

New Hampshire Housing

Bringing You Home

September 27, 2017

This notice is to inform all developers who submitted preliminary applications for allocations of 9% Low-Income Housing Tax Credits (LIHTC) in August of this year that national Housing Trust Fund (HTF) money will be available this fall for commitment concurrent with the commitment of LIHTCs and HOME Investment Partnership resources. Because HTF funds are available for commitment, when scoring applications, Authority staff will consider an applicant's commitment of 10% of the total number of units in their proposed project for extremely low income households (category HFA 109.07.A.2.b).

In other words, the scoring category HFA 109.07.A.2.b is "in effect" and applications will be scored accordingly.

If you have any questions, please contact Natasha Dube, Program Manager-LIHTC at 603-310-9281.
