**Disclaimer:** The TDHCA estimates are based on an initial analysis of ARRA and other sources and do not take into account federal rules, which may be developed by the respective federal agency responsible for these funds, and may have a direct bearing on the amount of funds made available to TDHCA and Texas. TDHCA has attempted to use existing formulas as a basis for establishing estimates of the amount of funds however the Department believes that significant adjustments will be made that will have either positive or negative impact on the final funding amounts.
