include samples
41 of unit types (i.e., number of bedrooms) and individual buildings in the proposed project.

42
43 The Applicant/Co-Applicant or Project Sponsor, as applicable, is required to provide the Division
44 with reasonable access to perform interim energy analysis and inspections. The interim energy

1 analysis and inspections will be performed: (1) after ceiling and wall insulation is installed and
2 prior to installing drywall and, (2) after building duct systems are installed and prior to enclosing
3 the duct work. If the proposed project consists of the rehabilitation of existing single family
4 homes, with existing drywall and duct work which will not be removed during rehabilitation,
5 when the interim energy analysis and inspections will be performed will be determined by the
6 Division on a case by case basis. *The Division will conduct energy analysis and inspection within*
7 *10 days of receiving notice from the Applicant/Co-Applicant or Project Sponsor of the project*
8 *readiness.*
9

10 The interim energy analysis and inspections performed by the Division or designate may include
11 (individual testing requirements may vary by project):
12

13 a. Physical inspection of ceiling, wall and floor insulations.
14

15 b. Duct-Blaster tests to measure air leakage of duct systems.
16

17 4) Final Energy Analysis and Inspections. The Division will perform a final energy analysis of the
18 project at the completion of project construction to determine whether or not the project
19 achieves the energy efficiency standard and requirements specified in this section. A final energy
20 analysis will be performed 60 days prior to project completion.
21

22 The final energy analysis and inspections performed by the Division will include:
23

24 a. Energy analysis to determine the overall energy efficiency of the project and
25 inspections of ceiling, wall and floor insulations;
26

27 b. Blower-Door test to determine unit air leakage within residential units; and
28

29 c. Physical inspection of buildings and units to determine whether the energy efficiency
30 measures identified in the pre-construction energy analysis have been installed.
31

32 5) Remediation. In cases where the Division's post-construction energy analysis determines that
33 the energy efficiency is less than the required energy efficiency standard prescribed in this
34 section, the Project Sponsor will be provided an opportunity to make improvements and
35 enhancements to achieve the energy efficiency standard. The Project Sponsor will be required
36 to pay any additional costs associated with the additional consultant time, travel and/or testing
37 that is necessary.
38

1 **II. MANDATORY FAIR HOUSING, ACCESSIBILITY AND GENERAL USE REQUIREMENTS**

2
3 All projects *must* comply with federal fair housing laws, regulations and design requirements for
4 handicapped accessibility including standards specified by the American with Disabilities Act
5 (ADA) and Section 504 where applicable. The Applicant/Co-Applicant or Project Sponsor, as
6 applicable, is responsible for ensuring that the completed project meets all federal fair housing
7 law, regulations and design requirements. Additionally, the General Public Use Requirement
8 Treasury Regulation 1.42-9 must be met to be eligible for Tax Credits. An IRS Private Letter Ruling
9 may be required by the Division for projects that target a specific segment of the population to
10 ensure compliance with the General Use Requirement.

11
12 By submitting the application, Applicant/Co-Applicants agrees to comply with all of fair housing,
13 accessibility and general use requirements under applicable law. Failure to do so will result in a
14 revocation of the Carryover Tax Credit allocation.

15
16 A. Recommended Fair Housing Accessibility Training

17 Compliance with Fair Housing Act accessibility standards is critical. Failure to comply can result
18 in Justice Department penalties plus settlements requiring substantial retrofits of apartments.
19 The Division, therefore, strongly recommends Fair Housing Accessibility training for Project
20 Sponsors in Nevada to help ensure design, engineering and build out compliance with federal
21 accessibility requirements. The Division strongly recommends that appropriate representatives
22 of the project development team attend the training provided on accessible design standards.
23 Appropriate representatives include persons integrally involved in the design and construction
24 of the project (e.g., architects, engineers, and contractors). A statement that a professional
25 seminar was attended or CPE credits were attained should be a part of the application. Training
26 is offered by HUD and other sources.

27
28 **III. PROJECT AMENITY REQUIREMENTS**

29
30 A. Amenities for Projects Serving Individuals and Families with Children

31
32 1) Projects with 40 or More Units⁸

33
34 a. Community areas with a minimum of 500 square feet. to combine a 50 inch
35 color TV, entertainment system (stereo, DVD, VHS and PlayStation or similar type
36 product), set of sofas or sofa/loveseat, two lounge chairs, end or coffee tables,
37 carpeting and/or ceramic tile, and facilities to prepare and serve food that includes
38 a counter area, Energy Star refrigerator, microwave oven, sink, garbage disposal,
39 with resilient and/or ceramic tile floor.

40

⁸ Does Not Apply to Scattered Site Single Family Projects.

1 b. Washer and dryer hookup in each unit and or on-site laundry facilities with a
2 minimum of one washer and dryer for every 10 units of housing. Washing
3 machines must be Energy Star rated.
4

5 c. Equipped playground that includes a Powerscape, GameTime, or equivalent
6 play set, a tot lot in a softball aggregate or equivalent site of at least 500 square
7 feet.
8

9 2) Projects with less than 40 Units. Equipped playground that includes a Powerscape,
10 GameTime or equivalent play set approved by the Division, a tot lot in softball aggregate,
11 or equivalent site of 500 square feet or more.
12

13 B. Project Amenities for Senior Housing

14
15 1) Community areas with a minimum of 500 square feet to combine a 50-inch color TV,
16 entertainment system (stereo, DVD, or VHS system), set of sofas or sofa/loveseat, two
17 lounge chairs, end or coffee tables, carpeting and/or ceramic tile, and facilities to prepare
18 and serve food that includes a counter area, Energy Star refrigerator, microwave oven,
19 sink, garbage disposal, with resilient and/or ceramic tile floor.
20

21 2) Washer and dryer hookup in each unit and/or on-site laundry facilities with a minimum
22 of one washer and dryer for every 10 units of housing. Washing machines must be Energy
23 Star rated.
24

25 3) Handrails and related hardware (handrails, grab bars, and lever handled hardware for
26 doors) compliant with the Fair Housing Act and ADA.
27

28 4) Elevator (if more than one floor).
29

30 C. Project Amenities for Eventual Tenant Ownership

31
32 1) Minimum of two-bedroom units with an average of 1,200 square feet of residential
33 per unit excluding garages, outdoor patios, etc., but not less than 1,000 square feet of
34 residential area or minimum allowed per local zoning.
35

36 2) Minimum of 5,000 square feet lot or the minimum allowed per the zoning.
37

38 3) Washer and dryer hookup in each unit.
39

40 4) Minimum of one car attached garage.
41

1 D. Project Amenities for All Other Housing

2
3
4
5
6
7
8
9
10
11
12
13
14
15
16
17
18
19

1) Community area(s) with a minimum of 500 square feet. The design and amenities in the community area should be suited to project type. For assisted living and special needs housing projects, the community area should be appropriate to the delivery of supportive services provided to residents. For mixed income projects, the community area and amenities should be similar to those provided to family and elderly housing.

2) Laundry facility on-site – one washer and one dryer for every 10 units of housing. Washing machines must be Energy Star rated.

NOTE: The Division may waive, at its sole discretion, one or more required project amenities for acquisition or rehabilitation projects or scattered-site projects. Applicants/Co-Applicants requesting a waiver MUST submit their request in writing, along with valid reasoning as to why the amenity or amenities cannot be provided, to the Division as part of their application package. The Division does not guarantee that requests will be granted. Any approvals must be received in writing from the Division.

1 **SCORING AND PRE-SCORING THRESHOLD**
2 **REQUIREMENTS**

3
4 **SECTION 13 PRE-SCORING THRESHOLD REQUIREMENTS**
5

6 All applications must meet all of the following “Threshold Requirements” set forth in this Section
7 13. Applications which do not meet the Threshold Requirements are ineligible for scoring and
8 will be rejected. Applications which meet the Threshold Requirements will then proceed to be
9 scored.
10

11 **A. Threshold #1 – Market Study**

12 The Code requires that a Market Study be prepared and submitted with all applications for an
13 allocation of Tax Credits. The Division requires that the study be prepared by a qualified analyst
14 who is completely unaffiliated with the Applicant/Co-Applicants and all Project Participants. The
15 qualified analyst must also have no financial interest in the proposed project. Two main
16 objectives of the Market Study are to demonstrate that sufficient demand exists for the proposed
17 project in the market area and that the proposed project will not cause undue economic harm
18 on the existing rental stock in the market area.
19

20 Tax Credit applications may be deemed ineligible if: (1) the assessment determines that
21 comparable affordable housing projects have occupancy levels less than 90%; (2) the proposed
22 housing project would have a significant adverse financial effect on other publicly funded projects
23 without offsetting public benefits; or (3) the rents for the affordable housing project are equal to
24 or greater than comparable market-rate housing.
25

26 The submitted application must match the Market Study regarding income, targeting, unit mix,
27 unit sizes and rents. In other matters, if the application does not conform to any Market Study
28 conclusions, the application must provide an acceptable defense for any deviations. Appendix B,
29 Market Study Guide provides more detail regarding Market Study content and analyst
30 qualifications.
31

32 **B. Threshold #2 – Project Compliance Period**

33 The minimum compliance period for Tax Credit projects is 30 years. An Applicant/Co-Applicant
34 has the option of extending this period in increments of 5 years up to a maximum of 50 years.
35 An exception is for Tenant Ownership projects, for which the minimum compliance period is 15
36 years. The Division will not agree to stipulations or subordination agreements to reduce LIHTC
37 affordability periods.
38
39

1 **C. Threshold #3 – Project Income/Rent Restrictions**

2 Applicant must select one of the following elections:

3
4 1) A minimum of 40% of the units will be occupied by households with incomes at or below 60%
5 Area Median Income (AMI). In 100% Tax Credit projects, all units must be rent and income
6 restricted to 60% AMI or lower.

7
8 2) A minimum of 20% of the units will be occupied by households with incomes at or below 50%
9 AMI. In 100% Tax Credit projects, all units must be rent and income restricted to 50% of AMI or
10 lower.

11
12 **D. Threshold #4 – The Gross Rent Floor**

13 The Gross Rent Floor is the lowest rent the Applicant will be required to charge to lease the units.
14 The effective date for determining this floor will automatically default to the date of the
15 Carryover Allocation of Tax Credits to a project unless the Applicant/Co-Applicants elect to
16 change the Gross Rent Floor effective date to the building placed in service. The Applicant/Co-
17 Applicants must submit a signed statement to the Division with this requesting the change of the
18 Gross Floor Rent effective date before the date of the Carryover Allocation. Once the election is
19 made, it is final and irreversible.

20
21 **E. Threshold #5 – Project Reserves for Replacement Requirements**

22 The project must maintain minimum annual replacement reserves unless modified in writing by
23 the Nevada Housing Division as follows, with the potential that USDA project reserve
24 requirements may be different:

25
26 1) For new construction Senior Housing projects: **\$250** per unit.

27
28 2) For all other new construction projects: **\$300** per unit.

29
30 3) For all Acquisition/Rehabilitation projects: **\$325** per unit.

31
32 For application purposes, annual replacement reserves that exceed the above-referenced
33 minimums by more than 20% may be considered excessive and the Division may require
34 additional documentation that supports the higher annual replacement reserve. The Division
35 reserves the right to limit excessive minimum reserves in applications.

36
37 **F. Threshold #6 – Financial Feasibility Requirements**

38 The Code limits Tax Credit allocations to the amount necessary for the project to be financially
39 feasible and induce long-term viability. To make this determination, the Division completes
40 financial feasibility evaluations three times before Tax Credits are issued.

41
42 The first financial feasibility evaluation is performed at the time of application. As stated herein
43 above, if after performing the first financial feasibility evaluation, the Division determines that

1 the proposed project is not financially feasible; the application will be ineligible for scoring and
2 will be rejected.

3
4 If the project passes the first financial feasibility evaluation, in the event that the project should
5 receive a reservation of Tax Credits, then prior to issuing the Carryover Allocation of Tax Credits,
6 the Division will perform the second financial feasibility evaluation. If the project fails either the
7 second financial feasibility evaluation it will not receive a Carryover Allocation of Tax Credits.

8
9 The Division performs the third and final required financial feasibility evaluation prior to the Final
10 Allocation of Tax Credits. The amount of Tax Credits provided to a project in the Final Allocation
11 may be adjusted based upon the results of the third and final financial feasibility evaluation.

12
13 Set forth below is a list of factors which the Division considers when performing the financial
14 feasibility evaluations. The list of factors is not all-inclusive, and other factors may also be
15 considered.

- 16
- 17 • The cost of the project
 - 18 • The reasonableness of construction costs
 - 19 • The cost per unit of the project
 - 20 • The projected income, expenses and cash flow, for the compliance and extended
21 compliance period
 - 22 • The reasonableness of the projections of income and expenses and the assumptions upon
23 which those projections are based
 - 24 • The fees for Project Participants
 - 25 • The sources and uses of money for the project
 - 26 • The plan for financing the project
 - 27 • The projected proceeds from the sale of the Tax Credits
 - 28 • The percentage of the housing credits used for the cost of the project
 - 29 • The demonstrated stability of the Applicant/Co-Applicants [first and second financial
30 feasibility evaluations] or Project Sponsor [third financial feasibility evaluation], including
31 an analysis of the Financial Statement of the Applicant/Co-Applicants or Project Sponsor,
32 as applicable.

33
34 The Division has also adopted financial standards to analyze the financial pro forma included in
35 each application. The current standards are set forth below. The Division may adopt new or
36 modify existing standards at any time.

- 37
- 38 1) Recommended minimum debt service coverage ratio of 1:15 on all combined debt excluding
39 notes not requiring repayment until the sale of the property
40 (Except for USDA finance projects and subject to Division approval);
 - 41
 - 42 2) 3% limitation on increases to projected project income and expenses;
 - 43
 - 44 3) 7% limitation on unit vacancy assumption;

- 1
- 2 4) Operating ratio shall be reasonable and subject to Division approval;
- 3
- 4 5) Replacement Reserves of \$250 for new construction Senior Housing,
- 5 \$300 per unit for other new construction projects, and \$325 per unit
- 6 for acquisition/rehabilitation projects;
- 7
- 8 6) 15 % limitation on Developer Fees⁹ of the eligible basis involving third-party land transactions;
- 9
- 10 7) The Developer Fee on the acquisition portion of the project is limited to a maximum of 15%
- 11 of the acquisition eligible basis. The Developer Fee associated with the acquisition's eligible fee
- 12 must clearly identify the costs and uses statement in the 4% column;
- 13
- 14 8) No more than 60% of the Developer Fee may be deferred and the Developer Fee, if paid from
- 15 cash flow, must be paid in full by year 15;
- 16
- 17 9) 14% limitation on builder's/contractor's profit, overhead and general requirements;
- 18
- 19 10) In instances where the builder/contractor and Applicant/Co-Applicants have an Identity of
- 20 Interest, then at the Applicant's expense, the Division may utilize an Estimating Consultant to
- 21 examine the proposed project budget for cost reasonableness and deliver a breakdown of the
- 22 costs per unit to the Division. In lieu of this requirement, Applicant may submit a generally
- 23 accepted or standard type of industry report, with sufficient detail, showing that proposed costs
- 24 are no higher than or are consistent for the project type, where there is no identify of interest.
- 25 Based upon this review, the Division reserves the right to limit the amount of
- 26 builder's/contractor's profit, overhead and general requirements or require the use of an
- 27 alternate builder;
- 28
- 29 11) Projects underwritten using the 70% PV rate in effect for the month within which the
- 30 application is due (i.e., May 2016); and
- 31
- 32 12) Projects underwritten using the Tax Credit equity rate in the Letter of Intent ("LOI"). The
- 33 amount of Tax Credits provided to a project may be adjusted based upon final locked-in Tax
- 34 Credit equity pricing. A letter from the Equity Investor indicating final pricing must be provided
- 35 to the Division staff by the 270-day test deadline.
- 36
- 37 13) Supporting documentation must include confirmation letters from funding sources for the
- 38 application showing their commitment to fund. The funding confirmation letters must include
- 39 contact information of the funding organization. The Division reserves the right to independently
- 40 confirm these funding sources.
- 41

⁹ The 15% Developer Fee maximum applies to both 9% and 4% projects.

1 **G. Threshold #7 – Authorization and Due Formation**

2 The Applicant/Co-Applicants must include evidence that Applicant/Co-Applicants are duly
3 formed legal entities authorized to transact business in the State of Nevada and in good standing
4 with the Office of the Secretary of the State of Nevada. Requirements for certain entity types
5 are set forth below. Information of any outstanding litigation filed against this entity or the
6 principals are also required. If the Applicant/Co-Applicant entity type does not fit within one of
7 the categories below, then entity documents and certificates of an equivalent nature must be
8 submitted.

9
10 1) Corporations (for profit).

11
12 a. Copies of the Articles of Incorporation and Bylaws.

13 b. If the Applicant, or any Co-Applicant, was incorporated in Nevada, provide a
14 certificate of good standing issued by the Nevada Secretary of State confirming the legal
15 existence of the entity as of the date of the certificate (“Certificate of Good Standing”)
16 and dated not earlier than 30 days prior to the Submission Date.

17 c. Applicant/Co-Applicants incorporated in another state and doing business in
18 Nevada must submit a certificate of good standing or its equivalent from the state of
19 incorporation confirming the legal existence of the entity dated not earlier than 30 days
20 prior to the date the Submission Date and a certificate of good standing to transact
21 business in Nevada (“Certificate of Authority”) for such foreign corporation, issued by the
22 Nevada Secretary of State and dated not earlier than 30 days prior to the Submission
23 Date.

24
25 2) Limited Partnerships. Limited Liability Partnerships, and Limited Liability Limited Partnerships
26 (collectively “Limited Partnerships”).

27
28 a. Copies of the partnership agreement and any amendments.

29
30 b. If the Applicant, or any Co-Applicant, is a Limited Partnership organized under the laws
31 of Nevada, provide a certificate of existence issued by the Nevada Secretary of State
32 confirming the legal existence of the entity (“Limited Partnership Certificate of Existence”)
33 and dated not earlier than 30 days prior to the Submission Date.

34
35 c. If the Applicant, or any Co-Applicant, was organized under the laws of another state
36 and doing business in Nevada, the following must be provided: (i) a Limited Partnership
37 certificate of existence or its equivalent from the state of organization confirming the
38 legal existence of the entity, dated not earlier than 30 days prior to the Submission Date;
39 and (ii) a Certificate of Authority to transact business in Nevada for such foreign limited
40 partnership from the Nevada Secretary of State dated not earlier than 30 days prior to
41 the Submission Date .

42
43 3) Limited Liability Companies.

1 a. Copies of the Articles of Organization and Operating Agreement.

2
3 b. If the Applicant, or any Co-Applicant, is organized under the laws of Nevada, provide a
4 Certificate of Good Standing issued by the Nevada Secretary of State confirming the legal
5 existence of the entity dated not earlier than 30 days prior to the Submission Date.

6
7 c. If the Applicant, or any Co-Applicant, is organized under the laws of another state and
8 doing business in Nevada the following must be submitted: (i) a certificate of existence or
9 its equivalent from the state of organization confirming the legal existence of the entity
10 dated not earlier than 30 days prior to the Submission Date; and (ii) a Certificate of
11 Authority issued by the Nevada Secretary of State for such foreign limited liability
12 company dated not earlier than 30 days prior to the Submission Date.

13
14 4) Non-Profit Organizations.

15
16 a. Provide IRS documentation of I.R.C. § 501(c) (3) or I.R.C. § 501(c) (4) status.

17
18 b. Provide a copy of the Non-Profit Organization's Articles of Incorporation and Bylaws,
19 and all relative amendments, one of which must contain a description of the Non-Profit
20 Organization and its activities that include the fostering of low income housing in its
21 Articles of Incorporation or Bylaws, as may be amended.

22
23 c. Provide the names of board members of the Non-profit Organization.

24
25 d. If the Applicant, or any Co-Applicant, was incorporated in Nevada, provide a Certificate
26 of Good Standing issued by the Nevada Secretary of State confirming the legal existence
27 of the entity as of the date of the certificate dated not earlier than 30 days prior to the
28 Submission Date.

29
30 e. Applicant/Co-Applicants incorporated in another state and doing business in Nevada
31 must submit a certificate of good standing or its equivalent from the state of
32 incorporation confirming the legal existence of the entity dated not earlier than 30 days
33 prior to the Submission Date and a Certificate of Authority to transact business in Nevada
34 for such foreign corporation, issued by the Nevada Secretary of State and dated not
35 earlier than 30 days prior to the Submission Date.

36
37 Copies of all entity documents and certificates submitted to the Division must be file stamped
38 and/or completely executed, as applicable.

39
40 Applicants and Co-Applicants must also submit a statement with the application identifying all
41 Persons with ownership interests in the Applicant, or each of the Co-Applicants, as well as all
42 Persons involved in the management of the Applicant or each of the Co-Applicants.

1 **H. Threshold #8 – Project Site Control Documents**

2 Site Control for all of the land needed for the proposed project must be evidenced by:

3
4 1) A fully executed and legally enforceable purchase contract (a “PSC”) or option to purchase (an
5 “Option”) for each portion of the real property where the proposed project will be located that
6 identifies the seller and buyer, the amount to be paid, the expiration date of the contract or
7 option, and a statement from the seller and buyer describing any prior interest in the land or
8 business dealings between seller and buyer; or

9
10 2) A written, legally enforceable governmental commitment to transfer the real property, by
11 either sale or long term ground lease with a term of at least 50 years, for the proposed project
12 to the Applicant/Co-Applicants (a “Government Commitment”); or

13
14 3) An authentic executed long-term Ground Lease with a term of at least 50 years for each
15 portion of the real property where the proposed project will be located with a statement from
16 the lessor and lessee describing any prior interest in the land or business dealings between lessor
17 and lessee; or

18
19 4) A recorded deed evidencing the transfer of the real property necessary for the proposed
20 project to the Applicant/Co-Applicants along with a copy of the owner’s policy of title insurance
21 insuring the ownership of the real property by the Applicant/Co-Applicants.

22
23 If a PSC, Option or Government Commitment (“Commitment”) is submitted, the Commitment
24 must provide for an initial term lasting at least until December 31st of the year in which the
25 reservation of Tax Credits is made (“Initial Term”). This Initial Term must not be conditioned
26 upon any extensions requiring seller consent, additional payments, financing approval, Tax Credit
27 award or other such requirements. Additionally the Commitment must not require any
28 additional actions on behalf of the Applicant/Co-Applicants during the Initial Term which could
29 allow the seller, option holder, or governmental agency to terminate the Transfer Commitment
30 if the action is not fulfilled by the Applicant/Co-Applicants. If the Commitment requires an
31 escrow payment due after signing, evidence that payment was received must be included in the
32 application.

33
34 Site control evidence and the application materials must show exactly the same names, legal
35 description and acquisition costs. All signatures, exhibits, and amendments should be included
36 to be considered complete. However, applicants utilizing land from the Bureau of Land
37 Management, such as via the Southern Nevada Public Lands Management Act (SNPLMA), may
38 satisfy this requirement by submitting documents evidencing substantially similar or equivalent
39 site control based upon the SNPLMA process, subject to approval of the Administrator.

1 **I. Threshold #9 – Zoning and Phase 1 Environmental Study for Project**

2 Applicants/Co-Applicants must also provide documentation establishing that the project as
3 proposed and preliminarily designed is on land appropriately zoned for the intended project and
4 that discretionary permits are not necessary from a local government body (i.e., that the project
5 upon design, only requires an administrative review for building permit issuance).

6
7 When requested by the Division or the project environmental consultant, submit a hazardous
8 material report that provides the results of testing for asbestos containing materials, lead based
9 paint, Polychlorinated Biphenyls (PCBs), underground storage tanks, petroleum bulk storage
10 tanks, Chlorofluorocarbons (CFCs) and other hazardous materials. Professionals licensed to do
11 hazardous materials testing must perform the testing. A report by an architect, building
12 contractor, or Applicant/Co-Applicants will not suffice. A plan and projected costs for removal of
13 hazardous materials must also be included.

14
15 All Applicants or Co-Applicants must also submit a complete Phase I Environmental Study for all
16 portions of the real property on which the proposed project is to be located.

17
18 **J. Threshold #10 – Applicant/Co-Applicants’ Low Income Housing Experience and Compliance**
19 **History; Financial Capacity; and Background**

20
21 1) Low Income Housing Experience. Applicants/Co-Applicants must demonstrate sufficient prior
22 experience with the development and management of low income housing projects and that
23 they possess the financial capacity necessary to undertake and complete the proposed project.¹⁰
24 Applicant/Co-Applicants must also demonstrate to the Division that they have successfully
25 developed projects of comparable size and financial complexity.

26
27 To make this demonstration: the Division requires an Applicant/Co-Applicant to submit the
28 following with the Tax Credit application.

29
30 a. *Low Income Housing Experience:* The Applicant/Co-Applicants must submit an Exhibit
31 to the application providing a description of at least three prior low income housing
32 projects which the Applicant/Co-Applicants developed and operated. The information in
33 the addendum must include, at a minimum: (i) the name of the project and its location;
34 (ii) the date the allocation of Tax Credits, or funds or financing to promote low income
35 housing, was received; (iii) for prior low income housing projects located outside the
36 State of Nevada, the identification of the allocating or administering authority and the
37 contact person at the allocating or administering authority; (iv) the placed in service date
38 ; (v) the period of time from commencement of lease-up to stabilized occupancy ; (vi)
39 current occupancy levels; and (vii) the permanent financing sources.

40

¹⁰ A low income housing project is defined as a project with restricted rents serving households whose gross income does not exceed 80% AMI subject to a minimum period of affordability.

1 b. *Additional Requirement: for Special Needs Projects.* Applicants/ Co-Applicants
2 submitting an application proposing a Special Needs projects must demonstrate a
3 minimum of three years of experience providing a service or assistance to persons with
4 special needs. The information included in the application package must demonstrate
5 the minimum of three years of experience and provide a summary of the supportive
6 services provided to residents.
7

8 2) *Compliance History:* All Applicants/Co-Applicants must provide an addendum to the
9 application which identifies for each past low income housing Tax Credit project or low income
10 housing project funded or financed with funds to promote low income housing which the
11 Applicant/Co-Applicants developed and/or operated, or received or shared rights to control, sell
12 or exchange a tax credit award or other federal or state awards for and which the Applicant is
13 still is a legal party to, which: (i) states that the project is and always has been in compliance; or
14 (ii) describes compliance violations within the past three years which were not cured within the
15 applicable cure period and/or outstanding compliance violations cited during project monitoring
16 reviews by federal, state or local funding/allocating agencies. The Applicant/Co-Applicant gives
17 the Division permission to contact other State Housing Finance Agencies or local jurisdictions
18 where the Applicant/Co-Applicant has completed LIHTC projects, or projects funded or financed
19 with funds to promote low income housing, to discuss compliance history.
20

21 Outstanding uncorrected IRS form 8823¹¹ or compliance violations issued by the Nevada Housing
22 Division or other substantially similar 8823 level federal, state or local funding/allocating agencies
23 for other low income housing projects, or projects funded or financed with funds to promote low
24 income housing, in which all required or authorized cure periods have expired by the date of
25 application may result in the rejection of the application.
26

27 Alternatively, if the Division determines that the outstanding compliance violations are not
28 material and if the Applicant/Co-Applicant has cured the violations or proceeds to cure such
29 violations within 10 business days of notice from the Division of the violation, instead of rejecting
30 the application, the Division may make a reduction of five points in the point total for each
31 application submitted for all rounds for the year, should the application satisfy the remainder of
32 the Threshold Requirements.
33

34 Material violations may be regular, continuous or substantial. They may be large, unusual and
35 questionable items. They may be individually or collectively material. For more information, see
36 “factors to consider when determining the materiality of items” in the Form 8823 Guide under
37 the heading “Determining the Scope of the State Agency’s Inspection/Review”
38

39 3) *Financial Capacity:* Evidence of the financial capacity and solvency of the Applicant/Co-
40 Applicants in the form of Financial Statements of the owners of Applicant/Co-Applicants and of
41 the Applicant/Co-Applicants for the past two years must be submitted with the application.
42

¹¹ Negative Findings refer to cases in which the project is in material non-compliance and the responsible public entity has filed an 8823 form or other similar notification of non-compliance.

1 4) *Background*: All Applicants/Co-Applicants must also submit a disclosure (“Background
2 Disclosure”) to the Division with the application for all persons who have an ownership interest
3 in the Applicant/Co-Applicants bearing the notarized signature of each containing the following
4 information:
5

- 6 • Identifying all bankruptcies within the seven years prior to the Submission Date, with the
7 jurisdiction and case number. All bankruptcies, in which the person has been involved as
8 an owner of a debtor entity, or personally as debtor, must be listed, along with a
9 statement of the status of the case. If there are none, then this must be stated.
10
- 11 • Identifying all projects with which the person has been involved for which a Notice of
12 Default was received related to the project, specifically identifying the project, person
13 who issued the notice and outcome. If none, this must be stated.
14
- 15 • Identifying all projects with which the person has been involved or which were lost to
16 foreclosure or surrendered pursuant to a deed in lieu, specifically identifying the project,
17 all involved parties and the outcome. If none, this must be stated.
18
- 19 • Identifying all notices of violation or disciplinary action by any regulatory body, licensing
20 entity, ethics commission, disciplinary board or similar entity in the 7 years prior to the
21 Submission Date, with a description of the status or outcome. Alternatively, please state
22 none.
23
- 24 • Identifying if the person has been convicted, is currently under indictment or complaint,
25 has been found liable or is currently accused of fraud or misrepresentation, in Nevada or
26 any other state, relating to: a) the issuance of securities, b) the development,
27 construction, operation, or management of any Tax Credit or other government
28 subsidized housing program, c) the conduct of the business of the applicable party, in any
29 criminal, civil, administrative or other proceeding, or d) any filing with the Internal
30 Revenue Service in any state. If none, this must be stated.
31

32 The Division may request additional information from the Applicant/Co-Applicant regarding any
33 or all of the items listed on the Background Disclosure. The Division may, in its sole discretion,
34 reject any application for Tax Credits based on the information in the Background Disclosure.
35

36 a. Procedure for Preliminary Review of Background Disclosure.
37

38 (i) Applicants/Co-Applicants may request an initial review of their Background
39 Disclosure by submitting a written request to the Division with the completed
40 initial Background Disclosure prior to the Application Deadline. The Division may
41 request additional information from the Applicant/Co-Applicant regarding any or
42 all of the items listed on the initial Background Disclosure. The Division may give a
43 preliminary approval of the Background Disclosure (the “Conditional Background
44 Approval”) or may advise the Applicant/Co-Applicant that based on the

1 information in the Background Disclosure; the application would be rejected if
2 submitted. This determination is in the Division’s sole discretion.

3
4 (ii) Applicants/Co-Applicants who receive a Conditional Background Approval
5 must submit an undated Background Disclosure with the application. The Division
6 may request additional information regarding any or all of the items listed on the
7 updated Background Disclosure submitted with the application. New or changed
8 information in the updated Background Disclosure; changes in circumstances
9 reflected in the updated Background Disclosure; or variances and/or discrepancies
10 between the information in the conditionally approved initial Background
11 Disclosure and the updated Background Disclosure submitted with the application
12 may result in rejection of the application, in the Division’s sole discretion.

13
14 **Applicants/Co-Applicants are further advised and notified that a Conditional Background**
15 **Approval does not guaranty that the updated Background Disclosure submitted with the**
16 **application will be acceptable to the Division.**

17
18 **K. Threshold #11 – Experience/Qualifications of Project Participants**

19 All Applicants/Co-Applicants must demonstrate that the Project Participants selected by the
20 Applicant/Co-Applicant possess the experience and financial capacity necessary to undertake and
21 complete the proposed project and that each Project Participants has been involved with the
22 development and operation of low income housing projects of similar size and financial
23 complexity.

24
25 To make this demonstration, all Applicant/Co-Applicants must provide the following.

- 26
27 1) An organizational chart that describes the relationships, whether through ownership, contract
28 or control, between the Project Participants.
29
30 2) Provide a narrative describing the experience of the Project Participants as it relates to the
31 development of the proposed project.
32
33 3) Resumes of the principals and other supervisory employees of each Project Participant as well
34 as resumes for the company or organization.
35
36 4) Evidence of financial capacity and solvency in the form of Financial Statements of the Project
37 Participants who will be acting as the General Contractor and Property Management Company
38 for the proposed project for the prior two full calendar years.
39
40 5) Provide an explanation of all identities of interest and relationships between the Project
41 Participants and between all Project Participants and the Applicant/Co-Applicants.
42
43 6) Evidence that the Project Participant selected to act as the management company for the
44 proposed project has a minimum of two years’ experience either directly or indirectly managing

1 income restricted properties with Section 42 experience. Upon written request, the Division may
2 issue a waiver of this requirement. Issuance of such waiver is at the sole discretion of the Division.
3

4 **L. Threshold #12 – Project Security and Management**

5
6 1) Security. All Tax Credit projects must provide appropriate security systems and
7 improvements to reasonably safeguard the safety of residents.¹² For the purposes of this
8 section, security systems include but are not limited to:
9

- 10 • Project fencing
- 11 • Defensive landscaping
- 12 • Security doors
- 13 • Screens and gates
- 14 • Gated project access control systems using keypads and magnetic cards
- 15 • Self-locking door mechanisms
- 16 • Project/unit camera surveillance with on-site closed circuit monitor
- 17 • Panic attack systems
- 18 • Emergency lighting
- 19 • Burglar alarms
- 20 • Other similar protective measures

21
22 The Division is aware that the type of security systems appropriate for a project will depend upon
23 various factors including housing type, project design and location. Other than particular security
24 measures mandated in the section, Applicant/Co-Applicant may determine what security
25 systems and improvements are appropriate for a project. Applicants/Co-Applicants with
26 proposed projects which are acquisition/rehabilitations of scattered site single family homes are
27 not required to provide gated project access control systems, project/unit camera surveillance
28 with on-site closed circuit monitoring or panic attack systems.

29 2) Mandatory Security and Safety Measures.¹³ Applicants/Co-Applicants must provide the
30 following Security Systems:
31

32 a. Except as otherwise provided in this paragraph, for or **all** housing projects, closed circuit
33 monitoring systems must be installed per manufacturer’s instructions and be operational at
34 all times.
35

36 For acquisition/rehabilitation projects and/or single story projects fewer than 40 units that
37 serve seniors, the Applicant/Co-Applicant may request that alternative security systems and
38 measures be installed in lieu of closed circuit monitoring systems. The Division will evaluate
39 these requests on a case-by-case basis and its determination of whether or not to grant such
40 a request is in its sole discretion.

¹² Security requirements *do not* apply to tenant ownership projects.

¹³ This does not apply to eventual tenant ownership projects.

1
2 b. For projects over 40 units, fire detection and suppression sprinkler systems are required in
3 each unit.

4
5 A suppression sprinkler system is not required for an acquisition/rehabilitation
6 projects or single-story projects fewer than 40 units unless required by local code.
7

8 3) Security Reporting. The Division requires Applicants to provide information on security-
9 related issues. The requested information may include building evacuation procedures,
10 documentation of building break-ins, vandalism and public safety concerns, police reports, and
11 project plans for addressing security issues. By submitting the application, Applicant/Co-
12 Applicant agrees to promptly respond to such requests and to compile and provide the
13 information requested.

14
15 4) Management. At a minimum, *all single-site Tax Credit projects that have 50 or more units*
16 *must have on-site management*. For the purpose of this section, on-site management includes
17 managers, maintenance, and/or security personnel.
18

19 The Project Sponsor is responsible to the Division for ensuring that the LIHTC program is properly
20 administered. Project Sponsors are responsible for being aware of all applicable federal and state
21 rules and regulations that govern their projects. The Project Sponsor must ensure that property
22 managers comply with all appropriate statutes, rules, regulations, and policies that govern the
23 property.
24

25 It is the responsibility of the Project Sponsor to inform the Division of any major changes that are
26 made to the property throughout all phases of construction, lease, and operation as well as the
27 placed in service date. The Division's *Low Income Housing Tax Credit Compliance Policies and*
28 *Procedures Manual* provides guidance for complying with the IRS regulations Code regulations,
29 as well as other applicable law.
30

31 The Division requires that one management company representative and one on-site manager
32 directly involved in the management of the project attend at least one of the Annual Compliance
33 training sessions provided by the Division. The purpose of the training compliance session is to
34 provide instructions for the following compliance issues:
35

- 36 • Federal laws determining eligibility for low income tenants
- 37 • Division rules and regulations determining eligibility for low income tenants
- 38 • Specific information necessary for continued LIHTC program compliance
- 39 • Income Limits
- 40 • Rent Limits
- 41 • Income Verifications
- 42 • Annual Income and Assets
- 43 • Annual Income Certifications
- 44 • Annual/Quarterly Status Reports

1
2 The Division reserves the right to deny participation and or request a change in a management
3 company to a project if that company is currently under review for compliance related and/or is
4 debarred by the Administrator. The terms of this subsection are the minimum requirements for
5 any project awarded Tax Credits. Required documentation must be prepared by an engineer or
6 architect licensed to do business in Nevada.
7

8 **M. Threshold #13 – Agreement to Participate in the Division Data Surveys and Reports**
9

10 Any Applicant/Co-Applicant that receives 4% or 9% LIHTC financing, regardless of amount, must
11 participate in all data and other surveys sponsored by the Division, including, but not limited to,
12 the Apartment Facts Survey produced by the Division for the life of the affordability period and
13 the Affordable Housing Data Base data collecting requirements.
14

15 Applicants/Co-Applicants and Project Sponsors who are recipients of 4% or 9% LIHTC financing
16 must also submit a report, on a form specified by, or acceptable to, the Division, detailing efforts
17 made to outreach to small businesses within Nevada for contractor, subcontractor, or other
18 services. The report should also indicate how the Applicant/Co-Applicants or Project Sponsor, as
19 applicable, provided information on bidding and requests for services to the small business
20 community. Finally, the report should include information on the results of these efforts. The
21 report should be submitted on a quarterly basis with the quarterly performance report.
22

23 By submitting the application, Applicant/Co-Applicant agrees to comply with all of the Division’s
24 reporting requirements. Failure to report requested data in a timely manner, may result in
25 negative points in subsequent LIHTC scoring rounds or negative references when requested by
26 other state/local housing finance agencies.
27

28 **N. Threshold #14 – Project Plans¹⁴**
29

- 30 a. The following plans must be 11” x 17” and indicate the following:
31
32 i. Street name(s) where site access is made, site acreage, planned parking areas, layout of
33 building(s) on site to scale, any flood plains that will prohibit development on site, retaining walls
34 where needed, and adjacent properties with descriptions.
35
36 ii. Front, rear, and side elevations of *all* building types (use of 1/8” or 1/16” scale for buildings).
37
38 iii. Site acreage.
39
40 b. Site and floor plans must be 11” x 17” and indicate the following:
41

¹⁴ The Division may in the 2016 QAP reduce this requirement to allow for more general and conceptual plans than specific plans before awards are granted and then require more specific plans after awards are granted.

- 1 i. Location of, and any proposed changes to, existing buildings, roadways, and parking areas.
- 2
- 3 ii. Existing topography of site and any proposed changes including retaining walls.
- 4
- 5 iii. Landscaping and planting areas (a plant list is not necessary). If existing site timber or natural
- 6 areas are to remain throughout construction, the area must be marked as such on the site plans.
- 7
- 8 iv. Plant material must be appropriate to the native climate and should reflect a high sensitivity
- 9 towards water conservation while being aesthetically appealing.
- 10
- 11 v. Location of site features, such as playground(s), gazebos, walking trails; refuse collection areas,
- 12 postal facilities, and site entrance signage.
- 13
- 14 vi. The location of units, elevators (if any), common areas and other spaces using a minimum
- 15 scale of 1/16" = 1 inch for each building.
- 16
- 17 vii. For projects involving renovation and/or demolition of existing structures, proposed changes
- 18 to building components and design.
- 19

20 At all times after the award, the owner is responsible for promptly informing the Division of any
21 changes or alterations which deviate from the final plans and specification approved by the
22 Division. Failure to do so may result in a reduction in a tax credit allocation or in an IRS recapture
23 event based on what was committed to, and for which tax credits were issued. In particular,
24 owners must not take action or any material change in the site layout, floor plan, elevations or
25 amenities without written authorization from the Division. This includes changes required by
26 local governments to receive building permits.

27

28 **O. Threshold #15 – Evidence of Local Jurisdiction Support.**

29

30 Applicants/Co-Applicants must provide the Division evidence of delivery of and a copy of the
31 letter notifying the chief executive officer (or the equivalent) of the local jurisdiction within which
32 the building is located of such project. The delivery date of the letter must be postmarked no
33 later than 30 days before the application submittal deadline date to provide such individual(s) a
34 reasonable opportunity to comment on the project. Such letter may be sent to the executive
35 officer or governing body (for example, the Mayor, City Manager, County Manager, City Council,
36 County Commission or the equivalent) of the local jurisdiction. The letter must indicate if the
37 jurisdiction has any comments it is asked to send them to the Applicant and the Division.

38

39 Outreach to the community regarding proposals is also encouraged. The Division will accept
40 public comments about proposals at any time, and will consider public comments during the
41 review process until indicated deadlines.

42

43

1 **P. Threshold #16 – Promoting the Division**

2
3 All Applicants/Co-Applicants must also execute an agreement to promote the Division’s
4 participation in the project during the construction phase (see Exhibit 4 of the Division’s
5 Application for Tax Credits).

6
7 **Q. Threshold #17—Promoting the Property**

8 All Applicants/Co-Applicants agree to promote (among any other promotional efforts) this
9 property on the www.NVHousingSearch.org website beginning when the lease-up process
10 begins. There is no charge for this service.

11
12
13 **SECTION 14 PROJECT SCORING**

14
15 Applications which the Division determines to have satisfactorily satisfied all threshold
16 requirements of Section 13 of this Plan will proceed to be scored.

17
18 **SECTION 14.1 SCORING CATEGORIES**

19
20 Each application will be scored based upon the three scoring categories:

- 21
22 (1) Standard Scoring Factors;
23 (2) Project Type Factors;
24 (3) Special Scoring Factors.

25
26 The scoring point values will be based upon documentation submitted which is determined by
27 the Division as supporting the Applicant’s request for a specific number of points requested in
28 the self-scoring section of the Application. Back-up documentation for scoring factors must be
29 contained in the appropriate scoring section, except as otherwise identified in the QAP for the
30 scoring points for the lowest developer and contractor fees, and justify the level of points
31 requested. If there is not sufficient documentation for each point request the point request will
32 be denied. Back-up documentation for points cannot be submitted after the Application
33 Deadline. Staff may request clarification prior to awarding points.

34
35 Applications do not need to include additional copies of the same information in different
36 locations of an application submittal where such information is requested. Where different parts
37 of the application request similar or the same information, the Applicant can refer to one exhibit
38 or location to satisfy all such requirements. However, the Division will not be responsible for not
39 awarding points if the information or exhibit referred to is not in the location the application
40 describes it to be in.

41
42 If representations made on the application cannot be tested, or cost certified at the time of
43 completion or issuance of the 8609, the Administrator may reduce or withdraw the Tax Credit
44 award/allocation and place the Applicant/Co-Applicants or Project Sponsor on the debarred list.

1
 2 The Division’s Application for Tax Credits contains a self-scoring worksheet that must be
 3 submitted with the application. The maximum points for which a project application is eligible is
 4 variable dependent upon considerations such as for example, project type or if the applicant is
 5 Nevada based. The maximum number of eligible points is 147¹⁵. Few if any projects will receive
 6 this score. In completing the self-scoring worksheet, most applicants will have a near-complete
 7 picture of their score at the time the application is submitted. Some points are awarded based
 8 upon comparison to other submitted applications and the scoring of these points is done by staff
 9 after the application deadline.

10
 11 After the Division calculates the point totals of each application, projects will be ranked within
 12 each set-aside and geographic sub-account. Applicants/Co-Applicants applying for Tax Credits
 13 under more than one account will be ranked under each account.

14
 15 **SECTION 14.2 STANDARD SCORING FACTORS**
 16

17 Standard Scoring Factors reflect the Division’s housing development priorities for 2016. All
 18 applications will be independently scored for each of the following Standard Scoring Factors.
 19

20 **SECTION 14.3 PROJECT LOCATIONS**
 21

22 Three preference points will be awarded if the project meets any of the following project location
 23 criteria:
 24

RATING FACTORS	POINTS
A. Project is located in a non-CDBD eligible Census tract.	
B. Project is located in an area covered by a State or local revitalization plan/strategy.	
C. Property involves the acquisition and rehabilitation of an at-risk property listed in the National Housing Trust Publication.	
MAXIMUM LOCATION POINTS	3

25
 26 **SECTION 14.4 PROJECT READINESS**
 27

28 A maximum of 10 points will be awarded for achieving the following project development
 29 milestones. Documentation must be submitted to verify the completion of each milestone to the
 30 satisfaction of the Division:
 31

RATING FACTORS	POINTS
A. Ownership of land is secured and vested in the Applicant, Co-Applicants, or owner of Applicant or Co-Applicant, as applicable, with a clear title or	5

¹⁵ This is down two (2) points from the 2014 QAP maximum of 149 points

ground/land lease (50 years or greater) and not as an option (costs associated with the land purchase may still be included in the project budget)	
B. For Acquisition/Rehab projects, proof of acquisition of existing project, including land and improvements, with proof of clear title vested in Applicant or Co-Applicants, as applicable.	5
C. Plan/Permits "Permit Ready". To receive these points, a letter from the local building department must be submitted with the application stating the plans are approved, subject only to payment of any fee which may be required. No points will be awarded to Acq'/Rehab' projects for this factor. This factor may be modified or deleted in the 2016 QAP.	5
D. Minimum two year commitment for Medicaid and/or Service Vouchers for assisted living secured.	3
MAXIMUM PROJECT READINESS POINTS	10

1
2
3
4
5
6

SECTION 14.5 ADDITIONAL PROJECT AMENITIES

A maximum of 25 points will be awarded for the following project and tenant amenities. All shared amenities among development phases or adjacent/nearby project are eligible for equal to ½ the point value listed.

RATING FACTORS	POINTS
Project Amenities – Development Has¹⁶:	
A. Elevators (does not apply to Senior Housing projects with 2 or more floors, Special Needs Project, and Tenant Ownership Projects).	3
B. Picnic area equipped with, for each 100 units, a minimum of three charcoal or gas barbeque units and one 6' picnic table with benches on separate concrete slabs no less than 200 square feet evenly distributed throughout the project (does not apply to Tenant Ownership Projects), no additional points for covers or canopies.	1
C. Swimming or lap pools (does not apply to Tenant Ownership Projects).	3
D. Solar hot water heating for swimming pools.	2
E. A children's pool that purifies and recycles water at a minimum four spray positions. Each position must have individual timer for water spray, a 20 x 20 concrete area with drain, and minimum five-foot high rod iron fence with gate that locks. The 20x20 concrete areas shall have a Cool Deck type of surface. The water must recycle. (Applies to Family Rental and Tenant Ownership projects only).	3
F. 500 square feet community room in project fewer than 50 units.	3
G. In-ground spa that is a minimum of eight ft. in diameter with seven jets, booster pump, blower, 20-minutes time and 300,000 Btu heaters.	2

¹⁶ The Division is considering adding 2 points in the 2016 QAP for an "On-site walking circuit or trail."

H. Equipped weight/exercise room that is a minimum 200 square feet and has at least three exercise machines (does not apply to Tenant Ownership Projects).	3
I. Computer/study room with full Internet access that is a minimum of 100 square feet and is equipped with at least one computer for every 20 units (computers specification must meet or exceed 1.8 GHz Intel Pentium 4 Processor, 128 MB. DDR SDRAM. 20 GB Hard Drive, 15-in. Monitor, 32 MB Graphics Card, 48X Max CD ROM, Microsoft Windows).	2
J. Exterior lighting with fluorescent dusk-to-dawn fixture of High Pressure Sodium illuminating walking paths to entrances to residential units or LED	2
K. Library and/or reading room supplied with books.	1
L. On-site salon equipped with washer sinks, hair dryers, beauty chair, mirrors, manicure station, supply cabinets, and additional seating.	2
M. Recreation area with at least one of the items listed: Shuffle Board, Horseshoe Pits, Sand Volleyball Court, Pool Table or Grand Piano	2
N. Business center equipped with a fax and copier machine in project with fewer than 50 units.	2
O. Wellness room equipped with a medical grade exam table and secure medical cabinets to insure no equipment or medications would be subject to inventory reduction.	2
P. Automatic Door Openers at all common area doors, except for corridors and stairwells where the use of automatic doors is prohibited. For the purposes of allocating these points to a project, "common area doors" are all doors in the project which access areas within the project available for common use by all tenants, or groups of tenants and their invitees, except for the doors to individual units.	3
Tenant Unit Amenities – Each Unit Has:	
Q. Picnic area equipped with one charcoal or gas unit and 6' picnic table with benches on 64 square feet concrete slab or in patio area (applies to Tenant Ownership Projects only).	1
R. Air conditioning (applicable only outside of Clark County)	3
S. Hard surface throughout unit (e.g., ceramic tile or bamboo flooring; vinyl flooring is subject to the Division staff approval).	2
T. Covered patio area on concrete slab with roof that is a minimum of 64 square feet. (applies to Tenant Ownership Projects only) or Patio or balcony area that is a minimum of 48 square feet (applies to all other project types).	2
U. Attached two-car garage (applies to Tenant Ownership Projects only) or Covered parking spaces (applies to all other project types).	3
V. Enclosed exterior wood-framed storage structure that is a minimum of 24 square feet.	2
W. Infrastructure and hook-up for broad-band internet connection in all units.	2
X. Washer/dryer hooks ups in projects with fewer than 50 units.	2

State of Nevada Qualified Allocation Plan for 2016

Y. Washer/dryers provided in each unit.	3
Z. Free individual internet in each unit.	2
AA. Ceiling fans, including a minimum of one fan in the living room and one fan in the master bedroom.	1
BB. Security doors on front and back entrances (applies to Tenant Ownership Projects only).	1
CC. Covered front porch (applies to Tenant Ownership Projects only).	1
DD. Smoke-Free Housing	
EE. Entry screen front door to unit on units for eventual tenant ownership	2
FF. Storage cabinets in attached garage in units for eventual tenant ownership (minimum of 2 cabinets each) ¹⁷	2
GG. Storage shelves in attached garage in units for eventual tenant ownership	1
HH. Garage door opener in units for eventual tenant ownership	2
II. Lighted walkway to the home in units for eventual tenant ownership	2
JJ. Flower or herb garden with drip irrigation system in single site projects ¹⁸	1
KK.	
LL. For Special Needs and for Senior Projects Only. Removable cabinet fronts at all kitchens and bathroom sinks in all apartments.	2
MM. Projects that opt to exceed the HUD 5%/2% accessibility requirement by ensuring that every unit size (based on # of bedrooms) is fully accessible.	3
NN. Grab bars at all bathtubs and showers in all apartments. To qualify for these points, the grab bars must be specified for handicapped use and meet ADA requirements.	2
MAXIMUM AMENITIES POINTS	26

- 1
- 2 For Acquisition/Rehabilitation in addition to receiving amenities points for new amenities to be
- 3 added to the project, points shall be awarded for upgrades to existing amenities if: (i) the Capital
- 4 Needs Assessment (a) identifies the amenity or amenities, (b) states that the amenity or
- 5 amenities need to be upgraded, and (c) identifies the amount of capitalization needed for the
- 6 amenity or each of amenities to be upgraded; and (ii) the Applicant/Co-Applicants propose in the
- 7 application to upgrade the amenity or amenities.
- 8
- 9

¹⁷ It has been proposed to ban smoking in all or part of projects funded by the Division. After debating the matter the Division decided not to ban smoking in the 2015 QAP. However, the Division may in the 2016 QAP adopt a Smoke-Free Environment policy to establish and implement a policy prohibiting smoking on properties. Proposed language: "Promoting a healthy environment for all residents by implementing a no smoking policy for 100 percent of the building, units, and all common areas. Owners must establish a no-smoking policy for all buildings (including all indoor common areas, units, and balconies/patios) and within 25 feet of buildings. A non-smoking clause must be included in the lease for each household." We note there is no resolution regarding the smoking of medical marijuana.

¹⁸ Proposed to consider dropping this from the 2016 QAP forward.

1 **SECTION 14.6 NEVADA BASED APPLICANT¹⁹**

2
3
4
5
6
7
8

Up to 10 points will be awarded to projects if the Applicant is based in Nevada or **all** Co-Applicants are based in Nevada. No Applicant will receive points for both Sections 14.6 and 14.7 for any one application. To be deemed as based in Nevada, an Applicant or Co-Applicant that is a natural person must be a resident of Nevada. If the Applicant or Co-Applicant is a business entity, it must meet the criteria below:

RATING FACTORS	POINTS
Threshold Requirement: Applicant/Co-Applicant is organized as a corporation, limited liability company, partnership or other business entity under the laws of the State of Nevada and has been in existence for at least 12 months prior to the Application Deadline.	
A. Applicant/Co-Applicant maintains an office in Nevada from which a general partner, managing partner, manager, president, chief financial officer, chief operating officer or other principal officer of the Applicant/Co-Applicant conducts business.	7
B. Applicant/Co-Applicant maintains at least one employee or staff member at an in-State office to ensure that a member of the general public may visit the office to substantively discuss matters relating to the project with one of the persons identified in (A.) above as well as the project representative identified within the application.	3

SECTION 14.7 NEVADA BASED PROJECTS BY AN OUT OF STATE BASED APPLICANT

A maximum of five points will be awarded to out of state Applicants/Co-Applicants if the following criteria are met:

RATING FACTORS	POINTS
Threshold Requirements: <ul style="list-style-type: none"> • The Applicant/Co-Applicants have successfully developed projects in Nevada within the past 10 years; • The Applicant/Co-Applicants are in good standing with all Division projects under the Tax Exempt Bond, HOME, Low Income Housing Trust Fund, and/or LIHTC programs; • The Applicant/Co-Applicant does not have any remaining unresolved compliance findings on a multi-family project in Nevada where all applicable § 42 based full correction or cure period(s) have expired. 	
A. One point will be given for each successful project in Nevada up to the maximum of 5 points.	
MAXIMUM OUT OF STATE POINTS	5

¹⁹ Recommended to provide 12 points for this category.

SECTION 14.8 AFFORDABILITY PERIOD

A maximum of four points will be awarded to Applicants/Co-Applicants that extend the period of affordability beyond the required 30 years. Applications will receive one preference point for each additional 5 year period of affordability, not to exceed 50 years.

RATING FACTOR	POINTS
One point for each 5 years of extended affordability.	
MAXIMUM AFFORDABILITY PERIOD POINTS	4

SECTION 14.9 WATER EFFICIENCY OF LANDSCAPE DESIGN

Five points will be awarded to projects that have at least 75% desert and/or xeriscaped landscaping. The Applicant/Co-Applicants must submit verification from an *architect or landscape architect* that the project satisfies the rating factor.

RATING FACTOR	POINTS
75% desert and/or xeriscaped landscaping.	
MAXIMUM LANDSCAPING DESIGN POINTS	5

SECTION 14.10 HISTORIC CHARACTERS

RATING FACTOR	POINTS
Project contributes to the historic preservation, documentation and/or use of cultural resources as determined by the Nevada State Historic Preservation Office (SHPO) including, but not limited to, adapting and/or renovating properties listed on the National or State Historic Registry. Must submit a letter from the SHPO indicating the above.	
MAXIMUM HISTORIC CHARACTER POINTS	3

SECTION 14.11 SMART DESIGNS

A maximum of 20 points will be awarded for Smart Design.

RATING FACTORS	POINTS
A. Site Location – Up to five points will be awarded.	
1) The site (or designated center of the site for scattered-site projects) is within ¼ mile of at least three of the following: grocery, pharmacy, bank, school, day care, parks, community centers, medical facilities, library, place of worship, post office (proximity to day care facilities is not applicable for Senior Housing projects).	2

2) The site (or designated center of the site for scattered-site projects) is within ¼ mile of a designated pedestrian/bicycle path aside from sidewalks.	1
3) The site is within ¼ mile of a local transit route or school bus stop (school bus stop is not applicable for Senior Housing projects).	1
4) The project’s capacity to serve as a stimulus for other development in the vicinity or to provide a needed residential population that may support nearby local businesses in the area and thus promote a more vibrant neighborhood environment (must submit with the application a letter from the Director of the local jurisdiction’s Community Development Department or their equivalent, stating the above and their support).	1
B. Up to eight points for the installation of renewable energy sources (e.g., photovoltaics, wind power). 1) Projects that offset the project’s <i>total estimated electricity demand</i> by 5% (four points), greater than 5% up to 10% (six points), greater than 10% to 15% (eight points). <i>Application must contain a report by an electrical engineer detailing the project’s projected energy demand and a plan for installing enough renewable energy to produce the energy offset required.</i>	8
C. One point for each item used: interior paint with no Volatile Organic Compounds (VOC); low VOC carpeting, padding; low VOC adhesives; low-urea-formaldehyde particle board, <u>installed kitchen and bath cabinets are low VOC.</u> (VOC and urea-formaldehyde limits to be CARB compliant or are in accordance with International Code Council Green Building Standards for low VOC projects.)	4
D. One point for foam board wall sheathing used on exterior walls (minimum R-4 in southern Nevada and R-5 in northern Nevada), or for blow-in/spray fiberglass, cellulose or foam wall insulation.	1
E. Two points for structural insulated panels (SIPs) or insulated concrete forms.	2
F. One point for Energy Star qualifying gas tankless, heat pump, solar or gas condensing hot water heaters. Commercial water heaters or boilers: One point for appliances with a thermal efficiency of 94% or higher. <i>(To receive points in this category the appliances must conform to Division Energy Standards and be approved by the Division no later than 30 days prior to application submittal).</i>	1
G. One point for EPA WaterSense toilets or comparable devices. <i>(To receive points in this category the appliances must be approved by the Division no later than 30 days prior to application submittal.)</i>	1
H. Nevada products – projects can demonstrate the use of products and goods manufactured by Nevada-based corporations that are incorporated	2

into the development (must submit a list of Nevada-based corporations and products that will be utilized in the development) Must certify as to their use at project completion.	
I. Nevada based companies – Applicant/Co-Applicants agree to employ at least two third-party Nevada based companies (contractors, accountants, attorneys, architects, etc.) in the development process.	2
II. Must certify as to their use at project completion.	
MAXIMUM SMART DESIGN POINTS	20

1
2
3

SECTION 14.12 SUPERIOR PROJECT/APPLICATION POINTS

RATING FACTORS	POINTS								
<p>A. Project is anticipated to most efficiently use tax credit resources as measured by multiplying 1.5 persons per bedroom x # of bedrooms; and dividing the total number of people into the amount of tax credits requested. The project with the lowest amount of tax credits per person receives 6 points, the second lowest receives 3 points. The 6/3 points is available to only two projects each in the Clark County, Washoe County, Other counties, USDA, and Northern Nevada Expansion Housing initiative set-asides.</p> <p>Ex. Total # of bedrooms in the project = 85 x 1.5 people = 127.5 persons Total credits requested = \$1,000,000 TCs per person = 127.5/1,000,000 = 7,843.14 Studios = 1.0 person/studio.</p>	6/3								
<p>B²⁰. Project has most efficient use of tax credits. Cost Per Unit Preference points: Projects showing the most efficient use of tax credits by having the lowest overall cost (excluding land acquisition costs; include conditioned and unconditioned common area costs) per unit will be awarded preference points based on the following:</p> <p>Clark County New construction:</p> <table style="margin-left: 40px;"> <tr> <td>\$130,000- \$135,000 (or lower)</td> <td>8 preference points</td> </tr> <tr> <td>\$135,001-\$140,000</td> <td>6 preference points</td> </tr> <tr> <td>\$140,001-\$145,000</td> <td>4 preference points</td> </tr> <tr> <td>\$145,001-\$155,000</td> <td>1 preference point</td> </tr> </table> <p>Acquisition/rehab projects</p>	\$130,000- \$135,000 (or lower)	8 preference points	\$135,001-\$140,000	6 preference points	\$140,001-\$145,000	4 preference points	\$145,001-\$155,000	1 preference point	From 0 Up to a maximum of 8
\$130,000- \$135,000 (or lower)	8 preference points								
\$135,001-\$140,000	6 preference points								
\$140,001-\$145,000	4 preference points								
\$145,001-\$155,000	1 preference point								

²⁰ Proposed for 2016 to use Eligible Basis / Total Project Square Footage. 5, 3, 1 pts for new and 5, 3 and 1 for Acq/Rehab.

<p>\$95,000-\$100,000 (or lower) 8 preference points \$100,001-\$105,000 6 preference points \$105,001-\$110,000 4 preference points \$110,001-\$120,000 1 preference point</p> <p>Washoe and all other counties New construction:</p> <p>\$190,000- \$195,000 (or lower) 8 preference points \$195,001-\$200,000 6 preference points \$200,001-\$205,000 4 preference points \$205,001-\$210,000 1 preference point</p> <p>Acquisition/rehab projects</p> <p>\$95,000-\$100,000 (or lower) 8 preference points \$100,001-\$105,000 6 preference points \$105,001-\$110,000 4 preference points \$110,001-\$120,000 1 preference point</p> <p>*Projects allocated credits in 2016 and winning points in Sections 14.12 A and/or B above will not be eligible for additional credits in the 2017 and/or 2018 round</p>	
C. Project includes the acquisition/rehabilitation of a foreclosed, vacant, or abandoned building, or the reuse/conversion of an existing non-residential building. Awarded to any eligible project ²¹ .	8
D. Project includes the acquisition/rehabilitation of an existing multi-family or scattered-site project that will preserve existing affordable housing.	5
E. Project includes the preservation of existing LIHTC units. Must demonstrate that the existing rents are at least 20% under comparable market rents for units within the PSA as defined in the market study.	3
F. Applicant/Co-Applicant or Project Owner or Sponsor paid electric, gas, and heating and/or cooling utility charges. ²²	4
MAXIMUM SUPERIOR PROJECT/APPLICATION POINTS	24

1

²¹ Proposed to remove Item D.

²² In the 2016 QAP, points in this area may be conditioned upon the submittal of an energy savings property management plan.

1 **SECTION 14.13 PROJECT TYPE PRIORITIES**

2

3 The project types in this section reflect the Division’s housing priority types for 2016.
4 Applications will be grouped according to project type within each geographic sub-account and
5 compete for the points available for project type. The two highest-scoring projects will be
6 awarded points. The application with the highest score will receive the maximum points available
7 to the project type, 10 points. The application with the second highest score will receive 5 points.

8

9 **A. Senior Housing Age 55 and Older**

10 These projects will be ranked based upon the average per unit square footage in the project
11 subject to the following requirements. For new construction, studio and one-bedroom units
12 cannot exceed 650 square feet and no other unit, regardless of the number of bedrooms, can
13 exceed 850²³ square feet additionally, at least 10% and no greater than 40 percent of the total
14 units in the project may be two-bedroom units. Acquisition and rehabilitation projects are not
15 subject to the unit mix and unit square footage limits.

16

17 However, the average square footage calculation will be capped for all senior projects at 730
18 square feet (i.e. 60% @ 650 square feet plus 40% @ 850 square feet. The square footage is
19 calculated based on indoor, conditioned space. Any references within the QAP to unit square
20 footage are based on indoor, conditioned space.

21

22 For example, a Senior Housing project of 50 units with 30 studio apartments, averaging 450
23 square feet (for a total of 13,500 square feet), 10 one-bedroom apartments averaging 650 square
24 feet (for a total of 6,000 square feet), and 10 two-bedroom apartments averaging 750 square
25 feet (for a total of 7,500 square feet) has an average project unit size of 540 square feet (27,000
26 square feet cumulative of all units/50 units). Unrestricted units are included in the residential
27 square footage calculation and must conform with the number and size restrictions.

28

29 The project with the highest average per unit square footage will receive **10** points; the second
30 highest scoring project will receive **5** points. If a tie occurs, the tie breaker criteria listed in the
31 Tie Breakers Section, will be used to identify the highest and second highest scoring projects.

32

33 **B. Special Needs Housing Projects**

34 These projects will be ranked based upon the experience of the Applicant/Co-Applicant in
35 developing special needs housing and/or delivering the services related to the special need. The
36 Applicant/Co-Applicant must submit a list of all of the housing units developed in chronological
37 order commencing with the year the first project was placed in to service. The Applicant/Co-
38 Applicant must have a minimum of three years’ experience verified by a dated document, such
39 as the articles of incorporation, showing the number of years that the organization has provided
40 the service.

41

²³ It is requested to set this equal to the Project for Individuals maximum of 700sf. Because these are different project types the differences will remain for the 2015 QAP.

1 Applications will be ranked on the following factors: (1) the number of months of experience will
 2 be weighted by 70%; (2) the number of housing units developed will be weighted by 30%.

3
 4 In the example below, Applicant One possesses 12 years of experience providing services to
 5 homeless individuals and has produced 250 units of transitional housing. Applicant Two
 6 possesses seven years of experience providing services to developmentally disabled people and
 7 has produced 300 units of housing for the developmentally disabled. The scoring is as follows:
 8

APPLICANT ONE	APPLICANT TWO
144 months x .70 = 100.8	84 months x .70 = 58.8
250 units x .30 = 75	300 units x .30 = 90
Total = 175.8	Total = 148.8

9
 10 The highest score as calculated above will receive **10** points; the second highest score will receive
 11 **5** points.

12
 13 **C. Projects for Individuals**

14
 15 Only 2 bdrm., 1 bdrm. and studios allowed. No unit shall exceed 850 sq. ft. Studios and 1
 16 bdrm. units will not exceed 650 sq. ft., and studios are restricted to no more than 50% of the
 17 total number of units in the project. Two bedroom units will be limited to 10% of the total
 18 number of units in the project. The project with the highest residential square footage in the
 19 project will receive 10 points, the next highest will receive 5 points. Unrestricted units are
 20 included in the residential sq. ft. calculation and must conform with the number and size
 21 restrictions.

22
 23 **Example:**

24
 25 Applicant #1 Applicant #2

26
 27 **ALTERNATIVE PROPOSED:**

28 50 studios @ 600 sq. ft. = 30,000 90 1 bdrm. at 650 sq. ft. = 58,500
 29 10 2 bdrm @ 850 sq. ft. = 8,500 75 restricted, 15 market
 30 40 1 bdrm @ 650 sq. ft. = 26,000

31
 32 Total 64,500 58,500

33
 34 Applicant #1 receives 10 points, applicant # 2 receives 5 points
 35

36 **D. Projects for Individuals with Children/Families with**

37 These projects will be ranked based on the average residential per unit square footage included
 38 in the project; to be determined by calculating the total amount of residential square footage in
 39 the project; divided by the total number of units. In the event that two or more projects within
 40 this project type category have the same square footage, the Division will break the tie by

1 determining which proposal leverages the greatest level of non - Tax Credit funding. This will be
2 determined by dividing the total amount of Tax Credits requested by the total project costs. The
3 project with the lowest percentage of Tax Credits to total project cost will be the successful
4 project.

5
6 The application with the highest per unit square footage in the project will receive 10 points; the
7 second highest scoring project will receive 5 points. **Unrestricted units are included in the**
8 **residential sq. ft. calculation.**

9
10 **E. Mixed Income/Mixed Use Projects**

11
12 1) Mixed Income Projects will be ranked based upon the percentage of market-rate units in the
13 project that exceed the minimum requirement of 10%. The square footage and bedroom size of
14 both the market-rate and restricted units *must* be proportional. Targeting smaller units with
15 fewer bedrooms as Tax Credit units will not be allowed. For example, if a 60 unit project with 30
16 market rate units (50%) is 30,000 square feet. and has 90 bedrooms, the amount of square
17 footage and number of bedrooms should be equal to the square footage and number of
18 bedrooms in the market-rate units.

19
20 Restricted units may be confined to specific building(s) in the project as long as the square
21 footage and unit mix is proportional to the market-rate units. However, the buildings must be
22 equally placed within the project and have full access to project amenities. The project with the
23 highest percentage of market-rate units will receive 10 points; the project with the second
24 highest percentage will receive five points.

25
26 Mixed Use Projects will be ranked on the highest percentage of square footage in the project. In
27 the event that two or more projects within this project type category have the same percentage,
28 the Division will break the tie by determining which proposal leverages the greatest level on non-
29 Tax Credit funding. This will be determined by dividing the total amount of Tax Credits requested
30 by the total project costs. The project with the lowest percentage of Tax Credits to total project
31 cost will be the successful project. The application with the highest percentage of residential
32 square footage in the project will receive 10 points; the second highest scoring project will
33 receive five points.

34
35 **F. Residential Property in a Commercial Zone.**

36
37 Residential property in a commercial zone will be ranked based on the total sq. footage of
38 residential space in the development; to be determined by calculating the total amount of
39 residential square footage in the project; divided by the total number of units. The project with
40 the highest amount of residential sq. footage will receive 10 pts.; the project with the second
41 highest will receive 5 pts.

42
43 **G. Northern Nevada Housing Expansion Set-Aside**

44 This allocation will be processed in a separate round.

H. Housing for Veterans

Veterans Preference

All project types are eligible for Veteran Housing preference points. Projects will be awarded 1 point for providing a preference of a minimum of 10% of the total number of restricted and unrestricted units targeted for households in which at least one household member is a Veteran. Said preference must be included as part of Applicant’s tenant selection plan. *(This commitment is for a preference with an available unit and not for any designated unique unit set-aside.)* This includes consistent and continuous proof of outreach to Veterans and the ability to show the Division which units were given the preference for Veterans (which may include changes in units).

SECTION 14.14 SPECIAL SCORING FACTORS

Special Scoring Factors in Subsections 14.14.1 through 14.14.6 reflect additional policy objectives established by the Division. The Division identified a limited number of factors considered essential to targeting the development of low income persons, expanding the level of services available to at-risk households, and providing incentives for keeping project costs down. All applications will be independently scored for each of the seven Special Scoring Factors.

SECTION 14.14.1 LOW RENT TARGETING

Points will be awarded based upon the overall rent targeting in the project. A project’s overall rent level is determined by multiplying the percentage of the total units within each rent level(s) by the rent income level percentage.

For example:

	PROJECT ONE	PROJECT TWO	PROJECT THREE
NUMBER OF UNITS	40	40	52
DISTRIBUTION OF UNIT RENTS	All with 40% rents	15 with 40% rents 25 with 45% rents	All with 45%
SCORING	100% x .40	37.5% x .40 = .15 plus 62.5% x .45 = .2813 = .3875	100% x .45 = .4500
SCORE	.4	.4313	.4500

29
30

1 **A. All Projects except Rent to Own**

2
3 Special scoring points will be awarded in the amounts specified in the following table.

4

RATING FACTORS	POINTS
>.30 and <.35	8
.35 and <.40	6
.40 and <.45	4
.45 and <.50	2
MAXIMUM LOW INCOME TARGETING POINTS FOR ALL PROJECTS EXCEPT RENT TO OWN	8

5
6 **B. Rent to Own Projects Only**

7

RATING FACTORS	POINTS
.60 - 100% of units at 60% income rent level or below.	6
>.60 - Projects with less than 100% of units at 60% income rent level or below.	4
MAXIMUM LOW INCOME TARGETING POINTS FOR RENT TO OWN PROJECTS ONLY	6

8
9 **SECTION 14.14.2 LOW INCOME TARGETING**

10
11 This special scoring factor awards two points to projects that restrict rents/and incomes to not
12 exceed the 50% area median income limit for all LIHTC units. Project owners may still opt for the
13 40/60 set aside, however, the declaration of restrictive covenants will reflect that all incomes
14 /rents in the project will not exceed 50% AMI.

15 *Applicant/Co-Applicants must submit a signed letter indicating this as back-up documentation for*
16 *the preference points. Points will not be awarded for merely selecting this option on the*
17 *application.*

18
19 **SECTION 14.14.3 SUPPORTIVE SERVICES**

20
21 A maximum of eight points will be awarded based upon the number of supportive services
22 provided to tenants. All supportive services must comply with all local, state and federal laws
23 and regulations that include, but are not limited to licensing, permits, and certification, bonding
24 and insurance requirements.

25
26 *The Applicant/Co-Applicant must document how the service will be provided and paid for in order*
27 *to receive the points for a requested supportive service. The service must be available to all tenant*
28 *families for the minimum times stated below. There will be no mandatory fees for the basics*
29 *service. Any fee required will be at the discretion of the Division.*

1 Applicant/Co-Applicant must provide the service for the initial IRS 15 year compliance period and
 2 must not allow more than a 30 day gap in service provided. The Applicant/Co-Applicant must
 3 notify the Division within 7 days of the termination of service agreements/contracts. The project
 4 will be considered out of compliance if there is no new service contract executed by the time the
 5 development is audited.

6
 7 Special scoring points are awarded as described below²⁴:
 8

RATING FACTORS	POINTS
A. Transportation services – on-site van service with minimum three-day per week operating schedule.	2
B. On-site service coordinator for minimum 20 hours per week (on-site office must be provided).	2
C. On-site service coordinator for minimum 40 hours per week (on-site office must be provided).	4
MAXIMUM SUPPORTIVE SERVICES POINTS	6

9
 10 **SECTION 14.14.4 LOWEST DEVELOPER FEES**
 11

12 A maximum of five special scoring points will be awarded to applications with Developer Fees
 13 below 15% of the eligible basis. Points will be awarded on the basis of one point for each 1%
 14 reduction in developer fee up to a maximum of five points. The Developer Fee will be calculated
 15 based on the figures provided in the budget contained in the main application. Applicants do not
 16 have to submit additional back-up. It is the responsibility of the Applicant/Co-Applicants to
 17 ensure the correct figures are contained within the project budget. Staff will not change scoring
 18 due to transposed numbers or incorrect figures in the budget.
 19

20 The Developer Fee *must* not exclude 15% of eligible basis of the project excluding the Developer
 21 Fee. The fee includes profit and overhead of the Applicant/Co-Applicant, in addition to fees for
 22 consultants/processing agents. The Developer Fee will no longer be calculated utilizing the 30%
 23 Metropolitan/Non-Metropolitan DDA / QCT boost and/or the state authorized basis boost in the
 24 2016 QAP.
 25

26 *The cost certification must reflect the Developer Fee percentage disclosed within the original*
 27 *application and may not be changed for any reason.* Staff will take the Developer Fee percentage
 28 to two decimal places and will not round up or down. The amount of the Developer fee may
 29 change (increase) as long as it does not deviate from the percentage claimed in the original
 30 application (carried to three decimal places).
 31

²⁴ Proposed for review in 2016 QAP regarding: 2 points—Service Coordinator; 2 pts—Classes; 2 pts—Health and wellness services and programs; 2 pts Transportation Services; 2 pts—After school program.

B. 11.0% to 11.99%	4
C. 12.0% to 12.99%	3
D 13.0% to 13.99%	2
E 14.0% to 14.99%	1
F. 15%	0

SECTION 14.14.5 LOW CONTRACTOR FEE

A maximum of five special scoring points will be awarded to applications with contractor fees below 14% of the total cost of construction. Points will be awarded on a basis of 1 point for each 1% in reduction in contractor fee up to a maximum of five points. The contractor fee will be calculated based upon the figures provided in the budget contained in the main application. Applicants/Co Applicants do not have to submit additional back-up. It is the responsibility of the Applicant/Co-Applicants' responsibility to ensure the correct figures are contained within the project budget. Staff will not change scoring due to transposed or incorrect figures in the budget. Staff will take the calculated contractor fee percentage to two decimal places and will not round up or down.

The original contractor fee (in percentage terms) must be reflected at the time of application and that percentage must be forwarded only if the project is awarded additional Tax Credits. Contractor fee including the contractor's profit, overhead and general requirements *must not* exceed 14% of the total cost of construction of the project. Total construction costs are limited to on-site work, off-site improvements, the construction of new structures/accessory buildings, and the rehabilitation of existing structures/equipment/furnishings.

The Division considers contractor fees greater than 14% excessive. Any contractor fee in excess of 14% will be taken out of the Gap Calculation for determination of the Final Tax Credit allocation and issuance of IRS Form 8609. Construction of costs will be limited to on-site work, off-site improvements, and the construction of new structures/accessory buildings and/or rehabilitation of existing structures and mandated off-site improvements. The amount of the Contractor fee may change (increase) as long as it does not deviate from the percentage claimed in the original application (carried to three decimal places).

RATING FACTORS	POINTS
A. Less than 10%	5
B. 10.0% to 10.99%	4
C. 11.0% to 11.99%	3
D 12.0% to 12.99%	2

F. 14%	0

1 **SECTION 14.14.6 AFFORDABLE HOUSING INCENTIVE**

2
3
4
5
6
7
8
9

A maximum of seven points will be awarded based upon the level of additional resources, funding leveraged by Tax Credits or effective use of conventional financing. The two factors below can be met individually or collectively to receive the special scoring points. Additional contributions may include land donations and funding commitments made by local governments, non-profit organizations and private businesses. Eligibility: only loans or grants from the following sources will qualify for points under this section.

RATING FACTORS	POINTS
A. An arm’s length donation of land from any governmental or private source or a parcel of land transferred at a nominal cost from a governmental unit or private source of a long-term lease of at least 50 years provided to the Applicant/Co-Applicants at a nominal or discounted costs from a governmental unit (federal, state or local). ²⁵	2
B. Funding, aside from those included in “A” above from governmental, non-profit, and/or private sources. Sources are limited to: 1) The local PHA 2) Community Development Block Grant (CDBG) program funds 3) HUD 202 or 811 4) Federal Home Loan Bank Affordable Housing Program (AHP) 5) Established local government housing development funds (i.e., HOME, LIHTF, or RDA) 6) Bureau of Indian Affairs 7) 3 rd Party (non-related) and non-mortgage funds or grants. >20.01% of total project costs = 5 points, 5.01% to 20.00% of total project cost = 3 points, 5.00% or less of total project cost = 1 point.	5/3/1
MAXIMUM AFFORDABLE HOUSING INCENTIVE POINTS	7

10
11
12
13
14
15
16
17

Other sources of funding may qualify *provided they are approved in writing in advance* by the Division (approval of a particular source in prior years does not meet this requirement). Adjustments to the purchase price of the land by the seller are not sources of mortgage subsidy. Staff will take percentages to two decimal and will not round up or down. Applicants are required to submit a letter of commitment or interest from their funding sources.

²⁵ Discounts on land sales >50.01% Points for discounted land may be eliminated or adjusted in the 2016 or the discount amount may change. It is also proposed that discounted land should receive more points than donated land. It is also proposed that developers not receive points for donated land unless received through an RFP process. Lowest cost per unit metric may need to exclude land due to the variety of land sources.

1 **SECTION 14.15 TIE BREAKERS**

2

3 In the event that one or more projects competing for Tax Credits in the same set-aside or
4 geographical account receives an identical number of points, the Division will break the tie by
5 determining which proposal leverages the greatest amount of non-Tax Credit funding. This will
6 be determined by dividing the gross total amount of non Tax Credit funding (over the 10 year
7 period, undiscounted and otherwise unadjusted) by the Adjusted Total Project Costs (including
8 land costs and excluding Developer Fees). The project with the highest ratio of non-Tax Credit
9 funding to Adjusted Total Project Costs will win the tie break. If the above fails to break the tie,
10 the Division will conduct a lottery pursuant to NAC 319.990.

11

12 **SECTION 14.16 COMPLIANCE HISTORY POINTS**

13 If the Division determines that any outstanding compliance violations are not material and if
14 the Applicant/Co-Applicant has cured the violations or proceeds to cure such violations within
15 10 business days of notice from the Division of the violation, instead of rejecting the
16 application, the Division may make a reduction of five (5) points in the point total for each
17 application submitted for all rounds for the year, should the application satisfy the remainder of
18 the Threshold Requirements.

1 **PROJECT DEVELOPMENT INFORMATION**

2
3 **SECTION 15 OPERATING EXPENSES**

4
5 Project operating expenses not exceeding **\$375** per unit/month are typical for projects in Nevada
6 and considered acceptable by the Division. Applications for projects with operating expenses
7 higher than the \$375 must include an explanation of why the expenses are higher. The Division
8 reserves the right to adjust Tax Credits on projects with operating expenses greater than the
9 **\$375.**

10
11 **SECTION 16 ESTIMATION OF UTILITY ALLOWANCE**

12
13 At the time of application, the Applicant/Co-Applicants must estimate the amount of utility
14 allowance applicable to each unit, considering the square footage of the unit and the proposed
15 source of energy in accordance with Treasury Regulations Section 1.42-10. The Applicant/Co-
16 Applicants assumes the risk that these estimates are reasonable and supportive. At the time the
17 project is placed in service, the Applicant/Co-Applicants must provide evidence that the utility
18 allowance conforms to the requirements of the Code and Treasury Regulation. Failure to do so
19 will result in forfeiture of the Tax Credits.

20
21 The Applicant/Co-Applicant may provide a survey of actual utilities being paid in the area or use
22 the PHA utility allowance for the area, or with the Division staff approval, use the HUD Utility
23 Model or an alternate method allowable per the Utility Allowance Regulations contained in the
24 Federal Register, Volume 73, No. 146, July 29, 2008. Surveys must: (1) have been conducted
25 within 12 months of the application; (2) sampled units must be located within a radius of 50 miles
26 from the proposed project location; (3) sampled units must be similar in size, within 10% based
27 on unit square footage, to those in the project; (4) include a sample size of at least 10 units;(5)
28 the energy source must be the same as proposed for the project; and (6) include the address and
29 square footage of each unit surveyed.

30
31 The Project Sponsor of Energy Star projects that have met the 86> REMS measure may request a
32 HERS rated sample of the project. The sample must conform the Division’s Energy Requirements
33 guidelines (i.e., 15% of the units must be tested). The Division will require an update to the
34 testing every third year. The utility allowance will not apply to any Housing Choice Voucher
35 and/or HOME funded units if not allowed by the local funding jurisdiction.

SECTION 17 ADJUSTMENTS TO ELIGIBLE BASIS

As mentioned in the October 3 2014 Federal Registry notice, HUD announced it will change DDA designations for metropolitan areas beginning in 2016 from DDA to Small Area Difficult Development Area (SADDA). New SADDA designations will be determined on a ZIP-code basis instead of the current county basis. HUD created a mapping tool that uses 2012 information and shows the hypothetical 2015 SADDAs in major metropolitan areas. The HUD SADDA mapping tool can be found online at www.huduser.org/sadda/sadda.html. Applicant/Co-Applicants with projects located in these hypothetical SADDAs are authorized to utilize 130% of eligible basis as a factor in determining the adjusted eligible basis for the 2016 QAP. Any changes to SADDA designations subsequently made by HUD that are applicable to the 2016 Tax Credit application period, will be incorporated into the 2016 QAP following publication in the Federal Register or other appropriate notice.

*Please note nonmetropolitan areas will not be affected

Non-Metropolitan Areas	
	Elko County 9515.00, 9517.00 Lyon County 9602.02, 9603.01 Mineral County 9708.00 Nye County 9603.00
Difficult to Develop Areas	
	Mineral County

As allowed in HERA, the Division will designate additional DDAs and/or projects and/or buildings eligible to 130% of eligible basis as a factor in determining the eligible basis. An Applicant/Co-Applicants with projects meeting the criteria set forth below must submit a request to implement the “boost” in their application **at least 45 days prior to the Application Deadline**. The Division staff will approve boost requests at least 30 days prior to application deadline. The Division approval does not signify that boost credits will be awarded and only signifies that a project meets one or more of the eligibility criteria to claim the boost included below. The Administrator may retroactively allow for the boost in unique situations. Staff can authorize up to a 30% boost for projects that have the following project criteria:²⁶

- 1.) Projects which provide deep rent targeting in which the rent for all restricted units in the project does not exceed 45% of the Area Median Income Rent Level (maximum of 15% of the units may be market rate)
- 2.) Projects in non-CDBG eligible communities.

²⁶ Staff will review all requests for the basis boost and may award a boost of up to 30% based upon the Division’s housing priorities, the amount of boost funds requested for the project and from all projects, the amount of Tax Credits available, and project need.

1 3.) Projects designated in a special set-aside provision in the QAP. The 2016 QAP has
2 designated the **Northern Nevada Expansion Set-Aside** project to be eligible for the
3 30% basis boost.
4

5 **SECTION 18 MAXIMUM AMOUNTS OF TAX CREDITS AWARDED AND POST**
6 **AWARD PROCESS**
7

8 A. Project Cap/Maximum Reservation
9

- 10 1) Project Cap. The Division will cap the total amount of Tax Credits to any one Applicant at
11 **\$1,000,000**. An Applicant may submit more than one (1) Project application under the 2016
12 QAP; however, the Division will not award more than **\$1,000,000** in Tax Credits (the
13 “Maximum Allocation”) to any one Applicant, whether they are applying solely for their own
14 project or are a party to multiple project applications. For the purposes of the Maximum
15 Allocation, the term “Applicant” includes the Applicant, Co-Applicant, and any affiliate of the
16 Applicant or any Co-Applicant.
17
- 18 2) The Division’s analysis and determination of whether the Maximum Allocation has been
19 exceeded will include, but not be limited to, determining how the Developer Fee is split, who
20 is being paid consulting fees,²⁷ and who is authorized to make decisions as, or on behalf of,
21 the Applicant/Co-Applicants and proposed Project Sponsor(s). All entities including, but not
22 limited to, the Sponsor, Applicant, Consultant, Equity Investors, and other Project Participants
23 must disclose the portion of consulting and development fees they are being paid as part of
24 the application.
25
- 26 3) The Division reserves the right to award more than **\$1,000,000**, of Tax Credits to projects
27 financed by the Tax Exempt Bond Program, if the program complies with all of the Division’s
28 policies, procedures and all state and federal regulations and laws. This section applies to
29 current year projects and does not include additional credit requests.
30
- 31 4) The Administrator may temporarily increase or lift the Project Cap and the Maximum
32 Allocation for all new project submissions and requests for additional Tax Credits to address
33 market downturns and/or other financial situations when such action would assist in keeping
34 the Tax Credit program viable and supporting housing projects that create affordable
35 housing. Any changes to the Project Cap and Maximum Allocation will be noticed
36 simultaneously or separately on the Division’s website at least 45 days prior to the Application
37 Deadline.
38

39 The Administrator may increase and/or transfer funds between set-asides and geographic
40 apportionments to ensure the ability to fund projects to a high enough level for viability.
41

²⁷ For example, the Division notes the North Carolina HFA QAP: “The total amount of any consulting fees and developer fees shall be no more than the maximum developer fee allowed to that project.” 2014 QAP-NC, page 26.

1 B. Multiple Project Phases

2
3 Projects that are phased in from one Tax Credit plan year to another will not be considered as
4 one project for the purposes of the maximum. For example, if an Applicant receives Tax Credits
5 on a project this year and next year qualifies and is appropriately ranked for an expansion of a
6 new phase of the existing project, the Applicant may receive the Maximum Allocation of Tax
7 Credits for the new phase.

8
9 C. Tax Credit Return

10
11 The Applicant/Co-Applicant may voluntarily return Tax Credit awards *before the notification of*
12 *the Carryover Allocation*. For the purposes of this section, the Carryover Allocation notice for the
13 **2016** projects will be **Friday, November 6, 2016**. If the Applicant/Co-Applicant decides to return
14 the Tax Credits on or before the date specified in this section, the return will be considered
15 voluntary. If a project receives a Carryover Allocation and the Project Sponsor returns Tax Credits
16 after the date specified in this section, the return will be considered involuntary. In such cases,
17 the Project Sponsor may be barred from participating in future Tax Credit funding rounds for the
18 remainder of the 2016 Tax Credit year and the subsequent Tax Credit year.

19
20 D. Conditional Reservation

21
22 The Division reserves the right to award conditional reservations to projects that have
23 outstanding issues as identified by staff, at the time of reservation. This includes, but is not
24 limited to, outstanding legal issues currently under review, related vacancy issues at nearby
25 properties that may negatively impact the viability of the Tax Credit project, or other matters.
26 Reservations are also subject to final underwriting in the Division's Tax Credit analysis Application
27 Orientation Design (AOD)/ Emphasys program and may be amended as a result of that
28 underwriting.

29
30 Any project receiving a conditional reservation must cure all conditions by the Carryover
31 Allocation deadline or any other deadline noted in the reservation letter or the reservation will
32 be cancelled. The Administrator may extend this deadline for extenuating circumstances.

33
34 **SECTION 19 FINAL TAX ALLOCATIONS OF TAX CREDITS**

35
36 Once all of the buildings in the project are placed in service, the Project Sponsor may request the
37 final allocation and IRS form(s) 8609. The following information needs to be completed to receive
38 the IRS form(s) 8609:

- 39
40 1) Final application with all source/uses/budget information updated.
41
42 2) CPA certification of costs. *The Division will consider the initial CPA Certification of Costs as the*
43 *true and correct document for the issuance of IRS form 8609.*
44

1 3) Final energy analysis, inspection and payment. *The final energy analysis and inspection must*
2 *show that all of the energy saving measures identified in the pre-energy analysis has been*
3 *installed.*

4
5 4) Pre-8609 inspection by the Division. *The inspection will include a review of proposed unit mix*
6 *and amenities in the application and completeness of construction.*

7
8 5) Comply with Section 48, Lease-Up Requirement, and timely curing of identified non-
9 compliance.

10
11 6) Letter certifying permanent financing is in place.

12
13 7) Letter acknowledging project has met American with Disabilities Act (ADA) and Fair Housing
14 accessibility design standards.

15
16 8) The CPA cost breakdown must be submitted in a manner that is consistent with data input to
17 the AOD/Emphasys Forms will be attached to the Final Allocation Application.

18
19 9) Tax Credit reduction due to unmet representations as stated in Section 12, I, Mandatory
20 Energy Conservation Requirements. The reduction in credit will be based upon the percentage
21 of scoring that is not met when final testing or certification of the project is complete (e.g.,
22 scoring stated two points for tankless hot water heater and triple pane low E windows, 2 points
23 on a total point scoring of 130 points; two points equals 1.5% of 130 points. Tax Credit Allocation
24 \$750,000 1.5% of \$750,000 is \$11,250 of Tax Credits or a reduction of \$11,250 of Tax Credits.

25 26 **SECTION 20 TAX CREDIT MONITORING**

27
28 As of July 1, 2001, all compliance monitoring will require habitability inspection as per Treasury
29 Regulation 1.42.5. The Division has adopted the Uniform Physical Condition Standards
30 established by HUD as the applicable standard for conducting physical inspections and
31 determining compliance with IRS habitability requirements.

32 33 **Project Physical Conditions Standards**

34 The project *must* provide decent, safe and sanitary housing for low-income persons as set forth
35 in applicable federal and state statutes and regulations during the compliance period. Effective
36 July 1, 2004, the Division uses the UPCS, published by HUD to determine whether the LIHTC
37 projects remain suitable for occupancy. HUD's UPCS (24 CFR 5.703) can be accessed at
38 www.hudclips.org.

1 **SECTION 21 FEES**

2
3 All fees paid to the Division are non-refundable.

4
5 A. Application Fee

6 The application fee is **\$3,000** for both Tax Credit and 4% Bond projects. Bond projects are
7 required to pay this fee upon submission of their application for the 4% credits and 8609s. This
8 fee is in addition to the Cost of Issuance fee(s).

9
10 B. Reservation Fee

11 A reservation fee equal to 9.5% of the Tax Credits reservation amount is payable at the time the
12 Division reserves the Tax Credits for the project. Non-profits that are not joint-venturing or in
13 partnership with a for-profit Project Sponsor have the option of paying 4.75% no later than six
14 months after the date of reservation. This fee also applies to Bond projects requesting 4% credits.
15 This fee is in addition to the Cost of Issuance fee(s). The reservation fee is due upon receipt of
16 the reservation letter and must be paid within 14 days of the date of the reservation letter.

17
18 C. Carryover Allocation Fee

19 An administrative fee of \$3,000 will be charged for each Carryover Allocation letter issued by the
20 Division. The federal tax identification number of the Applicant/Co-Applicants must be supplied
21 at the time the Carryover Allocation commitment is requested.

22
23 D. Compliance Monitoring Fee

24 An annual fee of **\$40** for each low-income unit will be charged during the compliance period. The
25 first annual Compliance Monitoring Fee is due and payable when the project is placed in service.
26 Thereafter, annual Compliance Monitoring Fees must be paid on or before January 31 of each
27 year for the remaining compliance period including any extended use period. The Division
28 reserves the right to adjust monitoring fees as necessary on a project-by-project basis to cover
29 the cost and expense of monitoring compliance.

30
31 E. Compliance Training Fee

32 A fee of \$100 per person will now be required to attend the Division's annual Tax Credit
33 Compliance Training. The one-day training session, usually conducted in March, April, or May of
34 each year, is held in Las Vegas and Carson City/Reno. Attendance is mandatory for all on-site
35 property managers. Notice of the annual training sessions will be announced once a date and
36 site are determined. Additional training cost will vary by training subject and will be posted on
37 the website.

38
39 F. Compliance Monitoring Fee for Second Audit

40 If a property receives an audit in which the property is substantially out of compliance and
41 Division staff must re-monitor files after corrections are submitted or re-inspect units, there will
42 be an additional audit fee equal to the per unit monitoring fee for each unit/file that requires a
43 second audit.

1 **G. Legal Fees**

2 If an Applicant/Co-Applicant requests review of a decision of the Division, or if after an allocation
3 of Tax Credits, a Project Sponsor requests a waiver or variance from a QAP requirement, any
4 change in the project from what was described in the application, or a similar matter, for which
5 the Division determines that legal advice or review is necessary the Division shall be entitled to
6 bill the Applicant/Co-Applicant or Project Sponsor, as applicable, for the legal service at up to a
7 rate of \$300 per hour. Legal fees must be paid for any time legal spends reviewing an item.

8
9 The Division shall also be entitled to recover its attorney's fees, costs and expenses, including
10 court reporter and transcription costs, in any appeal, litigation, arbitration, mediation or other
11 proceeding arising from, as a result of, or pursuant to the 2016 QAP, and/or the resulting Tax
12 Credit allocation round, selection process or award determination process, regardless of who
13 initiated or prevails in the litigation, arbitration, mediation or other proceeding.

14
15 **H. Energy Analysis Fees**

16 The 2016 QAP requires Project Sponsors to comply with the Division's Energy Efficiency
17 Requirements. Sponsors are required to meet pre- and post -construction energy analysis for
18 new construction or rehabilitation projects.

19
20 The energy analysis is contracted by the Division with an independent certified energy-auditing
21 contractor. The Project Sponsor will reimburse the Division the costs of the energy analysis at a
22 rate of **\$1000** for pre-construction analysis and **\$250** a unit with a minimum of 15% of the project
23 being subject to the energy analysis for construction and post construction audits. The energy
24 analysis fee will be assessed mileage and per diem charges at the state rate. If additional testing
25 is required, fees will be due at the time of the re-testing. The \$1,000 fee is due at time of energy
26 analysis submission. The \$250-per unit 15% fee is due when testing is completed and must be
27 paid before issuance of the 8609 form.

28
29 **I. Extension Fees**

30 The Division will require that a fee of \$3,000 be submitted with the request for a 45 day extension
31 to the 270 day closing requirement.

32
33 **SECTION 22 DEBARMENT**

34
35 The Administrator will have the option to reject applications for Tax Credits or deduct up to ten
36 (10) points for the following reasons if the Applicant/Co-Applicant or any Project Participant:

- 37
38 1) Is included on the HUD, USDA or other federal, state or local Debarred or similar list;
39
40 2) Defaulted or failed to Complete Funding or Construction on a Tax-Exempt Bond Issue;
41
42 3) Defaulted under and/or failed to comply with any HOME and/or LIHTF;
43

1 4) Was involved with a LIHTC or Tax Exempt Bond issue project which was lost to foreclosure or
2 deed in lieu of foreclosure;

3
4 5) Made a misrepresentation, or provided false and misleading information, in any document
5 submitted to the Division or provided any false or misleading information to the Division;

6
7 6) Was convicted of a felony, prosecuted or investigated for fraud or misrepresentation by any
8 governmental agency or was investigated by the IRS for tax fraud or other Code violations;

9
10 7) Defaulted or failed to comply with any of the terms and conditions, including mandatory 15-
11 year and extended compliance, on a Bond or Tax Credit Project that receives a Tax Credit
12 reservation or allocation by the Division or any other State housing authority; and/or

13
14 8) Fails to pay any mandated charges or fees to the Division, or any other governmental agency
15 or authority.

16 17 **SECTION 23 LEASE UP REQUIREMENT**

18
19 All Project Sponsors will be required to contact the Division once the first building in the project
20 is issued a Certificate of Occupancy **and** prior to any lease-up at the property. The Division will
21 provide an orientation to Project Sponsors and on-site property managers regarding the long-
22 term compliance of the property with Section 42. The Division will review the state's Tax Credit
23 Compliance Manual with the project management and discuss the Division's compliance
24 requirements and project management responsibilities. This orientation is mandatory. Failure
25 to contact the Division as specified above will result in a delay of the Division's issuance of IRS
26 form(s) 8609.

27 28 **SECTION 24 ANNUAL INCOME RE-CERTIFICATION**

29
30 Under HERA, the Project Sponsor of a 100% low income project is exempt from the recertification
31 requirements under IRS regulation 1.42-5(b) (1) (VI) and (vii) and 1.42-5(c) (1) (iii) and is *not*
32 required under those sections to:

33
34 1) Keep records that show an annual income re-certification of all the low-income tenants
35 in the building who have previously had their annual income verified, documented and
36 certified;

37
38 2) Maintain third-party documentation to support that re-certification; or

39
40 3) Certify to the Division that is has received this information.

41
42 In lieu of recertification after year two of tenancy, *Project Sponsors must ensure that all tenants*
43 *annually complete a form of certification as prescribed by the Division.* The Alternate Certificate
44 must be dated and signed by the tenant(s) and the Project Sponsor's on-site representative and

State of Nevada Qualified Allocation Plan for 2016

1 the Project Sponsor must maintain a current Alternate Certification in each tenant file. The
2 Division will review this documentation during the annual compliance reviews. Project Sponsors
3 of 100% low-income properties are still required by the Division to perform a complete income
4 recertification upon first anniversary of tenancy. Projects that have less than 100% low-income
5 units *must* still perform a complete annual income recertification.

6
7 The Division regulations concerning tenant annual recertification may be updated from time to
8 time with at least 15 days' notice from the Division to comply with regulations or facilitate the
9 reporting of data. Additionally, the Division reserves the right to require annual tenant income
10 recertification at properties where gross negligence or non-compliance has been found.
11 Relaxation of Tax Credit annual tenant income recertification does not supersede requirements
12 for income recertification under other federal programs such as HOME.

13 14 **SECTION 25 TAX EXEMPT BOND PROGRAM**

15
16 IRC Section 42 allows Tax Exempt Bond Financed Projects to receive an allocation of 4 Percent
17 Tax Credits provided they meet the minimum requirements for an allocation in the QAP. The
18 Division's determination that a Project satisfies the requirements of the QAP will be based on the
19 proposed project meeting all requirements of the QAP in effect when the determination is made.
20 Applicants/Co-Applicants with Tax Exempt Bond Financed Projects must also meet all of the
21 requirements of the Division's Tax Exempt Bond Financing program requirements, as same may
22 be amended from time to time²⁸.

23
24 The Tax Credits allocated to Tax Exempt Bond Financed Projects are not subject to the annual
25 credit ceiling and, consequently, are not required to compete in the competitive allocation
26 process described in the QAP. Requests for these determinations must be made by the
27 Applicant/Co-Applicants after an award of bond volume cap is made by the State Board of
28 Finance. Requests must include all applicable fees, and a complete application.

29
30 Tax Exempt Bond Financed Projects may receive Tax Credits on the full amount of their Eligible
31 Basis only if at least 50 percent of the "aggregate basis" of the proposed project is financed with
32 Tax Exempt Bonds. Additionally, numerous bond-financing rules apply and many Tax Credit
33 requirements are different for Tax Exempt Bond Financed Projects. The Division recommends
34 that Applicants/Co-Applicants undertaking these Projects obtain advice from qualified tax
35 professionals to ensure that such requirements are met.

36
37 To receive 4% Tax Credits on a Tax Exempt Bond project, Applicants/Co-Applicants must comply
38 with the following:

39
40 1) The project must meet Section 11, Eligible Project Categories requirements as outlined in the
41 QAP. However, at the discretion of the Division administrator; all requirements in the eligible

²⁸ Information on the Division's Tax Exempt Bond Financing program is available on the Division's web site: <http://housing.nv.gov/>

1 project categories (Sec. 11) need not be met as long as it is determined that the project provides
2 decent, safe quality housing; and that it meets the needs of the tenant population.

3
4 2) Final allocation application (*at a cost of \$2,500 and payment of 9.5% of the Tax Credit Award*)
5 *with updated sources/uses/budget information.*

6
7 3) CPA of certification costs. *The Division will consider the initial CPA Certification of Costs as the*
8 *true and correct document for issuance of IRS Form 8609.*

9
10 4) Final energy analysis and inspection. The final energy analysis and inspection for new
11 construction must have a REM Index Rating of 86 or higher. The final energy analysis/inspection
12 for rehabilitation projects must show that all of the energy saving identified in the pre-energy
13 analysis have been properly installed.

14
15 5) Pre-8609 inspection by the Division. The inspection will include a review of proposed unit mix
16 and amenities in the application and completeness and construction.

17
18 6) Comply with Section 48, Lease-Up Requirement and timely curing of identified non-
19 compliance.

20
21 7) Letter certifying permanent financing is in place.

22
23 8) Letter acknowledging project has met ADA design standards.

24
25 9) The project must be in compliance with the Bond Regulatory Agreement.

26
27 10) Comply with Section 42 50% test.

28
29 11) The CPA cost breakdown must be submitted in a manner that is consistent with data input
30 to the AOD/Emphasys system. Forms will be attached to the Final Allocation Application.

31
32 12) The allowable developer fee for Tax Exempt Bond Financed project may not exceed 15% of
33 the Total Project Cost including the land.

34
35 13) 4% Tax Credits are applicable only to the Division multi-family revenue bond projects that
36 have received a Section 42m letter from the Division's Chief Financial Officer.

37
38 14) The Nevada State Board of Finance has approved the issuance of the Tax Exempt Bonds for
39 the project.

40
41 **SECTION 26 NOTICES TO THE DIVISION OF CHANGES TO THE PROJECT**

42
43 It is the Applicant/Co-Applicant's responsibility to notify the Division immediately, in writing, of
44 any changes to the Project subsequent to submission of an application, including the changes

1 listed below and any other material changes, by requesting the Division's approval of such
2 changes. If any proposed change results in adjustments to the project's original scoring,
3 regardless of the project's ranking, or if the proposed changes would have prevented the project
4 from achieving one or more of the original Threshold Requirements at initial application, the
5 Division may reject the Application and/or revoke the reservation or Tax Credit allocation. Failure
6 to notify the Division may result in the rejection of an application or termination of a reservation
7 or Tax Credit allocation. Approval of such changes will be made in the Division's sole discretion,
8 and the change may result in a change in the Tax Credit amount or other action by the Division.
9 A \$1,000 fee payment is required at the time of the request for approval of any changes. As a
10 condition of the submission of a request to the Division to approve a change to the project,
11 Applicant/Co-Applicants also agree to pay the legal fees and expenses incurred by the Division in
12 connection with the consideration of the request.

13

14 Examples of changes of which the Division must be notified:

15

16 1) Site control or rights of way are lost;

17

18 2) Project costs change in excess of five percent (5 percent) of the total development cost shown
19 in the application;

20

21 3) Applicant obtains additional subsidies or financing other than those disclosed in the
22 Application; loses subsidies or financing included in the Application; or the amount of any such
23 financing or subsidy changes by 10% or more from the amount shown in the Application;

24

25 4) Development cost contributions made by a state or local entity are reduced, increased,
26 withdrawn or substituted with other types of contributions than the ones originally proposed in
27 the application;

28

29 5) The syndication payment timing and/or net proceeds change from those stated in the
30 application;

31

32 6) The parties involved in the ownership of Applicant/Co-Applicants as represented in the
33 application change;

34

35 7) The unit and project design, square footage, unit mix, number of units, or number of buildings
36 changes. Substantial changes of this sort may result in a requirement to produce a new Market
37 Study;

38

39 8) A change in any support service provider and/or change in type of support services to be
40 provided;

41

42 9) There is dissolution, winding up of affairs, sale of assets, merger or business combination of
43 any Applicant/Co-Applicant or Project Sponsor, as applicable, or any Project Participant;

44

- 1 10) Any of the Project Participants change; and/or
2
3 11) Any other factor deemed material by the Division in its reasonable judgment.
4

5 **SECTION 27 DISCLAIMERS AND LIMITATION OF LIABILITY**

6

7 **The Division makes no representations to the Applicant/Co-Applicant, Project Participants, and**
8 **Equity Investor or to any other Person as to Project eligibility or compliance with the Code, IRS**
9 **Treasury regulations, or any other laws or regulations governing the Low Income Housing Tax**
10 **Credit program. Applicants/Co-Applicants, Project Participants, Equity Investors and all other**
11 **Persons participate in the Tax Credit program at their own risk. No member, officer, agent or**
12 **employee of the Division or the State will be liable for any claim arising out of, or in relation**
13 **to, any Project or the Tax Credit program including claims for repayment of construction,**
14 **financing, carrying costs, any loss resulting from a decision of the IRS, or consequential damage**
15 **or loss of any kind incurred by an Applicant/Co-Applicant, Project Participants, Equity Investor,**
16 **or any other Person.**
17

18 **SECTION 28 PUBLIC COMMENTS, DISTRIBUTION AND APPROVAL OF THE QAP**

19

20 **Public comments** are to be submitted to the Division in writing, by letter, fax or email, via the
21 contact information in the following Section 29. Written comments must be received by the
22 Division **by 5 p.m.** local time in Carson City, Nevada **five (5) business days** before any noticed
23 public hearing, meeting or workshop. Verbal comments will be received at the public hearing.
24

25 Following the first public meeting or workshop on the first draft a second draft will be released
26 for public review and comment with a comment deadline of five business days after the draft is
27 released. The Administrator may then act upon the last draft of the QAP. For more information
28 refer to www.housing.nv.gov or contact the Division.
29

30 The 2016 QAP was adopted by the Administrator on _____, **2015**.

The Division’s Las Vegas office is located at 7220 Bermuda Road, Suite B, and Las Vegas, Nevada 89119.

SECTION 30 MODIFICATIONS TO QAP AFTER ADOPTION/WAIVERS

The Nevada Housing Division reserves the right to amend or modify the QAP after adoption and posting, including its compliance and monitoring provisions, as required by the amendment of IRC Section 42, NRS Chapter 319 and/or NAC 319, as well as for errors, omissions, updated allocation estimates, updated population estimates, or other necessary information. Any amendments or modifications will be published in a Program Notice and/or Program Bulletin posted on its website at <http://housing.nv.gov/>. Applicants are encouraged to check the website frequently for updates.

Additionally, and notwithstanding anything to the contrary set forth herein, in order to assure the QAP has the flexibility to adjust to deteriorating market conditions, the Division in its sole discretion may waive any section of any year’s QAP (not otherwise required by IRC Section 42) that would under such circumstances hinder the ability of the Division to meet the goals and priorities of the QAP.

GLOSSARY – DEFINITIONS AND RULES OF CONSTRUCTION

For the purposes of the QAP the following definitions apply.

“Applicant” means any person or persons who submit an application to the Division under a qualified allocation plan for an award of LIHTC pursuant to the provisions of NAC 319.951 to 319.999, inclusive who will actively participate in the development of the low income housing project being proposed, receive the majority of the Developer Fee and be responsible for ensuring that the development of the proposed project is accomplished and that the project is successfully operated. Applicant includes Co-Applicants unless context dictates otherwise.

“Application Deadline” shall be deadline specified in Section 2A of the 2016 QAP for receipt by the Division of an application for an allocation of Tax Credits.

“Carryover Allocation” and “Carryover Allocation of Tax Credits” shall means the allocation of Tax Credits made by the Division when the Applicant/Co-Applicants have established to the Division that either: (i) each building in the project has satisfied the requirements of Section 42(h) (1) (E) of the Code; or (ii) in the case of a project-based allocation, of Section 42(h) (1) (F) of the Code.

“Co-Applicant” means a person who is one of two or more Applicants of the same project for which an application is submitted to the Division under a qualified allocation plan for an award

1 of LIHTC pursuant to the provisions of NAC 319.951 to 319.999, inclusive, who will actively
2 participate in the development and operation of the project and receive a portion of the
3 Developer Fee.

4
5 “Consultant” means a person with no ownership interest in a project retained by an
6 applicant or a sponsor as an advisor and/or to provide services to the Applicant or Sponsor
7 related to the project.

8
9 “Commence Construction” means the Applicant, owner or developer must have at least
10 obtained and must continue to hold all necessary preconstruction approvals required to proceed.
11 If all necessary preconstruction approvals have not been obtained and maintained, construction
12 has not commenced. In addition to obtaining all required permits, an Applicant, owner or
13 developer must also satisfy one of two additional requirements in order to be deemed to have
14 commenced construction. An Applicant, owner or developer must either 1) have begun a
15 continuous program of physical on-site construction or 2) one or more significant parties to the
16 contractual obligation to begin on-site construction must have been issued a notice to proceed.

17 “Declaration of Covenants” or “LURA” means the “Extended Low-Income Housing
18 Commitment” required by IRC § 42(H)(6) which must be in the form of a Declaration of
19 Affirmative Land Use and Restrictive Covenants Agreement (commonly referred as the “LURA”)
20 that is recorded and runs with the land on which the low income housing project is developed,
21 restricting the use of land by the owner of the land and its successors and assigns to the terms
22 and conditions of the project, as approved by the Nevada Housing Division.

23 “Developer Fee” is the fee described and defined in Section 14.14.4 of the QAP.

24
25 “Equity Investor” means the tax credit investor or syndicator for the proposed project
26 who will acquire an ownership interest in the proposed project and who contributes capital to
27 the Project Sponsor and the closing of the syndication. Equity Investors provide the capital
28 requirements of the Project Sponsor either in the form of a single contribution at the time of
29 entry or a staged level of contributions.

30
31 “Financial Statements” means a complete and accurate balance sheet, income statement,
32 cash-flow statement, and accompanying notes prepared according to generally accepted
33 accounting principles.

34
35 “Identity of Interest” refers to a relationship which may be presumed to be sufficiently
36 related for an entity to be treated as a single, continuing applicant for purposes of the QAP.
37 When certain financial, familial, business or similar relationships exist between or among the
38 parties participating in the development and operation of the Project there may be deemed to
39 be an identity of interest.

“Project Participants” means the entities and professionals assembled by the Applicant or Co-Applicants to own, develop and manage the project, including, but not limited to the Applicant or Co-Applicant, Project Sponsor, the Equity Investor, contractor, property manager and Consultant.

“LIHTC” or “Tax Credit” means a tax credit awarded under the Low Income Tax Credit program of IRC Section 42.

“Person” means a natural person, any form of business or social organization and any other nongovernmental legal entity including, but not limited to, a corporation, partnership, association, limited liability company, trust or unincorporated organization. The term does not include a government, governmental agency or political subdivision of a government.

“Project Sponsor” and “Sponsor” means an Applicant/Co-Applicants who receives a Carryover Allocation of Tax Credits and any other person who acquires an ownership interest in any owner of a project which has received a Carryover Allocation of Tax Credits from the Division.

“Submission Date” means the date an application for an allocation of Tax Credits is received by the Division which must be before the Application Deadline.

“State” means the State of Nevada.

For the purposes of the QAP, the following apply:

1. Headings. The subject headings of the paragraphs and subparagraphs of the QAP are included for convenience only and will not affect the construction or interpretation of any of its provisions.
2. Number and Gender. Unless the context clearly requires otherwise:
 - (a) Plural and singular numbers will each be considered to include the other;
 - (b) The masculine, feminine, and neuter genders will each be considered to include the others;
 - (c) shall, will, must, agree, and covenants are each mandatory;
 - (d) May is permissive;
 - (e) Or is not exclusive; and
 - (f) Includes and including are not limiting.

APPENDICES

Appendix C-1 NEW CONSTRUCTION

Required Energy Analysis Form

PROJECT NAME _____

PROJECT ADDRESS _____

Total Number of Units: _____ No of Buildings _____

Unit Distribution

1st Floor 1 BR _____ 2 BR _____ 3 BR _____

2nd Floor 1 BR _____ 2 BR _____ 3 BR _____

3rd Floor 1 BR _____ 2 BR _____ 3 BR _____

4th Floor 1 BR _____ 2 BR _____ 3 BR _____

Unit Size in Sq Ft

1 BR _____ 2 BR _____ 3 BR _____

Note where in project plans the requirements below are included

If information is on a plan sheet, note page number, if in separate report, note the Report Title

Mechanical equipment	Minimum Requirement	Project Use Y - N - N/A	Where Documented? PLANS PAGE # or Report
ACCA Manual J/S or equivalent Sizing Report	Required		
Return Air Balancing System	In dwelling units with ≥ 2 BRs, pressure difference with BR door closed and air handler running is ≤ 3 pascals.		

Conventional Forced Air Furnace	≥ 92 AFUE NORTHERN ≥ 90 AFUE SOUTHERN		
Split System Central A/C and Air source heat pumps up to 135,000 Btuh	≥ 13 SEER NORTHERN ≥ 14.5 SEER SOUTHERN		
Thermostatic Expansion Valves in AC	Required		
HVAC System Leakage	≤ 6 cfm or less/100 sq ft living space		
Combination Space Heating/Water Heater	≥ 80% Recovery Efficiency and 0.61 Energy Factor		
Water Heater Only	≥ 0.62 Energy Factor Residential ≥ 82% Thermal Efficiency Commercial		
Spot Ventilation and Mechanical Fresh Air Ventilation System	Meet ASHRAE Standard 62.2, 2010 Ventilation for Acceptable Indoor Air Quality		
Combustion Appliances inside conditioned space	Power vented or direct-power vented unit.		

Hot Water Conservation Requirements – please check to verify use in project

- Showerheads - Use ≤ 2.5 gallons per minute
- Faucets - Use ≤ 2.0 gallons per minute

Building Envelope	Northern, Rural	Southern	Project Use Y - N - N/A	Where Documented? PLANS PAGE # OR Report
Attic /Ceiling	R38	R30		
WALLS	R22/ R24 L. Tahoe	R15

Dishwashers	Energy Star Labeled		
Clothes Washers	Energy Star Labeled		

Note on Prescriptive Building Envelope Efficiency Minimums

In order to complete the energy use analysis please provide information as it pertains to this project. Efficiency must be equal to or greater than required minimums, unless an energy use analysis using an approved method demonstrates that the building and individual unit energy performance is equal to or greater than the EPA Energy Star Home program.

Please attach:

Site plan, building and unit floor plans, elevations, mechanical plans, window and door schedules, plumbing plans and electrical plans.

Please answer these questions for units / dwellings in the project

Flat Ceiling Height () 8 Ft () 10 Ft () Other _____ ft

EXTERIOR WALL INSULATION R VALUE, TYPE	
BAND JOIST INSULATION R VALUE, TYPE	
FLOORS OVER CRAWL SPACES R VALUE, TYPE	
SLAB FOUNDATIONS R VALUE	
WINDOW TYPE U and SHGC	

Note on Efficiency Minimums

In order to complete the energy use analysis please provide information as it pertains to this project. The efficiency of all replacement components must be equal to the required New Construction minimum requirements, unless an analysis using an approved method demonstrates that it would not be cost effective. The age of newly installed components will also be given consideration, please note any components that were installed less than five years ago.
